## FORTY-HOUR WEEK IN FRANCE IS MODIFIED

### Grave Difficulties May Follow As Unionists Threaten Strikes

United Press Association—Copyright.  
 (Received August 25, 1.45 a.m.)

PARIS, August 24.

It is understood that M. Daladier does not intend lengthening the working week of all industries, says the Paris correspondent of "The Times."

Industries at present working less than 40 hours a week owing to the absence of orders, or which can obtain extra labour without difficulty, will not be allowed to work more than 40 hours.

If, however, new labour is not obtainable and orders cannot be executed owing to the restrictive effects of the 40-hour week, authority will be given to work 48 hours at an overtime rate of 10 per cent. above normal.

An earlier message states that despite assurances that the avoidance of a major Cabinet split means the continuance of the national harmony, all parties are clearing their decks.

It is felt that a new political phase has opened. More than one sign points to a return to the old antagonism.

Delegates representing a million metallurgical workers condemned M. Daladier's attitude to the 40-hour week. Union syndicates and the National Railway Union passed similar resolutions.

Forty-three thousand miners threaten to strike on September 15 if their wages are not revised and a 38 1/2-hour week is not given.

M. Leon Blum, in a telephone talk with M. Daladier, Prime Minister of France, urged him to take a middle course, acceptable even to Socialists, to enable their participation in the re-formed Cabinet.

### CHINESE ABOARD

Fear That Occupants Were Killed

 HONG KONG, August 24.

Japanese pursuit planes forced down an airliner owned by the Sino-America Company over West River.

A Macao message says that the Japanese flew low and machine-gunned the occupants as they were extricating themselves from the machine. The pilot, Woods, an American, arrived at Macao accompanied by a wounded Chinese passenger.

No foreigners were aboard. It is surmised that the plane was attacked because of the Japanese mistaken belief that Dr Sun Yat Sen's son, Dr Sunfo, was aboard; but he was on another plane.

Japanese machines, diving over continuously, but not firing, forced the airliner down in the Canton delta. A number of influential Chinese were aboard.

A British gunboat is going to the assistance of the plane.

A later message from Macao says that it is now feared that 12 occupants of the plane were killed.

With reference to the negotiations between the British Ambassador to Japan (Sir Robert Craigie) and Count Ugaki, a statement was made by the Japanese Foreign Office spokesman (Mr Kawai) who said:

"We have not said we want anything in exchange for our statement that Japan will respect third party interests in China, but we think it would be reasonable if they recognised some of our difficulties in fighting Chiang Kai-Shek, and refrained from aiding him."

 ADELAIDE, August 24.

Ferrier to-day entered the final of the Australian Amateur Golf Championship, defeating the South Australian, W. S. Rymill, 6 and 4. Ferrier played machine-like golf.

The other amateur semi-final was won by H. Payne, who defeated J. Barkel, 4 and 2.

A surprise in the professional semi-finals was the defeat of N. von Nida by C. Booth, one up. E. Cremin defeated G. Naismith, 5 and 3.

Miss Kernot staged a sensational uphill fight to defeat the New South Wales junior women's golf champion, Miss Crago, on the nineteenth green in the semi-final of the Women's Australian Golf Championship, played in inclement weather to-day.

Miss Kernot was five down at the seventh, but fought back to square the match at the sixteenth, and she won on the nineteenth.

In the other semi-final, Miss Ebert with magnificent approaches and putting, defeated Mrs Robinson five and four.

Miss Kernot meets Miss Ebert to-morrow over 36 holes.

Mrs Crombie (New Zealand) with a handicap of six, finished one down to win the eighteen hole bogey competition. Another New Zealander, Miss Ilston, with a handicap of ten, was the runner-up with two down.

### LITTLE ENTENTE AGREEMENT WITH HUNGARY

### Wildly Conflicting Views

 BERLIN, August 24.

On his arrival from Hamburg this afternoon, Admiral Horthy, Regent of Hungary, found a five-mile triumphal route to the Imperial Castle brilliantly decorated with all the grandeur reminiscent of Mussolini's visit.

Fifty thousand square yards of new Hungarian flags were displayed.

A grandstand to accommodate 10,000 has been built at Tiergarten, from which Admiral Horthy and Herr Hitler will to-morrow take the salute at a parade of the flower of the German Army.

Admiral Horthy is to stay in Hindenburg's Palace.

The political spokesman is eager to emphasise the fact that the Little Entente's agreement with Hungary in no way threatens Hungarian-German friendship, although some may suspect that some of the Entente countries are trying to draw Hungary from the Nazi orbit.

Greatest satisfaction is shown that Hungary has been released from military limitations.

The "Berliner Tageblatt" says that the dictated peace of Central Europe is not cracked, but shattered.

The London "Daily Telegraph's" Budapest correspondent says that Hungarian Nazis and extreme Nationalists are indignant because they feel that the Little Entente agreement precludes Hungary from participating in any eventual attack on Czechoslovakia, from which it was hoped that Hungary would be rewarded by sharing in the Republic's partition.

Elsewhere, the agreement is greeted with relief and satisfaction, though fears are expressed in some quarters about the consequences from Germany, where it will certainly be most unwelcome.

The agreement, according to a communique issued in Belgrade, covers a non-aggression pact between the Little Entente and Hungary, embodying the recognition of equality and Hungary's right to rearmament.

It is understood that a further communique will be issued reaffirming the Rumanian and Yugoslavian guarantee of Czechoslovakia's frontiers.

PHILADELPHIA, August 24.

Investigators describe the conditions of the County Prison isolation block like the "Black Hole of Calcutta."

They believe that the four convicts who died recently following a hunger strike in the prison were confined behind steel doors with the windows closed.

The water was turned off and the radiators heated to the limit, so that the men died slowly from intense heat and suffocation.

Nineteen others have been admitted to hospital nearly dead.

The coroner promised arrests if the autopsies warrant them. Relatives who viewed the bodies said that there are indications of violence to a shocking degree before death.

A message from Buffalo says that Captain Frank Hawks was fatally injured when an aircraft—a new type of small aircraft—crashed when taking off on a demonstration flight.

The plane struck some telegraph wires and burst into flames.

Captain Hawks and a passenger, Mr J. Hazard Campbell, received fatal burns. Campbell was a noted sportsman.

Hawks once said: "I expect to die in an aeroplane, and I won't feel happy if I don't."

Farmers pluckily pulled the men from the flames. An exploding fire extinguisher added to the danger.

The aircraft, the latest attempt to promote cheap flying, was burned out.

 RUGBY, August 23.

Contributions received to August 15 by the International Red Cross Committee for relief work in Spain, amounted to £18,500, of which £5000 came from the British Government.

Despite the discouraging nature of the response from other Governments to the committee's appeal, Britain decided in view of the valuable work which the committee is doing, to make a further contribution of £2500.

It is hoped that this will induce other Governments to make a contribution, but unless a further substantial amount is received by the committee from other Governments, Britain will have regretfully to refuse to subscribe further.

**CHALLENGE OF YOUTH**

**VIGOROUS DEFENCE MADE**

**CHANGING TIMES**

**Hastings Military Man's View**

Challenging statements made recently to the effect that New Zealand youth was softening physically by its "modern" habits have apparently created Dominion-wide controversy. Hastings, too, joins in with the argument.

The older generation, in general, agreeing with the statements concerned, are downright in their misgivings, but most of the young schoolmasters and of course youth itself express high indignation.

But the best defence of modern youth is made by Captain H. McKay, publicity officer for the Hastings district of the Hawke's Bay Regiment, whose work among many young men leads him to say with conviction: "Youth is not degenerating."

**Youth Different.**

When approached by a reporter of the "Daily Mail" Mr McKay said that he believed that much of the criticism on the subject was wrong. Youth to-day was different from youth yesterday.

"Conditions," he said, "have changed and leisure time has increased. It is my belief that the young man of to-day is far more practical in his methods than he was 50 years ago."

**More Training Needed.**

He admitted that there was still a need for more physical and military training in the Dominion, for many boys were round-shouldered and lacked sufficient development.

He admitted, too, that the use of leisure was not yet universally good, but advance was being made and young people year by year placed more stress on the things that really counted.

The writer tried to tradition. "Military training under modern conditions seems to give the young man a new outlook in life," he proceeded. This was borne out by the fact that police officials had observed that youths living in districts where there was no military training were in most cases lacking the character and physique of those who took part in the training.

**Part For Sport.**

Referring to sport, Mr McKay said that the average young man took part in many games, tennis, football, cricket, golf—because he played the game, not merely for the sake of winning it. For this reason sport was taking an increasingly important part in military training today.

In modern life there was no need for the deliberate cultivation of Spartan ruggedness.

When emergency arose youth would emerge itself to whatever readiness was necessary. It had done so in the past and would do so again.

**Ideals Changing.**

Ideals of physique were changing. The modern physical culturist and military officer aimed at building health and balanced fitness instead of big bodies.

Territorial training, nowadays, covered enjoyment, efficiency and education generally—a contrast with the stern training of the past.

The social activities of the Hastings territorials were extended with the formation of the Regimental Badminton Club. In addition regular musical evenings were held in the gymnasium, Mr McKay said, and well equipped, and it was bearing marked results. The Defence Department had offered to supply necessary equipment, and it is probable that more apparatus will be purchased in the near future.

The bringing together of young men from the ordinary live-stock markets large quantities of home-produced cattle of grades suitable for holding as frozen carcasses. If necessary, this frozen meat could be held in storage as a national reserve for as long as four years.

**Emergency Food Supply Scheme**

**BRITAIN PREPARES**

**Large-Scale Storage Reported**

**ROOM AVAILABLE**

A scheme, which is neither confirmed nor denied by the Food Defence Committee of the Board of Trade in Britain is being freely reported as authentic.

Inquiries as to the available cold storage space in the Kingdom are said to have been made by the committee. This supply will supplement the normal large stocks and will not consist of imported meat.

According to the London "Daily Telegraph," it is the Government's plan to buy in the ordinary live-stock markets large quantities of home-produced cattle of grades suitable for holding as frozen carcasses. If necessary, this frozen meat could be held in storage as a national reserve for as long as four years.

**Storage Capacity.**

It has been found that more than 3,000,000 cubic feet of frozen storage room is at command. The greater part of this was created hurriedly when there was a meat supply crisis in 1918. Since then it has been maintained by the cold storage industries at a cost of £10,000 annually.

An offer has been made by the trade interests to the Government to give all this storage space for frozen meat without rent, and to add to it if the warehouses are de-rated as are other food stores.

Should the proposal to place additional home-grown meat in cold storage be approved, the supply would be replaced by fresh supplies. The meat previously stored would be used for the Navy, Army, and Air Force, and foreign meat would no longer be used in rations.

The system would have the further advantage that the total supplies obtained in the country at all

**Coin Sorting Machine**

**AMERICAN'S FORMULA**

**"Plenty Candy But No Alcohol"**

**CONSUMPTION FIGURE**

A machine which sorts, counts, and tests mixed coins has been installed at the head office of the Bank of New South Wales in Sydney. It is claimed to be the only machine of its kind in the world.

At a demonstration, it handled hundreds of coins—pennies, florins, shillings, and shillings, and three-penny pieces—each, without faltering, threw each kind into a separate bag, counted them separately, and rejected all the spurious coins. Each coin was tested electrically in one-tenth of a second, and on the mixed lot the machine worked at the rate of £1000 an hour.

**Work Saved.**

It will save an enormous amount of work. On big race days the bank may receive between £2000 and £3000 in mixed coins. Before the sorting was mechanised, two men were required to sort the money, and up to about 20 men to count it. Now the same work will be done mechanically in less than three hours, and the men will be released for more important duties.

The installation is a further step in mechanisation of coin handling at the bank. In a special room in the vaults a whole battery of machines put through about £7,000,000 of florins and shillings every year.

A special counting and wrapping machine handles £10 worth of pennies, shillings, and two-shilling pieces, and only a minute is required to change it from one denomination to another.

Another machine of the same type counts and wraps sixpences and threepenny pieces. These two are claimed to be the only ones of their kind in the world. One of them can do the work of 12 men. The machines were all invented and installed by Mr R. J. Lyttle, a Sydney engineer.

American's are eating 16 pounds of candy a year each.

This is a Department of Commerce figure, and the 1000 delegates to the 55th annual convention of the National Confectioners' Association at the Waldorf-Astoria Hotel, New York, rolled it over their tongues as a sweet morsel. The total is even higher than last year.

Moreover, one of the major sales promotion hints the sweetsmakers are carrying home with them promises of even greater poundage. It was the assurance by Marvin ("Mal") Stevens, football coach of New York University, that the nation's athletes were the coming "candy kids" of America.

Telling the convention that 6,000,000 boys were playing football in the United States every year, Mr Stevens gave his "fitness" formula, based on his own football, basketball, baseball, tennis, and track schedule.

"By abstaining completely from alcohol and tobacco, but eating quantities of candy," he said, "I proved to my satisfaction from a practical standpoint that candy and sugar in moderate amounts are not harmful to the athlete, long before I knew of scientific investigations."

This brought the recipe of the "gridiron cocktail"—a mixture of dextrose, lemon, and water.

times would be much greater than at present, and the necessity of killing livestock in case of emergency would be reduced. So essential is it that arrangements of this sort should be conducted in secrecy that an official announcement of the details is unlikely.

**U.S. CUP TEAM**

**German's Views of Prospects**

United Press Association—Copyright. BOSTON, August 23.

The United States doubles tennis championships were continued today. Results:—

Quist and Bromwich (Australia), defeated Surface and McNeill 6-3, 7-5, 6-3-6-0.

The Australians played in a rather erratic manner, giving flashes of their best form only occasionally, but that was sufficient to dispose handsily of the Americans, who, while providing the best opposition the Australians have met so far, were badly outclassed.

Hopman and Schwartz (Australia), defeated J. Hunt and Wood, 3-6, 6-2, 7-5, 5-7, 6-4.

An unsteady start in the first set, in which the Australians had difficulty at the net and gave the Americans most of the points, the Australians settled down.

The Australians reached the peak of their form in the second set, displaying terrific volleying.

**Budge and Mako Win**

Budge and Mako defeated Sabin and Cooke, 4-6, 9-7, 6-3, 6-3.

Bobbit and Guernsey defeated Puncce and Kukuljevic, 6-2, 10-8, 6-6.

Allison and Van Ryn defeated Hughes and Hare, 3-6, 6-3, 14-12, 6-1.

Riggs and Grant defeated Farrin and Howard 6-4, 6-4, 6-4.

Mullery and Toley defeated Gilbert Hunt and Sutter, 7-5, 11-9, 5-7, 0-6, 6-2.

**Women's Doubles**

The women's doubles resulted:—

Misses Wynne and Coyne (Australia) defeated Misses Harrison and Lee 6-0, 6-2.

Mrs Hopman and Miss Stevenson (Australia) defeated Misses Winslow and McRae (seeded Americans) 6-3, 6-4.

Others entering the quarter-finals are: Miss Marble and Mrs Fabyan, Mrs Andrews and Miss Henrotin, Miss Stammers and Miss Lumb, Miss Bundy and Miss Workman, Mmes. Mathieu and Miss Jedrejowska, Miss Wolfenden and Miss Canning.

**U.S. Davis Cup Team**

The United States has nominated Budge, Mako, Riggs and Hunt for the Davis Cup.

After witnessing the day's matches, Henkel, the German Davis Cup player, expressed the opinion to the Press that Quist and Bromwich would win the doubles title defeated by Cramm and himself.

He added his belief that Australia has a good chance of beating the United States in the Davis Cup challenge.

**"Best in the World"**

"Bromwich and Quist are the best doubles team in the world," Henkel said. "They beat Budge and Mako three times in Australia, and they played even better there than against us in the Cup matches last week."

"The Davis Cup depends on Riggs. I have not seen him play. If Quist and Bromwich both can beat him they ought to win the cup by beating Budge and Mako in the doubles. I do not think either Quist or Bromwich can beat Budge in the singles."

The German captain, Uhl, is leaving at the end of the week for Germany. The others are likely to remain in Australia.

Henkel is planning to visit friends here for several weeks. It is even rumoured that he does not intend to return to Germany ever.

**A Japanese Film for China**

**CHINESE STORY**

**"Light from the East"**

**PROPAGANDA?**

**SHANGHAI.**

An experiment in Japanese propaganda may be undertaken as a result of a Japanese motion picture company, rather ambiguously named the "International Motion Picture Company," taking over the premises of the former Chinese "Star Motion Picture Corporation" at Penglinsiao, in the outskirts of Shanghai, and planning to produce a picture to be called "Light From The East."

Advance reports of the scenario say that it is based on the fictitious experiences of two Chinese students in Japan while they are at their studies, the plot provides that they are brought under the noxious persuasions of two Chinese political agents—one Kuomintang, the other Communist. But the two students spurn such lures toward "dangerous thinking."

On the other hand, they are influenced by a certain Japanese religious leader who befriends them, and introduces them to the beneficent teachings embodied in his "Asiatic Doctrine." This they embrace, and after their return to China they devote themselves to promulgating the doctrine and working toward the peace of the whole Far East.

Whether because of discrepancies between this scenario and Japan's current courses in China, or for some other reason, Chinese actors and directors have shown great shyness, despite Japanese efforts to persuade them to take part in the picture. In fact, nobody thus far has been willing to serve the company.

The local foreign language press suggests that possibly if Japan's ideals of Pan-Asia took a less violent form and one more in line with the views of the "certain Japanese religious leader" to be portrayed in the film, there might be a more enthusiastic desire by Chinese actors and the Chinese people as a whole to co-operate, respectively, in the cinematic production and in practical affairs.

**Affected Natives Who Remained In Hiding**

**EPIDEMIC EXPLAINED**

By Telegraph—Press Association. AUCKLAND, August 24.

Eight Rarotongans returning home after being cured of leprosy at Makoga arrived in Auckland some months ago. One showed signs of a disease thought to be smallpox and was admitted to hospital here. It was found, however, that it was only chickenpox.

While in the city some of the natives contracted measles, and that is how the present epidemic of measles began in the islands, said Lieutenant-Colonel F. W. Dawson, medical officer of health at New Plymouth, who returned this morning by the Matua from Rarotonga, where he has been assisting in combating the disease. The trouble started in February.

The returned natives thought that they had a recurrence of leprosy and kept in hiding. Friends also contracted measles and hid. Then a big dance was held so the epidemic was flourishing when attention was given to it. Up to the time Lieutenant-Colonel Dawson left there were 600 cases and 150 in hospital.

**Refrigeration To Be Ended?**

By Telegraph—Press Association. DURBAN, Aug. 22.

A method of preserving food by gas, developed by Dr. Hajaj, has been successfully tested. It is claimed that the method will revolutionise the food industry and end refrigeration. It will keep eggs for nine months and fruit for 12 months, costing 10/- per 30 tons.

Sugar is believed to be the basis of the process, which has been patented by a company which is being floated to exploit the method throughout the world.

The most important point about the method is that it can be used in aeroplanes, enlarging the scope of air transport. Ships fitted with refrigeration do not need alteration.

A new method of radio fire communication used by the United States Forest Service now mounts the apparatus on trucks and cars and employs regular shortwave frequencies instead of ultra-high frequencies.

**A HEAVY PROGRAMME**

United Press Association—Copyright. SYDNEY, August 24.

The New Zealand secondary schools Soccer team arrived yesterday by the Maunganui. They were cordially welcomed at the wharf by Mr R. Hastie, secretary of the New South Wales Football Association.

The boys were motored round the city, which they saw under wet weather conditions.

The boys were all fit and well with the exception of one who contracted measles during the voyage. As a result his three cabin mates were temporarily quarantined, the team thus being reduced to 11 players.

The boys will play their first match against the Commercial and Junior Technical Schools team on Thursday. All have been billeted comfortably at local schoolboys' homes.

The team managers, Messrs. Martin and Wells, are staying at a city hotel. They expressed surprise that their boys should have to face nine games in three weeks and expressed regret that the itinerary had not been sent to New Zealand before the team's departure.

ROAD SAFETY TAUGHT

"Courtesy Squad" of New South Wales Police

THOUSANDS ATTEND

Lectures by the Traffic Police Courtesy Squad, which were inaugurated in Sydney last May under Sergeant G. F. Davis, have now been given to 3500 motorists reported for minor traffic breaches.

On an average 700 drivers a week are requested to attend the lectures at suburban police stations, and 100 specially trained police are engaged in the work.

Not only are the rules of the road explained, but also the results of road tests are incorporated in the lectures to convince drivers that many of the 2144 lives which were lost on the roads in New South Wales between June, 1932, and June, 1937, would have been saved, and many of the 32,365 injured in the same period would have escaped, had drivers exercised greater care.

The lectures by the Courtesy Squad have been made so instructive that members of the public now attend, and applications are being received daily by Sergeant Davis from organisations employing all types of workers.

**Effects of Drink.**  
Sergeant Davis emphasises that alcohol should be rigidly avoided while driving. Tests with 15 experienced drivers have shown that one nip of whisky taken three hours after a meal increases driving speed by 6 per cent., and the number of driving errors by 12 per cent.

In a lecture Sergeant Davis said that speed was the cause, or the principal factor, in most road accidents. "Flashiness" and impatience in driving were inexcusable. Every day accidents occurred, and lives were lost, because of the selfish impatience displayed by some drivers.

**Speed Risks.**  
Tests showed that speed and the risks taken did not compensate for the time gained. A car which travelled 20 miles at a speed of 30 miles an hour reached its destination 20 minutes earlier than a car travelling at 20 miles an hour, but a car which maintained a speed of 40 miles an hour over the same distance arrived only 10 minutes ahead of a car which travelled at 30 miles an hour. It was not generally realised that a driver who risked his own and other peoples' lives by speeding to 50 miles an hour would reach the end of 20 miles only six minutes ahead of a car doing 40 miles an hour.

The Sydney traffic police, said Sergeant Davis, considered brakes with 65 per cent. efficiency safe, but few drivers realised that if a car was travelling at 50 miles an hour its brakes were almost useless in a sudden emergency.

**Braking.**  
"It has been proved that a driver requires at least a second to apply his brakes," said Sergeant Davis. "In that second his car has covered 44ft. If his speed is 30 miles an hour, 53.3ft. if it is 40 miles an hour, 73.3ft. if it is 50 miles an hour, 117.2ft. if it is 60 miles an hour, and 117.2ft. if it is 80 miles an hour. The death and destruction that a car can do in that second can easily be envisaged."

As any grocer's assistant knows, the difference between the 2/4 a pound tea and the 2/8 a pound tea had been a failure.

**"JUDGE HARDY'S CHILDREN"**

The "Hardy Family" In A Merry Story

"Judge Hardy's Children," third of the "Hardy Family" series, is the first attraction to-day at the Cosy Theatre, Hastings.

The new family comedy, with Lewis Stone, Mickey Rooney, Cecilia Parker and Fay Holden takes the family to Washington for hectic adventure in society, and among the lobbyists.

In the picture Stone, as Judge Hardy, is named on a power commission. The family leaves its country home; the daughter, played by Miss Parker, becomes infatuated with a State Department employee and takes a whirl at society; the son, played by Mickey Rooney, falls in love with the daughter of a French diplomat, dons his first tuxedo and winds up in disgrace when ejected from a fashionable dancing school for teaching the youngsters the "Big Apple."

Meantime the judge follows the plot of lobbyists, and the family returns to the country town of Carvel in triumph.

The thrills and drama of the war between the Steps in the 60's, furnish the interesting background for Hal Roach's feature-length comedy, "General Spanky," which is the second feature.

The picture opens with Spanky as an orphan shinning shoes for a livelihood on a Mississippi River boat. He meets Phillips Holmes, and the boy and his hero go through many thrilling and amusing experiences.

When the war breaks out Holmes becomes a captain in the Southern forces. Spanky is the "little general" with Carl Switzer the second general in the children's army. Their various activities bring the successful conclusion to the romance between Holmes and Rosina Lawrence.

WITTY SONG-FILLED COMEDY

Gladys Swarthout In Gay Romance

Gladys Swarthout, John Boles and John Barrymore head the cast of a witty comedy studded with brilliant songs in "Romance in the Dark," the Paramount picture which will screen to-day at the Regent Theatre, Hastings.

Miss Swarthout, in the role of the singer who must first turn housemaid and then princess to get her big chance, and Boles, the stage favourite who creates a bewitching Cinderella who later conquers his heart, lead their way to romance while John Barrymore adds his comedy to the piece.

After making a celebrity out of his serving-girl and palming her off on her employer's manager, a Persian princess in order to take his mind off a countess they are both pursuing, Boles-realises that he has been too successful and has fallen in love with the result of his handiwork.

Although Miss Swarthout loves Boles, she turns on him in anger when she learns that she has only been used to further his romance with the countess and accepts Barrymore's offer to appear in his new show. As a "Persian princess" she is a spectacular hit, but when a newspaper exposes her as a fake, the audience denounces her and starts a barrage of carots.

In a last effort to make her realise that he is sincere in his love for her, Boles rushes onto the stage, just as Miss Swarthout's act is about to be stopped, and with his influence on the audience turns her performance from failure into success.

The supporting cast includes Claire Dodd, as the beautiful countess, Fritz Feld, who won widespread attention for his comic performance in "I Met Him in Paris," Curt Bois and Carlos de Valdez. H. C. Potter directed.

INTRIGUE IN THE UNDERWORLD

Action Story and New "Jones Family" Film

An innocent romance that becomes involved in gangland intrigue and vengeance is the basis for "Law of the Underworld," RKO Radio's thrill picture, which screens to-day at the State Theatre, Hastings.

With Chester Morris as a gang leader, who hides his criminal activities behind a screen of legitimate activities, the story revolves around Morris's struggles with his own subordinates, who are jealous of his prestige, and around the troubles of Anne Shirley and Richard Olsen, who are forced into the gang by Morris and whom he involves in a new peril with the law.

Further complications are provided by the actions of Walter Wheel, who as a racket-busting prosecutor, seeks to wipe out the crime ring of which Morris is the unsuspected head.

The Jones Family's newlyweds get off to a flying start, but Dad has to fly to the rescue in the newest of 20th Century-Fox's famous series, "Love on a Budget," which is the second feature to-day. The bride runs home to Mother and "Get-Rich-Quick" Uncle Charlie moves in for the winter.

It starts out with the new home devoid of furniture. Then comes the perennial argument about whether the furnishings should be bought out of savings or on the instalment plan. There is a session of going home to mother; some bad cooking by the bride, and spattering of red.

Jed Prouty, Shirley Deane, Spring Byington, Russell Gleason, Kenneth Howell, George Ernest, June Carlson, Florence Roberts, and Billy Manhan are in their usual family roles, with Alan Dinehart, Dixie Dunbar, and Marvin Stephens also featured.

EXPERIMENTAL VIRUS FOR RABBITS

Tests by Australian Government

Some time ago Wardang Island, off the coast of South Australia, was chosen as the experimental ground for a virus which has proved very deadly to rabbits. It was hoped that following successful experiments which have just been concluded on the island, the Commonwealth Government would agree to the liberation of infected rabbits on the mainland.

It has now been announced by the Minister in Charge of Development (Mr F. G. Gasey) that Wardang Island is being restocked with rabbits preparatory to making further tests with an experimental virus introduced by the Council for Scientific Research. In the new tests methods of infecting the rabbits other than through the eyes are to be tried.

So far no other animals or birds kept on Wardang Island have contracted the disease, which has practically eliminated the rabbits.

WORLD'S PRODUCTION OF APPLES

Under-Consumption Shown by Statistics

The Imperial Economic Committee publishes a survey of the production and trade in apples and pears in the Empire and foreign countries.

It estimates that the world's total sources of production comprise 600,000,000 apple and pear trees, yielding between 500,000,000 and 600,000,000 bushels of apples and between 125,000,000 and 150,000,000 bushels of pears a year.

The report states: "If the old adage about an apple a day keeping the doctor away is true—and of the dietetic value of apples there is no doubt—probably no country in the world follows this rule of health."

"The consumption of dessert and cooking apples varies. The United States leads with a consumption per head probably exceeding 40lb. a year. Canada and New Zealand consume not much less. Australians consume more than 30lb. per head per annum."

"Any luck?" asked the farmer as he came upon a man fishing in the pond.

The angler shook his head.

Later in the day the farmer passed again. "Any luck?" he asked once more.

"No," muttered the fisherman. "Are there any fish in this pond?"

"Not as I know of," mused the farmer. "The pond wasn't there, ye see, until after last week's rains," said all.

SONJA HENIE'S GAY NEW FILM

"Happy Landing" Opens To-morrow

Happy tidings are in the offing for the Sonja Henie fans!

"Happy Landing," a show aglow with joy-laden wonder, winging from gay Norseland festivals to New York, where time spectacles comes to the State Theatre, Napier, to-morrow, with a Sonja radiant beyond imagining.

It tells the story of a song-writing band leader (Cesar Romero) who flies across the Atlantic for a publicity stunt and comes down in the middle of a folk festival known as the "Bride's Fair." The custom which starts the trouble is a rule that if a young man dances twice with the same girl at the party, he has proposed.

The band leader, a little bit amused because one lovelorn little girl is giving him plect of his favorite food—her worship—dances twice with Sonja Henie. That starts the silvery, sumptuous show on its way.

Don Ameche, the flying baton-wielder's companion, knows there is little or no sincere interest in Romero's attentions, inasmuch as he is very much engaged to an American girl played by Ethel Merman. From this point on, the whole new world of happiness opens for film fans.

A splendid shorts programme includes "Highlights of the Fourth Test," when Don Bradman turns the day with a timely century, and thrills of skiing at Mount Kosciuszko.

**Current Attraction.**  
"Tarzan's Revenge," thrilling jungle story, and "Everybody's Doing It," will screen finally to-night.

THRILLING ROMANTIC DRAMA

Spelid Musical Also Screening

Some of the most spectacular flame-fighting scenes ever thrown upon a movie screen are promised in the Warner Bros. melodrama, "She Loved a Fireman," which will continue to-day at the Gaiety Theatre, Napier, with Dick Foran in the leading role.

Foran plays a new chum fireman who comes under the command of a hard-boiled captain, portrayed by Robert Armstrong. The two become bitter enemies, even though Dick falls in love with Bob's sister, played by vividly good-looking Ann Sheridan.

This feud is ended by Foran's rescue of his superior officer during a gigantic waterfront blaze, in which both as well as land apparatus combat the conflagration. During the waterfront conflagration, Bob is disabled and apparently doomed to death in the flames, when Dick, by superhuman efforts, rescues him, and peace is restored all round.

Five new songs, all written by the ace composing team of M. K. Jerome and Jack Schaefer, are heard in "Warner Bros.' First National comedy, "Talent Scout," the second feature on the programme.

It is a thrilling, exciting story of a modern Cinderella whose Prince scot, and her passport to fairyland, a one-way ticket to the world's amazing movie capital.

A novelty entitled, "In the Silent Picture Days," is sung by Jeanne Madden, who also sings "I Am the Singer, You Are My Song" and "Born to Love." Miss Marquis, the torch singer of "Gold Diggers of 1937," sings a number called "No No Senor" and Miss Madden and Fred Lawrence sing in duet a love song entitled "I Was Wrong."

Added topical top off a splendid night of fun and thrills. Reserves at Gaiety Theatre, telephone 1060. No extra charge for booking.

Weather Forecasters

Whatever the official forecasters may say about the weather, Mr. J. Roy Smith, secretary of the Canterbury Chamber of Commerce, tells implicitly on the seagulls as prognosticators. When seagulls perch on the Christchurch Chamber of Commerce building, he avers, that foretells a change of weather in the next twelve hours; he has never known the birds—or his deduction from their behaviour—to be wrong. The Chamber of Commerce is unique in its only building in the city on which the gulls alight, although, particularly when stormy weather drives them from the beaches, scores of the birds forage for worms and scraps in the parks. Possibly the nearness of the building to the river, where the gulls often cruise up and down in company with the ducks, persuades them that it is only some old stranded hulk after all.

EXCITING STORY OF CITY LIFE

"Devil's Party" and "One Mile From Heaven"

An enterprising programme, now showing at the Plaza Theatre, Napier, comprises two main features, "The Devil's Party" and "One Mile From Heaven," together with the thrilling camera record of the epic fight, Louis V. Schmeling, in which each devastating punch is seen in slow motion.

Universal's "The Devil's Party" stars Victor McLaglen in one of his famous he-man roles.

Adapted for the screen from a novel by Borden Chase, this picture delineates the enduring friendships and fierce loyalties that develop among kids who grow up together in a great city.

Beautiful Beatrice Roberts, Paul Kelly, William Gargan, Frank Jenks, John Callender, Edward Gargan and Joe Downing have important roles.

"One Mile from Heaven," tells the human, exciting story of two mothers fighting desperately for the same child. Dramatically it presents the question of who has the greater right—the one who brought the little girl into the world, but thought her dead in a fateful car crash—or the one who nursed the child back to health, nurtured and guarded her, and came to love her as her own.

In this entangling situation is a girl reporter, assigned to track down the biggest news scoop of the year, yet to do so would blast the lives of three innocent people.

Claire Trevor is the reporter, with Sally Blane and Fred Washington the mothers fighting for the same child. Douglas Fowley injects the villainy with his consistent portrayal of the convict ex-prizefighter.

Skilfully directed by Allan Dwan, "One Mile From Heaven" is human, vibrant, dramatic, and thoroughly entertaining.

FINE PROGRAMME CONCLUDES

Ozark Mountain Story and Naval Drama

Every Tuesday, Wednesday, and Thursday at the Mayfair Theatre, Napier, is a guest season of the year, and admission prices are: All stalls 9d, all circle 1/-.

The first attraction on the programme, which concludes to-day with two sessions, is Virginia Weidler, Elizabeth Russell, and Henrietta Crossman, in "Girl of the Ozarks."

The young star has as her first vehicle a story of the life of a child in an isolated mountain village in the Ozarks, "Mill Stream."

Virginia falls into difficulties because of her high spirits and her free nature. Behind the moving story of the girl's troubles is worked a romance involving Leif Erikson and Elizabeth Russell.

When Virginia goes to the County Home, her pipe-smoking, mountaineer grandfather is sent to goal. Release of the two and the happy ending of the romance leave all four back in the placid mountain life of Mill Stream.

The second big feature is a dramatic naval story, "Gentlemen of the Navy," starring Sir Guy Standing, Rosalind Keith, Tom Brown, and Richard Cromwell.

Sir Guy Standing, in the role of a retired naval officer who lives in the memories of his days at Manila Bay when he fought under Dewey, gives one of the most superb portrayals in his career. His gallantry, his faith, his utter loyalty, is a living symbol to the teaching and doctrine which Annapolis represents. His supreme moment comes when in the memorable, momentous finale he prefers to go down with his ship, giving orders to phantom foes, rather than witness its sacrifice as a target in gunnery practice.

WORLD'S PRODUCTION OF APPLES

Under-Consumption Shown by Statistics

The Imperial Economic Committee publishes a survey of the production and trade in apples and pears in the Empire and foreign countries.

It estimates that the world's total sources of production comprise 600,000,000 apple and pear trees, yielding between 500,000,000 and 600,000,000 bushels of apples and between 125,000,000 and 150,000,000 bushels of pears a year.

The report states: "If the old adage about an apple a day keeping the doctor away is true—and of the dietetic value of apples there is no doubt—probably no country in the world follows this rule of health."

"The consumption of dessert and cooking apples varies. The United States leads with a consumption per head probably exceeding 40lb. a year. Canada and New Zealand consume not much less. Australians consume more than 30lb. per head per annum."

"Any luck?" asked the farmer as he came upon a man fishing in the pond.

The angler shook his head.

Later in the day the farmer passed again. "Any luck?" he asked once more.

"No," muttered the fisherman. "Are there any fish in this pond?"

"Not as I know of," mused the farmer. "The pond wasn't there, ye see, until after last week's rains," said all.

A SOCIAL EVENING

Good Practice For Players

IMPROMPTU SKETCH

The usual weekly social evening was held by the Napier Repertory Players on Tuesday evening when there was a fair attendance of members.

An impromptu radio sketch "Wild Oats," by Noel Coward, was read by Mrs Ulric Williams, and Mr Derek Waldegrave, and was very much enjoyed.

"Who speaks out of turn?" was of great interest, having been written by a local member of the society, Mr D. D. Waldegrave, and played by Miss Ruth Neild, Mr Leicester Bull, and Mr Jock Twigg.

In the final sketch, "Suppressed Desires," the players were: Mrs G. Wood as Henrietta Brewster; Mr J. Rosier as Stephen Brewster; and Mrs J. Rosier as Mabel.

Mrs J. Rosier rendered some delightful pianoforte solos, and Mrs Ulric Williams sang some charming songs.

A dainty supper was served at the conclusion of the programme.

Among those present were: Mr and Mrs J. Rosier, Mesdames W. Harvey, W. G. Wood, L. Stephenson, B. Bear, W. R. Gibson, Misses E. Stephenson, R. Neild, M. Grant, N. Harvey, W. McCarthy, Beechey, Trainor, Munro, Messrs G. G. Tyler, D. D. Waldegrave, J. Twigg, J. Fairclough, L. Bull.

Mr Orange Marmalade Lemon is a resident of Wichita, Kansas.

Tests have shown that the blood remains alive and germ-free for at least eight hours after death.

DRUIDS OF DISTRICT HOLD SUCCESSFUL DANCE

Annual Re-union Of The Albion, Eureka, And Ruataniwha Lodges

The annual re-union of the Albion, Eureka and Ruataniwha Lodges attracted dancers from all parts of the district to the Hastings Assembly Hall last evening, when a bright and jolly atmosphere prevailed and a thoroughly delightful evening was enjoyed by everyone.

The hall was gaily decorated with dainty scalloped streamers of pale green and violet crepe paper and overhead the stage Eureka Lodge stood out in bold letters.

This annual re-union is organised by the three lodges in rotation, the Albion Lodge entertain at Napier, the Ruataniwha Lodge at Waipawa, and the Eureka Lodge at Hastings. The committee from the Eureka Lodge for last evening's party consisted of Brothers Dean, Warrington, Ritchie, J. Murphy, P. M. Farquhar, W. Murton, Murtagh, and W. Williams, and the capable secretary, Brother O. A. Johnstone.

Music for the dancing was played by Lew Munro's orchestra and a varied programme was enjoyed, competition dances adding to the evening's entertainment. The M.C.s were Brothers P. M. Farnell and W. Murton.

For the non-dancers a 500 tournament was arranged in the room adjoining the hall and prizes awarded to the winners. Brothers W. Williams and T. O'Neill were in charge of the cards.

Just before supper Brother Dean, A.D., extended a welcome to all present and expressed pleasure at seeing so many, especially those from the surrounding district. He said an apology had been received from Mr E. L. Cullen, M.P., who was unable to be present but he had signified his intention of attending the Eureka Lodge meeting on September 13, when he would address the members on the National Health Scheme. An invitation was given to all members to attend this meeting.

A delicious supper was then enjoyed, the long tables in the supper room being decorated with crystal vases of white narcissi and pink carnations.

Among those present were: Sister E. Pedersen (Waipawa), District President, brown French silk gown with touches of beige in the trimming; Sister B. Griffin (Waipawa), P.A., gown of bottle green angelskin suede silk.

Mrs L. Wanstall (Napier) P.A., black marlette gown with a jewelled corsage clasp; Sister A. Shierlaw, P.A., cherry matelasse with a belt clasp of brilliant.

Mrs E. Cottle, pink suede satin with a silver plait outlining the neck; Mrs Pearce Eddy, vivid blue satin worn with a cluster of gold flowers at the neck.

Mrs A. H. Eddy, black neeuler lace gown having puffed sleeves and pink corsage flowers; Miss T. Exeter, black matelasse with jabot in vivid stripes.

Mrs A. H. Liley, black marlette with touches of red and green trimming the corsage; Mrs H. G. Gray, navy blue flowered silk with an inset of green chiffon in the corsage.

Mrs A. Flack, black taffeta gown with collar of silver lame; Mrs R. Fergusson, black marlette gown worn with two white camellias at the neck; Mrs W. Osborne, burgundy lace with a fancy jabot of velvet in the same shade.

Mrs P. Norman, black suede satin worn with a coat of panned velvet; Mrs Robert Pilcher, powder blue georgette gown with a red sash; Mrs L. Cooper, white suede silk patterned in orange shades and having a Peter Pan collar.

Mrs W. Binsley, crown of black French neeuler lace; Mrs W. Murton, ivory satin charmelaine with inset godets of fine lace; Mrs J. Summers, magnolia soule satin gown worn with a coat of violet shimmer satin.

Mrs E. Draper, flame taffeta with silver edging the bolero; Mrs E. Potts, black chiffon velvet with gold belt and gold button trimming; Mrs L. A. Miller, green floral chiffon worn with a coat of plain green chiffon; Mrs W. Staniland, myrtle green angelskin lace gown with insets of georgette.

JESSIE MACKAY A TRIBUTE TO A GENIUS

With the death of Jessie Mackay, New Zealand loses a genius whose place cannot be filled, and many who did not know her personally but who know her poetry and perhaps something of the spirit which inspired her life and her work, will feel that they have lost a friend.

The loss of such a woman will be felt the more to-day, when, if ever a young and somewhat bewildered country needed one in whom the powerful temperament of the Celt was blended with a gracious charm which pervaded all she did and wrote, it is the New Zealand of the present day.

It is for the future to decide whether Jessie Mackay was ever adequately recognised during her lifetime for what she was—one of the few true geniuses which New Zealand has produced. It may have been that she herself, in her abhorrence of anything approaching self-advertisement, was principally responsible for the fact that in spite of the wide popularity of some of her earlier work—such as the lovely little "Rona in the Moon" and "The Grey Company"—Jessie Mackay was something of a legendary figure to all but a comparatively limited circle. But to those who knew her it seems that the tragedy of her life was ever published during her life. That, at least, might have brought some of the recognition which she never sought, but which was nevertheless her due.

Home In The Hills. For many years Jessie Mackay had lived in a charming and secluded home on the slope of a valley of the Cashmere Hills, near Christchurch. To this home went men and women of many nationalities and creeds, all assured of the welcome which made the house a place of pilgrimage for young and old.

Jessie Mackay never lost her interest in youth or the outside world. Those who had known her as children could always go to her as grown-ups confident that she would be unchanged and ready to rejoice with them in success or to give generous sympathy in disappointment.

She had all the fiery patriotism of the Gael. The cause of troubled Ireland always lay close to her heart, and when Ireland was given that form of Government which had long been known as "Home Rule" it was the similar, if less bitter, cause of the country of her ancestors which won the support of Jessie Mackay's enthusiasm. One of her dreams was to see Scotland again as a free sister-nation of England, still firmly linked with the United Kingdom, but freed from the seeming stigma of being regarded as a part of the world rather than as a more populous kingdom of the south.

But Jessie Mackay was no fanatic. Her enthusiasm was bound by reason and an unflinching sense of humour. To the end she maintained her faith in the Presbyterian form of worship, but she detested anything savouring of bigotry.

Recent Work. Within recent years she published several small collections of poems. They showed no sign of faltering or of any loss of her amazing power to make music with words. She drew on both New Zealand and the Old World for inspiration, but whether she wrote of legendary figures of the ancient Maori or of scenes and people of the nations which compose what New Zealanders term the Motherland, there was always the lilt and undercurrent of pathos and mysticism which came to her with her Celtic blood.

She had an active life as writer, teacher and journalist, but she retained a graciousness which is virtually lost to the present-day world. She sighed at the passing of what was old, but she was ever eager to welcome what was new.

Her death marks the passing of an era in the history of New Zealand. The modern world does not permit the development of those in whom the kindly sympathetic charm of more leisured days is mingled with the fearless adventurousness of a new age. Those who knew such people as this have memories which will be dear to those who come in the future.

There will never be another Jessie Mackay—a great woman who was also, in the Victorian sense of the words, a great lady.—J. K. STONE.

**The National Party**

Sir,—I was much intrigued by the full page advertisement of the National Party in today's "Daily Mail".  
I note that they have issued themselves with a medal ribbon. This will no doubt amuse a lot of returned soldiers, who will be asking what any of the six candidates portrayed in the advertisement did in the Great War, or even during the great slump of 1931-1936. Perhaps the said ribbon was issued by Mr. Polson—"Lest We Forget."—I am, etc.,

**Hospital Board Expenses**

Sir,—I am not like "Mr. McClusky", because I do not mind what proportion of my rates are spent by the Hospital Board in wages and allowances as long as there is no class distinction, and every employee is treated on the same basis and gets a fair deal.  
As long as this policy is carried out it will have the support of all ratepayers. I am sure there must be a reasonable explanation for the wide discrepancy in living out allowances quoted and that your readers would like to hear of it.—I am, etc.,  
PLAIN JANE.

**Movement Progresses**

In the past few years the objective of the police in New South Wales has undergone a great change. From the apprehension of criminals it has evolved into the prevention of crime.  
In the past year or 18 months the establishment and development of the police boys' clubs has given the police a new slogan—"Attack crime from the cradle."  
On his return from his last world tour, the Commissioner of Police, Mr. W. J. Mackay, brought the idea of the clubs back with him. He had seen them at work in England, and he argued that what had been accomplished at Norwich and elsewhere could be done equally well in Sydney. He discussed the idea with representatives of the Rotary Club, and it was decided to establish an experimental club for boys in Sydney.  
Movement Progresses.  
Both the Premier (Mr. Stevens) and the ex-Chief Justice (Sir Philip Street) took an interest in the project, and from the opening of the Woolloomooloo Club on April 4 last, the movement has gone forward with marked success.  
Four clubs have been established in the metropolitan area and there are 11 in the country districts.  
The object of these clubs is to provide healthy recreation for the youth of the poorer section of the community, with a view to keeping them from street corners and such places and company which might have a tendency to bring them into an unwelcome environment.

**AMALGAMATION OF FIRE BOARDS**

**DISCUSSION AT WELLINGTON**

**COMMITTEE MEETS**

**Municipal Association in General Approves**

By Telegraph—Press Association.  
WELLINGTON, August 23.  
The possible amalgamation of fire boards with municipal authorities was discussed before the select committee on the Local Government Amalgamation Schemes Bill this morning. Amalgamation was opposed by the Fire and Accident Underwriters' Association but was approved with certain safeguards by the Municipal Association.  
Mr. R. Caughley, for the former, said: "We are not expressing any opinion on the general question of amalgamation, but are concerned at the possibility of fire boards being amalgamated with local bodies, and therefore request that fire boards be deleted from the definition of local authority in the Bill."  
He said that boards were established to obtain great efficiency than when boards were controlled by local bodies.  
A question put to Mr. Caughley largely related to life safety as distinct from the saving of property, but Mr. Caughley thought that the companies placed life before property. Naturally, they wanted to save property they insured, and they considered that the existing control was good. They admitted that amalgamation might be better for both local centres. Local bodies should be entirely responsible for building by-laws.  
"Was not one of the reasons for setting up fire boards the inability of local bodies to keep up equipment?" said Mr. J. W. Munro, M.P.  
Mr. Caughley said that that was the position.  
In placing the municipal attitude, Mr. J. W. Andrews, Mayor of Lower Hutt, agreed that fire boards had helped to keep local authorities up to scratch, and that lent force to the suggestion that those interested should have representation on advisory committees.  
"It is pointed out for the consideration of the committee," said Mr. Andrews, "that unless special provision is made either in the Bill or in an amendment to the Fire Brigades Act, it will be impossible for local body authorities in districts which are not already in fire districts to obtain any contributions from fire insurance companies towards the cost of their fire brigades organisation."  
"It is suggested that provision should be made, either in this Bill or in special legislation, to overcome this difficulty and provide for both the municipal administration and the insurance contribution to the cost."  
"Municipalities that control their own fire-fighting organisations are at a distinct disadvantage financially to those who were a fire board exists," said Mr. Andrews, "and in such areas recent heavy increases in costs are being borne exclusively by the ratepayer."  
The Municipal Association is of the opinion that, in the case of contiguous municipalities, arrangements should be made either for amalgamation or the unit control of the fire brigade organisation, as in the case of the metropolitan fire boards at Auckland and Dunedin, or, alternatively, for close co-ordination and support between fire brigades maintained by contiguous municipalities.  
Mr. Andrews pointed out that no specific provision was made in the Bill to cover the case of the amalgamation of contiguous local authorities which had fire brigades under both municipal and fire board control. There was some doubt as to how the Act would operate in such cases. Some of the smaller boroughs were concerned lest the new Act would be inordinately, and they were particularly desirous that nothing should be done that might destroy the magnificent volunteer movement.  
The committee adjourned until Tuesday.

**Impressive Film On Saturday**

**REGENT, HASTINGS**

**Jackie Cooper In "Boy Of The Streets"**

**GOOD THROUGHOUT**

Coming from sensational successes abroad, "Boy of the Streets," will no doubt create a similar appeal to New Zealanders. The film will commence a season at the Regent Theatre, Hastings, on Saturday.  
One of the most popular juvenile stars of the screen, Jackie Cooper, now 16 years of age, gives a sincere and convincing performance in the principal role. Since his earlier pictures among them "Donovan's Kid," "The Bowery," "Treasure Island," "Peck's Bad Boy," and "The Devil is a Sissy," Cooper has made remarkable progress in the screen world.  
If ever a film gave evidence of being a labour of love it is this one. The directing is inspiring, but no less important is the utter honesty of the acting the sanity and deep feeling of the dialogue, the quiet moving beauty of the photography.  
The whole atmosphere is so convincing, the characters and situations so real and recognisable that the picture has an everyday intimacy which modern drama seldom achieves and historical drama practically never.  
Having a simple story, "Boy of the Streets," tells of the children who grow up in the sombre shadows of the tenements. The camera focuses on Chuck, leader of a gang of young hoodlums, catching him at the sensitive adolescent age when he is first forced to decide what is right and what is wrong. Chuck's only ambition is to be a "big shot" like his father and when he suffers youth's greatest disillusionment—the discovery that his parent is a fake—he attaches himself to Blackie a public enemy, sinister symbol of the power Chuck means one day to possess.  
But a greater disillusionment, the discovery that gangster methods are cowardly, teaches Chuck the meaning of words like honour, courage and success, and point the way to discipline and decent citizenship.  
Marjorie Main, New York stage star, wins spontaneous applause as Chuck's mother.  
Kathleen Burke and Gordon Elliott supply the love interest, and Maureen O'Connor, radio's "Baby" star of 1937, makes her debut in this picture, co-starring with Cooper as the little Irish lass who stands beside him in his fight to conquer his environment. She sings beautifully, and is an impressive little actress.  
"Boy of the Streets" is a picture of real life with a real moral—a picture every parent, every man and woman, boy and girl should see.

**Returned Soldiers' Pensions**

**CITIZEN.**

Sir,—May I put in a special word for the Returned Soldiers during this time when the Social Security Bill is before the country?  
Surely it would be a wise gesture on the part of the Government to make a generous exception and give the pension to returned soldiers five years earlier than for the ordinary citizens. Undoubtedly they are suffering from the rigours of war service and deserve from a grateful country special consideration.  
Perhaps the Government in remembering all that was done for this country by the soldiers of 20 years ago could perhaps give, say, five shillings a week more, for the pensioners who are also returned soldiers.—I am, etc.,  
CITIZEN.

**HIS ART DESCRIBED**

Lawrence Tibbett, famous baritone of the Metropolitan Opera Company, who will be heard in Hastings on September 1st, has great reverence for his art. The secret of Tibbett's art is that the words of a song are just as important with him as its notes. His intense dramatic feeling, his sense of humour, his manly grasp of profound pathos causes tears to follow smiles with bewildering subtlety.  
"When he sings, whether it be a great aria or a simple song, he makes an impression so vivid that he captures his audiences. Everything he sings becomes a scene, and each word in that scene expresses to the full its meaning, a meaning heightened by the varied colouring which he gives. And his clarity of enunciation is such that each individual word not only can be, but must be understood."  
His voice is capable of clarion tones, but it is quite capable of a softness in mezza voce whose quality can only be described as ravishing. On the stage Tibbett's manner is of a combined dignity and friendliness, the dignity expresses his attitude towards his art, and the friendliness his sympathy toward his audience.  
But, when chance comes and propriety allows it he is humorous. This happens, for instance, when he takes a course in English, the biting satire of "The Flea" by the Russian composer, Moussorgsky. Then he smiles so broadly, even before beginning it, that his audience smiles, too, presently bursting into laughter at a provocation which is irresistible.  
In interpretation, Lawrence Tibbett is the most astounding singer.  
One concert only will be given in the Municipal Theatre, Hastings, on Thursday evening, September 1st.

**NEW ZEALAND POET DIES**

**Miss Jessie Mackay**

**HER PLACE IN OUR LITERATURE**

**Work For Humanity**

By Telegraph—Press Association.  
CHRISTCHURCH, August 23.  
One of the most honoured figures in New Zealand literature, Miss Jessie Mackay, died this morning at the age of 74.  
Born at Rakaiia Gorge, where her father had a sheep station, Miss Mackay spent the greater part of her life in Canterbury and found inspiration for much of her finest poetry in the foothills of the country where she was born.  
The publication of her volume of verse, "Land of the Morning," more than a quarter of a century ago, was an important event in the history of New Zealand literature, containing as it did some of the noblest verse that has yet been inspired by the scenes and traditions of this country.  
Combining in her character and her writing the finest qualities of the colonial with the fire, enthusiasm and intense love of country typical of the Gael, Miss Mackay devoted her ardent sympathies and eloquent tongue and pen to humanitarian progress and the cause of the oppressed.

**A SUPERLATIVE DOG**

**JUDGED BY ITS EXPRESSION**

**"KINDEST FACE"**

**Queer American Competitions**

NEW YORK.  
Trixie, who up to now has been just a brown dog of the lower East Side, has a blue ribbon to-day as "the dog with the kindest face." Superlative in facial expression, the judges put it, at the first annual pet show in the James Centre of the Children's Aid Society in Hester Street, when Trixie won her distinction before 500 spectators.  
At the same time 20 other cats, dogs and various pets of the tenement area are basking in the glamour of blue ribbon fame. They, too, were decorated for many reasons foreign to the dog fancier.  
Thus Ginger, sort of a Staffordshire terrier belonging to Ralph Pucca of 58 Elizabeth Street, is now known authoritatively as "the dog with the largest ears." Pussy, the pet of a little Chinese girl, Celia Doon, who lives at No. 111 Mott Street, is "the cat with the most colours." Recipients of other honours are "the dog with the largest feet," "the cutest kitten," and "the dog with the most spots."  
But the brown-eyed Trixie is regarded as a bit outstanding.  
**Eyes and Tail.**  
According to Steve Severn, known to radio fans for his "Pet Club of the Air" talks, who was one of the judges at the show, "the way you tell if a dog has a kind face is to see if his eyes and tail co-operate." Trixie's performance of that shining-wagging co-ordination revealed eyes that were "trustful, sympathetic, cheerful, yet with the fire of alertness," and a staccato tail.  
Roy E. Gilson, supervisor of the seven city branches which the society maintains, told of the movement to encourage children to have pets, to treat them well and feed them properly. Frank Hawarch, representing the American Society for the Prevention of Cruelty to Animals, awarded some of the ribbons at the show, which had more than 100 entries.

**MALICIOUS DAMAGE TO CLOTHING**

**New Plymouth Girl's Experience**

At least three dresses and a costume belonging to a New Plymouth girl have apparently been slashed with a razor during the past month and it is understood that she has also lost £2 from her room at a private hotel.  
The damage is thought to have been done by someone with a grudge against her, although no cause for any person to take such revenge is known.  
About a month ago she found one dress damaged and at various times since the others were ruined, the last being discovered when the owner was preparing to leave for a holiday in Auckland. She also discovered that money was missing. The time the damage was done and whether it was all done at the same time are not known as the frocks and the costume are rarely worn. They are of high quality, being evening frocks and a costume purchased for wearing on special occasions.  
No one else in the same hotel has complained of losses or of vandalism among their belongings, the opinion being that the girl has been victimised.

GRADATIONS OF UNITY

To say that unity is strength is to use a familiar expression, but not necessarily to speak the truth. It all depends upon the kind of unity.
There is a kind of psychological unity, for instance, which judges in the courts instinctively suspect, as where two or more witnesses tell precisely the same story in practically the same words.

AUSTRALIA FACES CERTAIN DEFEAT

England's Prodigious Total

BRADMAN INJURES LEG: OUT OF GAME

Records Go In Final Test

United Press Association—Copyright. (Received August 25, 2 a.m.)

LONDON, August 24.

A fall in which Bradman broke a tibia of his right leg to-day added to the cumulative misfortunes which have beset Australia in the final cricket Test.

Bradman will take no further part in the Test. Fingleton, who strained a muscle in his leg yesterday, will not play in Australia's first innings.

England's innings, which was declared at 903 for seven wickets, broke nearly every Test record.

Hutton was finally caught at 364 after breaking Bradman's Test record of 334, and Abel's 355, the previous highest score ever made at the Oval.

Early to-day the English score passed Australia's previous Test record of 729, and later Yorkshire's record innings for first-class cricket of 887 went by the board.

Hutton had added only three in 15 minutes when he mistimed a drive and was caught in the covers. He had batted for 134 hours. He gave only one chance, at 40. He hit 35 fours, 15 threes and 13 twos in an innings of momentous solidity. He rarely attempted severe hitting.

"Pleased It Is All Over"

HUTTON'S COMMENT

Slow Scoring Severely Criticised

"WRETCHED BATTING"

United Press Association—Copyright. LONDON, August 23.

Hutton, in an interview, said: "It was a tiring job. The Australians bowled well and did not give runs away. It am pleased that it is all over. It was very difficult to get the last runs."

The Australian Associated Press says: "With the accident to Bradman capping the Australians' misfortunes, defeat is inevitable in the face of the unparalleled score built up by hair-shirt methods."

After the excitement of Hutton's breaking Bradman's record, a prodigious feat of endurance, the mass emotion was best expressed by 30,000 yawns.

"Had Bradman shown even normal batsmanship, England should have had at least 1000 runs on the board when Hammond declared."

"How a young and active cricketer with a reputation for forcing play could go on playing maidens from McCabe, Hassett, Barnes and Bradman remains a mystery."

"It was not the gigantic score but the wretchedness of the batting after all the worth-while records that were broken that reduced the game to a state nobody wants to see repeated."

"The agreement regarding the formation and letting of a contract is at present the subject of cablegrams with the British and Australian Governments. The intended triangular service between Auckland, Wellington and Sydney will be carried out as soon as facilities are available in Wellington. The initial terminal will be Auckland. Plans are under way for the construction of a modern base in Auckland and the establishment of necessary wireless facilities."

The New Zealand Government will control 39 per cent. of the shares in the company, the balance to be held in the proportions of 38 per cent. by Imperial Airways and 23 per cent. by Qantas Airways. Of the directorate of six, two will represent the New Zealand Government.

Until arrangements can be made for a call at Wellington, there will be two flights each week between Auckland and Sydney, and ultimately the service will be thrice weekly each way.

The star of the Canterbury back line was Hooper, who has just returned from the All Black tour of Australia. His phenomenal speed off the mark, and almost unbelievable nimbleness, enabled him to weave his way through the defence on many occasions, but most of his efforts had to come from breakdowns in the opposing attack.

Scorers for Hawke's Bay were: Fox, a try and two penalties; Wilson, a try; and Bradley, a penalty. Scorers for Canterbury were: Foley, a try; and Heazlewood, a penalty.

Morrison registered the whole of the points scored by South Canterbury kicking four penalty goals and also a field goal.

The game was marked by solid encounters between the forwards, but the back play on both sides lacked finish.

At half-time Otago were leading by 17 points to six.

On the day's play the local side held the advantage, and deserved its win, chiefly as the result of fast following-up by the forwards in open play.

South Canterbury fielded a very solid pack of forwards, and they tested thoroughly the opposing pack in tight play. Probably Otago, in matches to be played, will not meet a more rugged and hustling van-guard than it met to-day at Carisbrook, but the visiting pack lacked finish and were not able to serve Saxton with the ball as well as Howden, the opposing half, was able to feed his backs.

The spectators were naturally very interested in the play of the five All Blacks who have just returned from their tour of Australia, Morrison, on the wing, creating a very favourable impression. He generally had to make his own play, and he shaped well, both on defence and attack.

Saxton was always close to the ball and made one or two penetrating thrusts, but he was well watched. He, however, gave glimpses of the form which won him such a fine reputation in Australia.

Taylor played well up to All Black standard. His line-kicking generally being marked by direction and length.

He scored one spectacular try by fast following-up. Black put in a high kick, and two or three defenders were beaten by Taylor, who jumped in the air for the ball, secured it and fell over the line. Parkhill also scored a well-deserved try by solo following-up.

The game was helped up to a considerable extent by the number of penalties awarded.

The ground was in fine order, but on the hard side, a 1 in places dust clouds rose.

At the crutchings and oddment sale to-day, 1734 bales were offered to a representative bench of buyers, competition being confined to Bradford and the Continent.

A feature of the sale was the absence of Japan and Dominion mills.

Fully 40 per cent. of the offering was passed. The range of prices was as follows:—

Merino crutchings, 5d to 7d; half-bred crutchings, extra good 6d to 7d, average to good 4d to 6d; three-quarterbred, extra good 6d to 7d, average to good 5d to 6d; cross-bred, extra good 6d to 7d, average to good 5d to 6d; britch ends, 8d to 9d.

Plans were being made to replace the four spans of the Dartmoor bridge which were carried away by the flood.

The council was anxious to give the settlers on the Hakowhai Dartmoor road access as soon as possible. The council recognised that they were entitled to this, said Mr Smith. The busy season was coming round, and they must have a road.

The work would be a big job, Mr Smith said. The floods had caused a large number of washouts which would necessitate bridges. Culverts were not satisfactory.

Mr Smith said that it was probable that the piles of the old bridge which was destroyed in the 1931 earthquake, would be used to build a temporary bridge. A track would have to be made along the Hakowhai cutting before this could be done.

Plans were being made to replace the four spans of the Dartmoor bridge which were carried away by the flood.

THE TRANSTASMAN AIR SERVICE

TRIANGULAR ROUTE PROJECTED

A NEW COMPANY

By Telegraph—Press Association. AUCKLAND, August 24.

The Prime Minister (the Rt. Hon. M. J. Savage) announced that an agreement had been signed between the Government and Union Airways providing that the latter act on behalf of the Dominion in the formation, with Imperial Airways and Qantas Airways, of a company to operate an air mail service across the Tasman. This company will probably be known as Tasman Empire Airways Limited.

The agreement regarding the formation and letting of a contract is at present the subject of cablegrams with the British and Australian Governments. The intended triangular service between Auckland, Wellington and Sydney will be carried out as soon as facilities are available in Wellington. The initial terminal will be Auckland. HAWKE'S BAY HAS WON OVER CANTERBURY SIDE

Fire And Dash Of Forwards Turns The Scale: Final Score 15 To 6

By Telegraph—Press Association. CHRISTCHURCH, August 24.

A pack that played with traditional fire in the loose, and backs who were given a feast of the ball, handled well, and ran determinedly, kept the touring Hawke's Bay Rugby team on top throughout their match with Canterbury to-day, played in perfect conditions at Lancaster Park.

The game was fast and spectacular, although Canterbury's indifferent form was disappointing to their supporters.

Hawke's Bay's margin of 15 points to 6 fairly represented the respective merits of the teams.

Big things were expected of the Hawke's Bay pack, which contained five men who have played for New Zealand in the last two years. Its performance was fully up to expectations. Heavier than Canterbury, and with an experienced hooker opposed to a stop-gap, the Bay scrum was able to win the ball almost at will. The Hawke's Bay forwards should be able to match any pack in the country.

Sound as the visiting backs were, they lacked one individual who could consistently give point to the attack. Still, the whole line handled well, and was quick to take advantage of any disorganisation of defence.

A last-minute change in the Canterbury team, through the indisposition of G. T. Nolan, gave Heazlewood his chance of representing Canterbury. This veteran player had represented Otago, Wellington, Auckland and both Islands, and a Canterbury cap was a fitting reward for his play this season.

The star of the Canterbury back line was Hooper, who has just returned from the All Black tour of Australia. WELLINGTON IN TROUBLE

POWER SUPPLY CUT OFF HALF AN HOUR

By Telegraph—Press Association. WELLINGTON, August 24.

The interruption in the electric power supply 200 miles away in Wellington and halted trams, trains and electric lifts just when hundreds of city people were returning to their homes. The radio broadcasting stations were silenced and all direct power was cut off for half an hour between 6.30 and 7 p.m.

Virtually the whole province was affected.

The whole of the electric supply system in the Napier-Hastings area was disrupted early last night, every light and electrical system in the area stopping. The trouble occurred at 6.35 p.m. and continued for about seven minutes.

The breakdown was due to a failure on the relays of the transmission lines to the Tuai power house at Waikaremoana, but the whole of the power systems connected to that station were cut off.

Before the power actually ceased, there was a general dimming of lights, accompanied by some flickering. The complete "black-out" then followed.

The breakdown caused some inconvenience in spite of its shortness. All electrical machinery stopped, and all electric clocks had to be reset when power was restored.

The stoppage occurred at a fortunate time for housewives, most of whom had completed the cooking of the evening meal, but there was some inconvenience caused by lights failing.

Main streets in Napier and Hastings presented a most unusual appearance with all lights extinguished. But for the dim light from passing motor-cars, the streets and what shops were still open, were all in darkness.

About an hour later the lights again went dull, but there was no further breakdown.

The name of the sixth nominee for the National Party's candidature for the Auckland East seat, at present held for Labour by Mr F. W. Schramm, was announced to-day to be Mr J. Terry, solicitor, of Auckland.

When nominations closed on Saturday the names of only five—Miss E. Melville, Captain Judson, V.C., the Rev. W. C. Wood and Messrs H. T. Merritt and Bryan Kingston—were announced. The selection ballot for the candidature will be held on September 8.

MONETARY SYSTEM IS DISCUSSED AT NAPIER

Professor B. E. Murphy Speaks On Inflation And Deflation

"There is not a country in the world where the gold standard operates as it once did," said Professor B. E. Murphy, Dean of the Faculty of Commerce, Victoria University, when addressing a large gathering in the St. John's Hall in Napier last night, on inflation and deflation.

"There is only one country which pretends to be on such a standard, and that is the United States of America," he added.

"Gold is no longer the basis of the world's monetary system," he said, "and I am of the opinion that the gold standard will never again return as we have a paper system operating to-day, and this is certain to continue indefinitely."

The Professor went on to say that the Government should control the monetary system, and the only way that this could be done was by means of a reserve bank such as that in New Zealand at present.

"Whether we seek communism, pacifism, nationalism or socialism, we must remember that we must have a stable money system, and if we require socialism we will have to have money as to-day," he continued.

"I am also of the opinion that we should control our currency by a non-party method, upon the lines of a reserve bank, which would bring about stability," Professor Murphy stated.

"We are doing that in this country to-day, and should continue to do so."

Monetary Turnover Professor Murphy pointed out that during the depression there was no shortage of money in the Dominion, and stressed the point that the trouble was in the reduced monetary turnover. He stated that if

one man had his wages doubled, he would naturally be better off, but if all the citizens in the Dominion had their wages similarly increased, no one would benefit, as people would become troubled at the large amount of paper money in circulation, and a slump would inevitably result.

Debtor Policy "Owing to the fact that the debtors in any country greatly outnumber the creditors, it is natural to expect a policy sympathising with debtors to be successful," the speaker remarked. "This then puts a party or Government in power which aims to safeguard the debtor's affairs."

"It is important to be remembered that the government themselves become debtors, and borrow by the numerous means which are at their disposal."

He further pointed out that one of these methods of borrowing was by means of the Reserve Bank—a system which is at present being employed in this country, and stated that such a system has both good and bad points.

In conclusion, Professor Murphy stated that, irrespective of what party is returned at the general election, a period of inflation was inevitable.

Mrs Helen Willis Moody announced that she is physically unable to participate in the American national singles tournament, due to severe neuritis.

She returned a cheque for 1309 dollars to the Tennis Association, representing her Wimbledon expenses, because she is unable to participate in the national singles.

Critics interpret Mrs Moody's returning the cheque as tantamount to retirement.

They believe she wishes to cash in on her success. Mrs Moody has already arranged a lecture tour and is writing mystery stories.

A MAGISTRATE'S DECISION APPEAL HEARD AT NAPIER SUPREME COURT Judgment Is Reserved

Arising out of a judgment given in the Magistrate's Court, Napier, in June last, an appeal against the decision of the Magistrate, Mr. J. Miller, was heard before Mr. Justice Quilliam in the Supreme Court, Napier, yesterday.

The appeal arose out of a judgment given in the Magistrate's Court, Napier, in June last, an appeal against the decision of the Magistrate, Mr. J. Miller, was heard before Mr. Justice Quilliam in the Supreme Court, Napier, yesterday.

For the appellant, Mr. Hallett said that Mooney and Hyde had owed Martin between £300 and £400 in September, 1936, while their cheques to other creditors had been dishonoured.

In September he gave Martin a cheque for £105, drawn on the Bank of New South Wales. Prior to September 25, they had made arrangements with the Public Works Department for the purchase of camp equipment which they possessed, at a price fixed by valuation.

Subsequently the sum of some-where over £200 was paid to the firm by the department. At that time the money payable by the department was the only tangible asset possessed by Mooney and Hyde.

Position of Bank. Mr. Hallett said that the manager of the Bank of New South Wales should have been aware of the indebtedness of Mooney and Hyde and that he was also Martin's financial adviser.

The manager agreed to advance money to Mooney and Hyde provided they gave security of the Public Works Department payments and in addition Mooney and Hyde gave the bank authority to pay out of the moneys received from the department the amount required to meet the cheques of £105 made out to Martin, which the bank was holding.

Assignment Made. An assignment to the bank was made, and a letter was taken from Mooney and Hyde to the bank authorising the payment of the amount of this cheque out of the moneys forthcoming, this giving Martin priority over the other creditors.

Notice of the assignment was given to the Public Works Department and payments totalling £150 10/5 were subsequently made by the department. On November 6 Mooney and Hyde were adjudged bankrupt.

Mr. Hallett quoted authorities, both on the points of law and of fact, and also spoke of the legality of the assignment, saying that if it were in existence, the bankruptcy would have nullified it.

For the respondent, Mr. Lusk quoted authorities on the commitment of assignments, whether oral or written, and spoke at length on the points of fact and law as challenged by Mr. Hallett.

After hearing further submissions by Mr. Hallett, his Honour announced that he would reserve his decision.

Annual Meeting Held ST. JOHN'S CHURCH Reports Presented At Napier GOOD PROGRESS

A report which reviewed every department of the church work and the organisations associated with it, was presented at the annual meeting of St. John's Church, Napier, on Monday evening, by the Very Rev. Dean Brocklehurst.

The secretaries of the various church organisations reported satisfactory progress. The churchwarden's report on the balance sheet showed a slight increase over expenditure for the year.

Mr. W. P. Newton was selected as the Dean's warden, and Mr. Peel was elected people's warden. The following were elected vestrymen: Messrs Boldt, L. D. Bestall, R. Dockery, Hansard, Jones, Moran, R. E. Hillson, A. G. Pallot, H. Reaney and Dr. Sutton.

Mr. Peel was elected synodman in place of Mr. E. R. Dale, who resigned, through his transfer to Wanganui.

Votes of thanks were accorded the churchwarden and vestrymen, the choir, Bible class leaders and Sunday school teachers, altar decorators and other workers.

YESTERDAY IN PARLIAMENT THE GOVERNMENT SOCIAL SECURITY PROPOSALS Second Reading Debate FINANCIAL IMPLICATIONS OF MEASURE DISCUSSED

PETITION FROM DAIRY FARMERS

PARLT. BLDGS., August 24. The second reading debate on the Social Security Bill occupied the House of Representatives during today's sitting. The effect of the Bill on friendly societies was referred to, and Opposition speakers, including the Rt. Hon. G. W. Forbes (Nat., Hurunui), stressed the financial implications of the measure.

The differences in the cost of dairy production throughout the Dominion were mentioned during discussion of a report from the Agricultural and Pastoral Committee on the petition of 2565 Southland farmers, praying for an increase in the guaranteed prices for dairy produce.

The House met at 3.20 p.m. when Mr. A. C. A. Sexton (Ind., Franklin) gave notice to ask the Minister of Finance whether the money for the Housing Department now being borrowed from the Reserve Bank was obtained by means of creation of credit, as in the case of the Dairy Industry Account, or whether it was obtained by the Public Works Department by borrowing, and if so from whom it had been borrowed?

Mr. H. G. Dickie (Nat., Patea) gave notice to ask the Minister in charge of Broadcasting whether he would consider remitting radio license fees for chronic invalids who were in poor circumstances.

A report was received from the Agricultural and Pastoral Committee on the petition of 2565 Southland farmers, praying for an increase in the prices fixed for dairy produce. The committee reported that as the subject matter of this petition was being dealt with by another committee elsewhere, at which the petitioners' representations were being considered, they had no recommendation to make.

The chairman of the committee Mr. W. J. Lyon (Govt., Waitemata) moved that the report be laid on the table. Commenting on the report Col. J. Hargest (Nat., Awarua) said he recognised that the petition was an old one, having been presented last October, and that since its introduction a tribunal had been set up to fix the price for the current season.

Mr. G. Barclay (Govt., Marsden) said the farmers of Southland had, with some secretaries and chairmen of dairy companies, compiled a valuable report. They were of the opinion that the guaranteed price which had been fixed last season was insufficient, and did not give a reasonable return to Southland farmers, who had to provide winter feed for their stock.

MAKING DAIRYING PAY The farmers who had kept books in a competent manner had found that it needed over 19d a pound for butterfat for dairying to pay. Those who had gone into the question had not proceeded in a haphazard manner and the report produced was not based on exaggeration.

Mr. C. M. Williams (Govt., Kaipoi) stated that he had been a member of the committee which had considered the petition, and the evidence presented by the petitioners tended to show that Southland was much better suited to mixed farming and the production of butter than it was to cheese.

Mr. G. Barclay (Govt., Marsden) remarked that he did not see the member for Awarua, when he asserted that the farmers were being driven out of dairying, because the guaranteed price was too low. If the price of land was going up in Southland and cows were selling for practically the same price as previously, it did not seem that the guaranteed price had had such a disastrous effect as had been indicated.

Mr. Dickie contended that the discussion had proved the futility of the Minister trying to fix one price for the whole of the Dominion from the North Cape to the Bluff.

Mr. S. G. Smith (Nat., New Plymouth) urged that the Minister of Finance should give special consideration to Southland farmers when the guaranteed price was being fixed.

"I will read the whole of the evidence," said the Minister of Finance (the Hon. W. Nash). The Rt. Hon. G. W. Forbes (Nat., Hurunui) said that some people held the belief that the price of producing butter was the same right throughout the Dominion, and he instanced cases in certain parts of Canterbury where he said the average production costs were higher than anywhere else in New Zealand. Dairying in these areas was a very disappointing game, he said. The House agreed to the committee's recommendation that its report be laid on the table.

SOCIAL SECURITY BILL The House then proceeded with the continuation of the second reading discussion on the Social Security Bill. Mr. Smith expressed the opinion that the Bill would only make the

scheme, and this meant an increase in wages. Seventy per cent of those under the Railways Superannuation Scheme were drawing less than £4 a week, and they and their families would get cash and medical benefits. Forty-three per cent, who were drawing less than £3 a week, would get £1 for more to make their income up to £4.

Mr. Langstone then went on to quote benefits under other superannuation and insurance schemes, and stated that 51 per cent of the males under the Public Service Superannuation Schemes got less than £4 a week, and that applied to most schemes operating throughout New Zealand.

The debate was interrupted by the tea adjournment at 5.30 p.m. When the House resumed at 7.30 p.m. Mr. W. P. Edean (Nat., Parnell) contended that the Labour Government had done nothing to improve the economic conditions of the people of the Dominion. The people of the Old Country had given us £15,000 more for our produce since the gloomy days of the depression, and that was responsible for our present prosperity.

BASKETBALL AT NAPIER THE FIXTURES FOR SATURDAY ALL GRADES No School Games Arranged

The following are the fixtures for Saturday, August 27, at Nelson Park, Napier.

There will be no matches for High School and Convent teams on account of school holidays. The following second grade players are requested to be at Court No. 2 at 3.30 p.m. for representative trials. There will also be trials for third grade players:—J. Gerrard, B. Viggers, T. Hill, J. Barber, E. Wells, P. Woods (Harris); J. Faulkner, E. Henderson, D. Cotterill, G. McLaughlan, M. Clune (Athletic); S. Coady, J. Hogen, J. Gunn, P. Hepburn, G. Olsen (C.O.G.).

Players asked to be chosen from Swales and St. Marys. Following are the fixtures:— First grade: Ex-High (1) v. Robins, Court 1, 2 p.m. (Mr. Berry); St. Josephs (1) v. Ex-High (2), Court 2, 2 p.m. (Miss Spackman); Hukarere (1) v. Athletic (1), Court 3, 2 p.m. (Miss Fairey); St. Josephs (1) v. Hukarere (1), Court 1, 3.30 p.m. (Mr. Berry); High School (B) v. C.O.G. (1), held over, High School (A) v. C.O.G. (2), held over.

Second grade: Hukarere (2) v. Swales, Court 2, 2.45 p.m. (Miss Spackman); St. Marys v. Rovers (1) (friendly), Court 3, 2.45 p.m. (Miss P. Flan); Ex-High (3) v. McGruers, Schools grade: St. Josephs (4) v. Hukarere (6), Court 5, 2.45 p.m. (Miss Fairey); St. Josephs (5) v. Hukarere (friendly), Court 6, 2.45 p.m. (Miss N. Wyness).

Hawke's Bay Teams. The following team will represent Hawke's Bay at the New Zealand tournaments and leave for Timaru on Monday, August 29, under the chaperonage of Mrs M. Schroder, of Hastings: M. McCann, R. Tong, E. Kitt, G. Symes, L. Joll, P. Berry, N. Wilson (Hastings), E. Clarke, A. Strandbeck, B. Christie, A. Bryan, M. Bain (Napier).

Hawke's Bay will also be represented at the Rotorua Tournament on September 2 and 3, by the following players:—M. O'Keefe, K. Thorpe, M. Nelson, Z. Earny, T. Sanders, G. Anderson, T. Turton (Napier); Butcher, I. Peters, S. Cassin, E. Struthers, J. Joll (Hastings). The latter team leaves on Thursday for Rotorua, together with the manager-chaperon, Mrs M. Bayliss, and coach, Miss P. Flan.

Both teams have been in strict training and are expected to settle down and play well. The two games of the tournament will be given at both Timaru and Rotorua.

Nelson Challenge. One of the most important matches of the season was played last Saturday at Nelson Park, Napier, when C.O.G. (1) met Ex-High (1), holders, in a challenge for the Nelson Challenge Cup. The match between these two teams always creates great interest in basketball circles and last Saturday's match was not without its usual highlights.

Both sides were determined to settle down and play well, but the Ex-Highs were better than the C.O.G. and the score might have been higher. Defence on both sides was excellent—G. Anderson (Ex-High) and M. Bain (C.O.G.) being particularly outstanding. C.O.G. lacked the combination of their opponents.

After a hard struggle the game ended in a deserving win for Ex-High by 21 points to 11. That depended on that objective by the Labour administration. He also stressed the opposition which Mr. Lloyd George had met from the medical profession on the introduction of the medical scheme in Great Britain. Medical men had conscientiously opposed the scheme at its inception because they had been doubtful of its effects on the health of the people, but after they had seen the benefits of the scheme they had just as conscientiously supported it.

Dr. McMillan denied that the scheme aimed at the regimentation of the medical profession, and he also stated that the contention that the scheme would interfere with the personal relationship between doctors and patients were contrary to fact.

He did not think that the Bill would spell ruin for the private hospital, because no one who to-day entered a private hospital would enter a public hospital under the Government scheme because under that scheme they would get £2 2s. towards the cost of their treatment in private hospitals.

Mr. R. A. Wright (Ind., Wellington Suburbs) said it was the duty of members to show any weaknesses which they believed existed in a Bill of the magnitude of the present measure. The Minister of Finance had based the finances for the Government's scheme upon the supposition that the Dominion would progress in the next twenty or thirty years as it had done in the past, but this supposition was erroneous, and was built on optimism.

It should be built on facts, and unless they were there was trouble in store for everyone. The debate was interrupted by the adjournment at 10.30 p.m.

The official visit of the Hastings Orphans' Club to the Napier Savage Club took place last evening in the Foresters' Hall, Napier, when Chief Orphan Hunter was installed by Chief Savage Pfeiffer.

The Orphans provided the programme, with the exception of orchestral items, which were rendered by the Savage Club. The programme was as follows:—"Pirates of Penzance" overture, Savage Orchestra; "Vale," song, Orphan Garth Naylor; violin solo by Orphan Vic Mummery; ventriloquist, Orphan Perry; musical trio, Orphans Lord, Mummery and Marciano; song by Orphan Venner; selection by orchestra.

"Tres Jolie" overture, Savage Club Orchestra; humorous stories by Chief Orphan Hunter; cornet duo, Orphans McPherson and Jones; song, Orphan Bill Eastwood; humorous, Orphans Larsen and McConchie; finale by the Savage Club Orchestra.

"TIGER" PARKS BEATS DAVIS ON POINTS Professional Boxing Contest In Hastings Results In Win For Negro

There was a large crowd present at the Municipal Theatre in Hastings last night to witness the professional boxing contest between Jack Davis (10.7), of Hastings, and "Tiger" Parks (10.4), of California, U.S.A.

Although the bout was interesting, good boxing was marred by too frequent clinchings and the unwillingness of Parks to mix it. Parks, however, did not waste many punches, and piled up points in the closing rounds of the bout. Although Davis did not win, he put up a good showing and lost only by a narrow margin.

The first round was a round-by-round precis of the bout:— and both boxers were given a hearty ovation from the crowd as they left the ring. Amateur Bouts. The amateurs put on an interesting display that pleased the audience, and the Hastings team won the cup presented by Mr. George Deakin (Hastings Hotel) by three points to two.

Hutchinson (Wel), 4.5, v. Growcott (Has.), 4.0. The Hastings lad was too big for the Wellington boy and was given the verdict after an interesting but rather one-sided bout. Barnes (Wel.), 9.5, v. Davis (Has.), 8.3.

The first and second rounds saw both boys landing some hard punches, Davis having a little the better of the rounds. In the third round, Davis scored points with some straight lefts to Barnes's face and he gained a popular verdict. Gregory (Nap.), 10.0, v. Beale (Has.), 9.2.

The first two rounds were fairly even, but good boxing was spoiled by too frequent clinching. In the third round both men went hammer and tongs. Gregory gained a narrow verdict. Loftus (Wel.), 11.1, v. Lucas (Has.), 12.5.

The first and second rounds were fairly even, but Lucas, whose punches were finding their mark, was awarded the verdict after having the better of the last round. Purcell (Has.) v. Harbottle (Waipuku). Purcell, although the smaller of the two boys, outpunched his opponent for the first two rounds and did not waste any punches. The last round was more even, but Purcell gained the decision.

Mulholland (Wel.) 7.8, v. McIvor (Has.) 7.5. Mulholland won on a technical knock-out early in the first round.

NAPIER DIVORCE ACTIONS MANY PETITIONS HEARD DECREEES GIVEN Supreme Court Cases

Further divorce actions were heard before Mr. Justice Quilliam in the Supreme Court, Napier, yesterday. Alister Brian Heator Rhodes, a solicitor, of Otaki (Mr. R. Grant) was granted a decree nisi, he moved absolute in three months, from his wife, Cecily Georgina Rhodes (Mr. McAndrew) custody of the issue of the marriage not being sought.

An order for restitution of conjugal rights was made in favour of Jack Thomas Irwin (Mr. W. Averill) the respondent being Jean Evelyn Irwin. The respondent was ordered to return to the habitation within 14 days.

On the grounds of separation, Rona Marjorie Garwood (Mr. Helleur) was granted a divorce from Albert Edward Garwood (Mr. C. W. Nash) the decree to be made absolute at the expiration of three months.

A decree absolute, with an order for custody, was moved in favour of Francis Albert Reeves, of Wellington (Mr. C. H. Bisson, representing Messrs Bull and Edwards, Gisborne) in an action against his wife, Frances Iris Reeves. The respondent cited was Lawrence McGuire, Gisborne.

YEAR OF MUCH ACTIVITY PARISHIONERS OF ST. MATTHEW'S CHURCH PROGRESS Annual Meeting At Hastings

All organisations in St. Matthew's Anglican Church, Hastings, saw much activity during the year, and good progress was being made, said the Rev. W. T. Drake in his report presented to the annual parishioners' meeting of the Church at Hastings last night.

Mr. Drake presided over a large attendance of parishioners. The most important feature of the year was the change of vicars. The Rev. Canon C. Mortimer-Jones moved to Waipukurau after being vicar of the church for 11 years. The Rev. W. Liggett also resigned to take up work in Gisborne.

Captain Sutcliffe had continued to carry on the work at St. James's and St. Barnabas to the satisfaction of the parishioners of both Mahora and Parkvale. The spiritual life of St. Matthew's was good. The services throughout the year were well attended.

Until the financial position improved Mr. Drake said that he did not feel justified in engaging an assistant priest. It was necessary, however, to have a curate. He was prepared to continue with the present staff until the end of 1938, but it would be necessary to have an adequate staff then.

Election of Officers. Officers elected were: Vicar's churchwarden, Mr. G. Rochfort; people's churchwarden, Mr. J. W. Fendall; vestry committee, Messrs N. R. Ferguson, J. Sharkey, H. de Denne, G. W. White, M. F. Leete, J. Lawry, W. V. Walsh, F. J. Wall, W. A. Bryant and O. Weaver; auditor, Mr. A. Thomson.

Referring to the financial position of the church, the retiring vicar's warden (Mr. O. M. Weaver) said that the subscriptions would have to be increased to meet the expenditure. The year commenced with an overdraft of £148 10/4, and concluded with an overdraft of £286 8/4, but no appeal was made to reduce this.

The endowment fund had reached a total of £958 8/3. The church grounds had been maintained in excellent condition during the year and improvements were made to the vicarage. In addition the roof over the nave had been made waterproof.

The heating of the church had been changed to electricity instead of gas as formerly. Appreciation was expressed of the work done by Mr. Leete in this direction.

Deaconess Mabel Holmes was retiring as from the end of October after many years of service in the parish. Tributes were paid to the good work she had done for the church.

The organist (Mr. C. Spinney) would, it was expected, take up his post again in the near future, having made a good recovery from his illness. The Guild of Fellowship was doing excellent work. The membership was increasing and a sale of work organised by its members recently raised £20 for the mission work of the church.

Mr. Drake thanked all those who had assisted the church during the year. Better Finances Needed ST. MATTHEW'S Strong Appeal Made To Men Parishioners HASTINGS CHURCH

A strong appeal to all parishioners to co-operate more with the object of improving the financial position of St. Matthew's Anglican Church, Hastings, was made by vestrymen at last night's annual meeting of parishioners. Members contended that the main weakness of the church lay with the men who did not give sufficient support.

It was decided to call a meeting of men on Saturday night to discuss the question of organising a special campaign to raise funds. IMPROVEMENTS TO NAPIER ROADS Ellison Street Railway Crossing

Work was commenced yesterday with the laying of metal in the roads at the Marewa housing department block, and it is expected that this work will take a week to complete, according to a statement made yesterday by the Napier Borough Engineer, Mr. W. D. Corbett, who said that several other minor improvements to road surfaces are at present being carried out throughout the borough.

The Ellison Street railway crossing, which has in the past caused much concern amongst motorists because of its bumpy surface, was yesterday installed in a tar-sealed, thus providing a first-class road surface. DANNEVIRKE SALE OF HORSES Medium Attendance Of Buyers

DANNEVIRKE. At yesterday's horse sale in Dannevirke about 30 horses were yarded. There was only a medium attendance of buyers, and competition dragged except for horses showing quality. Good hacks were also in demand. Prices were as follows: Heavy farm horses £25-£50, good hacks to £15, light farm horses £13-£18, aged hacks £5-£6.

MR SEMPLE AT WAIPAWA

LARGE AUDIENCE PRESENT PUBLIC WORKS Illustrative Films Shown

WAIPAWA.

The Waipawa Municipal Theatre was packed to the doors last evening for the address given by the Minister of Transport (the Hon. R. Semple).

The Mayor (Mr F. Eagle) presided over the meeting and formally introduced the speaker. Mr Cullen M.P., attended the meeting representing Mr H. M. Christie, who is at present on a visit overseas.

Mr Semple delivered a most interesting and informative address on the lines of his speech at Hastings, and showed moving pictures of the machinery being used by the Public Works Department on various works all over the country.

Mr Semple also intimated that he would return to Waipawa prior to the general election to deliver a political address and deal with all questions which may be asked.

At the conclusion of his address a hearty vote of thanks was accorded the Minister, and the party adjourned to the concert chamber, where they were entertained at supper by members of the local branch of the Labour party.

MR PERCY KAY

Will Be The New Stationmaster

FAREWELL CEREMONY

The office of the Railway station at Port Ahuriri was the scene of a happy gathering recently when the staff gathered to wish Mr Percy Kay success in his new capacity as stationmaster at Waipawa.

Speaking on behalf of the staff, Mr J. Sinclair, senior clerk, said that he was sure that the staff's association with Mr Kay had been of the happiest. "Port Ahuriri's loss is Waipawa's gain," continued the speaker, "and we wish Mr Kay success in his new sphere."

Mr Sinclair then asked Mr Kay to accept as a small token of appreciation, a combined fountain pen and pencil.

Mr Kay, in responding, said that nothing would have been possible without the close co-operation of the staff, and it was to them that the credit was due, and he thanked the staff for the pleasant surprise. Mr Kay took up his duties in Waipawa yesterday.

STALL FEEDING ADVOCATED

HAUMOANA FARMER'S SUCCESS

MANY ADVANTAGES

Profitable Experiment Carried Out

A practical demonstration of the advantages of stall feeding a dairy herd as compared with the old method of feeding out in the paddock was afforded a "Daily Mail" representative yesterday on the property of Mr A. J. Phillips, Haumoana.

Mr Phillips, who runs a fairly large herd of cows, has built himself a barn in which practically all the feeding out is done. The main feature noticed in this method was the little loss that was afforded the hay and other material.

The shed or barn will house 42 head of cattle, and the methods employed are simplicity modified.

Method of Feeding.—The barn, which contains 42 bails, 21 on each side, is open at both ends. The feed, which contains lucerne, and meadow hay, together with ensilage, is carted direct into the barn and forked off onto the roof or top of the bails, where it is later placed in the individual feed racks.

Each cow has its own bail and consequently obtains its correct portion without having to fight for it. This method eliminates one cow taken from the cows much and another not receiving sufficient.

Result of Observations.—Mr Phillips started using this method of feeding on August 4. On that date he received his weekly cream cheque return which showed an amount of 146lbs. of cream. After four days of this inside feeding, his cream return had gone up by 82lbs.

On August 15, when he returned, he showed an amount of 238lbs of cream, making an increase of 92lbs for the fortnight. These figures are for 21 cows fed out.

The fat sheep demand remained firm. Best ewes and wethers throughout the sale were on an average about a shilling a head dearer than last week.

Extra prime wethers sold to 33/7, prime to 32/, good from 26/ to 29/, ordinary sorts from 22/ to 25/, light 21/6.

Best ewes sold from 20/6 to 24/, tops 27/6, good 16/6 to 19/, ordinary 12/6 to 16/, light down to 12/.

There was a better tone and a demand for store ewes and lambs, one line selling at 13/1, three-quarter bred ewes 20/1, sound mouthed ewes 19/7, old sheep down to 6/9.

Slack inquiry was made for wethers.

The fat cattle entry of 375 head was the smallest for a considerable time, but showed an average advance of 25/ on last week's values.

Good beef sold at 40/ to 42/6, 100lb, medium 38/ to 38/6, extra prime steers to 19/17/6, prime 17/10/, medium 15/15/, ordinary 13/5/, light down to 10/10/.

Extra prime heifers to 15/ 7/6, prime 12/6, medium 10/10/, light down to 8/.

Extra prime cows 14/ 2/6, prime 11/ 15/, medium 9/, light 7/.

There was a medium yarding of porkers, but a heavy supply ofoppers in the retail pig section. Good quality sold firmly on last week's rates, baconers were in small supply, selling firmer by 2/- and 3/- a head; choppers 12/6 to 15/6, porkers 35/6 to 38/6. The average price for 15 was 74d to 8d. Baconers 3/12/6 to 5/9/6, the average price per lb was 7d to 7 1/2d.

Learning to Fly in a Day Attempt Just Fails

SEA CAPTAIN'S EFFORT

By Telegraph—Press Association. WELLINGTON, August 23.

An attempt to learn to fly an aeroplane and secure a pilot's licence in one day was made at Blenheim aerodrome by Captain Timm, master of the 10,000-ton oil tanker South Africa, which was in Wellington at the weekend. He narrowly failed and will complete the course elsewhere.

Owing to the short period spent in port Captain Timm has always been frustrated in his ambition to learn to fly. While in Wellington the idea struck him to concentrate his instruction in one day, and the Wellington Aero Club decided that such determination deserved a chance.

Conditions at Rongotai, however, were unfavourable, so Instructor K. Smith and the pupil flew across the strait and proceeded with the training in calm, sunny weather here. Later Squadron Leader Grundy and Flight-Lieutenant Ravensley arrived for the final stages of the training, but unfortunately Captain Timm was unable in the time to acquire sufficient proficiency to face the test for a licence.

EMPIRE SERVICE

United Press Association—Copyright. (Received August 23, 10 p.m.) SYDNEY, August 23.

The Empire flying-boat Centurion departed this morning, with 2105lb of New Zealand mail at 11d an ounce and only 288lb of Australian mail at 5d. The New Zealand mail had arrived at the week-end and by the Awatea to-day.

The Awatea had to make her way through a dense fog in order to connect with the Centurion, which left a few minutes late on that account. A small tug obtained the Awatea's mail, and rushed it to the flying-boat.

CHAMPIONSHIP GOLF

QUALIFYING ROUNDS AT ROTORUA

GOOD PLAY SEEN

Greens And Fairways In Very Good Order

By Telegraph—Press Association. ROTORUA, August 24.

Good golf was seen when the two qualifying rounds of the Rotorua Golf Club's annual open championship and Thermal Cup tournament were played yesterday.

Conditions were ideal for qualifying play, and the greens and fairways were in better order than for any previous tournament.

H. D. Brinsden, who is defending the open championship title, returned a gross score of 68 during the morning round, this being the best card of the day. In the second round, however, he experienced trouble on the greens and returned 74.

An impressive exhibition of steady golf was given by the young Hamilton player, R. H. Glading, one of the three scratch men, returning two consistent cards of 70 and 71. He was the first to qualify for the championship series. Whyte gave a disappointing display.

J. P. Mortland, the young Taihape player, who performed so well at the tournament two seasons ago, qualified third.

The veteran Auckland, H. B. Lusk, previous holder of both the open and New Zealand Veterans' Cup championships, was fifth, while W. Kusabs, runner-up for the championship last year, was in 20th position. Match play will commence to-morrow morning, the finals being reached on Friday.

## STOCK MARKET VALUES RISE

### Stortford Lodge Sale

### HOGGETS CONTINUE TO SHOW BETTER RATES

All sections at the Stortford Lodge stock sale yesterday showed a substantial increase on last week's rates. An unusually short yarding of cattle, mostly of medium quality, was disappointing to butchers, but owing to depleted supplies bidding was keen, and on a quality basis values were up by 50/-.

The number yarded did not exceed 90 head, and only five Jersey serts were penned. Buyers commenced bidding at a figure which many lines were sold at last week.

The top price paid for cow beef was £12/15/- for a line of solidly built Aberdeen Angus cows. In the ox beef, £12/2/- was the best quote. This was realised for a pen of small-framed blocks. It would take this pen all time to average out at 67 lb.

An entry of one prime medium-framed P.A. heifer made £10/5/- to top the heifer beef. Approximately 1500 store sheep were penned, competition was keen, and bright selling predominated. Hoggets showed a further rise, the top price of the season being paid for a line of well-woolled wether hoggets which realised 23/9.

The first offering of ewes and lambs for the season sold at 15/1 all counted. A penning of 1000 fat sheep was offered to a good attendance of buyers and some brisk bidding was noticed.

The top pens of prime fat ewes realised up to 24/-. Fat wethers showing plenty of length made from 25/- to 28/-. Hoggets, which were of a smaller quality than has been seen for some time, ranged from 18/- up to 19/3.

A good attendance followed the sale and keen competition was noted throughout the selling. A feature which was commented on by many of the buyers was the poor standard of cattle which were penned. Quality in the fat sheep section was well up to standard, and many splendid entries were noticed.

A bright healthy lot of store hoggets were on offer, and once again this section showed a further rise. The top price for the season being realised.

Some of the values quoted are as follows:—

**Fat Heifers.**  
In from Eskdale, a pen of 5 P.A. cross heifers, small and in light killable order made £9 5/-; a line of 4 light finished Hereford heifers, will kill out very lightly realised £12. A further pen of similar bred heifers, in slightly better order sold from £6 5/- to £6 8/-.

A single medium framed heifer, in medium prime order realised £10 5/-; a pen of 5 P.A. heifers in lighter order than the previous entry made out at £8 15/-.

**Ox Beef.**  
A pen of four Hereford bullocks, in from Anarua, light finished but in killable order sold from £8 5/- to £12; an entry of three light boned P.A. cross steers realised £12.

A further pen of three Anarua, comprising four mixed bred, light framed, unfinished bullocks, sold at £7 2/6.

One Jersey cross steer, in medium prime condition, which will make a heavy killer, realised £11 1/-; a P.A. cross bullock, in good prime order and clean skinned, made £10 10/-.
