SWIMMING POOL PROJECT:

Last weekend despite the atrocious weather, Saturday morning saw a number of hardy and dedicated souls braving the elements to maintain progress with the work on the pool surrounds. To those few who turned out, we extend our appreciation.

Last week Pres.Frank thanked all the Fellows for the tremendous support being given to the project. With similar continued support Pres.Frank is confident the programmed work will be completed by the end of the Rotary Year.

PERSONAL: Pres.Frank extended a warm welcome back to Harry Taylor and Maurice Wiggins. It was good to have you both back with us Harry and Maurice.

CRIPPLED CHILDREN'S APPEAL: The Appeal organisers are seeking the Club's assistance with drivers for the House to House Appeal next Saturday morning (28 May). Pres.Frank asked those of us who are not committed to the swimming pool work, or our ladies (if we are) to act as drivers for the Appeal. If you can help - or can nominate someone who can - contact John Philips.

MEMBERSHIP: The District Governor in his April Newsletter writes -

"It is well known that membership losses (for the District) occur at the end of each Rotary Year and if last year's experience is repeated, the District could finish the year with a nil growth!"

"I do hope however that we finish with an improvement in membership numbers, but this can only be achieved if Clubs vigorously attempt to seek new members."

MEMBERSHIP: (continued)

And remember Fellows, pay particular attention to seeking younger members. Do not forget to make more use of additional active membership".

The D.G.'s request places an obligation on each of us to seek out and nominate for membership worthy men in our community who qualify and would be an asset to our Club.

LAST WEEK: It was our pleasure to listen to Michael Hocking of Sutcliffes, demonstrating the versatility of a number of electronic organs which Sutcliffes have available. Michael not only demonstrated what the instruments could do, but also his own capabilities as an organist! There is no doubt, in the hands of an expert, these modern organs have almost limitless capabilities, and can be an endless source of musical pleasure.

Our thanks to you Michael for your time in demonstrating these instruments, and Sutcliffes for making them available at our meeting.

VISITING ROTARIANS: Lance Peterson, Stortford Lodge; Charles Weatherall, Dunedin South; Denis Packer, Hastings.

GUESTS: Trevor Smart (Allan Bohm)

MAKE UPS: John Astley and Cyril Hall. Thank you Fellows for continuing your Rotary commitments while away.

ROTARY DOWN UNDER: Secretary Michael is reviewing the mailing list for those Fellows who have elected to take this magazine. He should be advised without delay if the postal address to which your copy of the magazine is being mailed, is not shown correctly.

INVOLVEMENT WITH YOUTH: From R.I. Newsletter - "Let us keep in step with our Youth"

"Serving youth keeps Rotarians in step with the changing character of the society and community in which they live. Involvement with young people helps integrate club members into their communities. Youth activities offer Rotarians an enriching opportunity to spread the ideals of Rotary along all the Avenues of Service .... keeping in step with the young helps Rotarians stay flexible and hopeful - two vital qualities that become renewed whenever youth and Rotary meet and work together."

FOOD FOR THOUGHT:            Membership Development

"We must never apologise for the need to recruit quality new members. When we stop growing, we start to die".

- Past R.I. President William R. Robbins.
