Dear Mr. Floyd,

I have taken up my pen, not to write at length, but to let you know I am still alive but nearly frost bitten. It has been very cold here lately, and the fire is the best place. I have been noticing the violets plentiful here, but what are yours like if you have any to spare. I would like a few for my little girl. She is a decent but very pretty and fascinating little what? mother does not know anything about it. You are you keeping. Hope you are feeling better. I am keeping fine at present, although my time is occupied with studying. You is m^r ~~well~~ wall and Lucas. Good-bye for the present. from
Your Sincere Friend
Merue
