We were shown how to use the computer with process writing and also its use with interactive fiction. We came to the conclusion that the computer would be a high motivator of children and ideally one in each room would be warranted. But because of the high cost of the equipment this would be impossible to achieve.
- 25 August School's fancy dress ball was held at Sherenden Hall. This year we used a theme for the evening, "Dancing Through the Ages". Pupils and parents performed a number of dances from the past including the haka, Charleston, can-can, the bunny hop, the twist and disco. Folk dances were also performed. The evening was extremely successful despite having a breakdown with the music and me having to make a mad dash back to school to grab an alternative record player and records.
