POST CARD

CORRESPONDENCE

ADDRESS

I received your letter this morning would very much have liked to have been down there on Sunday to have gone for that bike ride with you, would have preferred driving though getting too old for biking. How are Freeman's Zert have not heard from them for weeks now. Another boy & I usually go for a walk between five & six but he could not go tonight so I am writing a couple of letters. There was a social here last night I did not go sat by the fire playing draughts all the evening, wish I had gone, now it was very good and all the pretty girls in the town were there, sorry I forgot. Love from  
yours Harold
