CORRESPONDENCE

ADDRESS

What do think of Wairoa
on these postcards beats at all eh.
These photos were taken from a hill
some distance from the town
consequently making it look smaller
than it really is. My bank is where
I put that cross near the wharf and
the house where I have my meals is down
near the other cross. There are some very
nice houses about here most of them
just recently built. I have not got
my things yet I am still living in
hopes if it keeps fine the boat might
be over by Saturday the sea is very
rough at present Love from
