

THE HOUSES OF PARLIAMENT:

Big Ben and the famous Clock Tower which is 340 ft. high, the dial is 23 ft. in diameter—with clock hands 14 and 9 ft. long. The Houses of Parliament building carries about 350 elaborately decorated statues of Kings, Queens and Patron Saints. When Parliament is sitting a light burns by night and a flag flies by day. In 1941 the House of Commons was practically destroyed by enemy action and is now re-built to its original form.

YONGE ST., TORONTO, ONTARIO, CANADA
 is said to be one of the longest streets in the world. It extends from the Toronto waterfront to Thunder Bay, Ontario, a distance of over 900 miles. Yonge St. is the main street of Toronto and divides the city east and west. Toronto is Canada's second largest city boasting a population of 2 million.

Sailing and motor-boating are major sports in Bermuda, traffic in Hamilton is directed by policemen dressed in shorts from what is called the "Bird Cage."
