GOVERNMENT SUBSIDY

Jobs for Hastings Men Arranged

The Hastings Borough Council intends to make full use of the Gov-ernment's scheme for the subsidisbodies. Under this scheme, the Government pays the wages of all the men employed, provided the local bodies supply material and tools.

The Government imposes a limit on the number of men who may be employed, in each district on the supply material and tools. employed in each district, and it is not yet certain how many will be

permitted in Hastings.

There are many men employed in the Borough at the present time on a Government subsidy scheme, but

a Government subsidy scheme, but when the new arrangement comes into force, it is intended to transfer those already employed to this scheme, which will result in a saving to the Borough, and will enable more work to be carried out.

There should be no difficulty in Hastings to find sufficient men to employ the full number of men allowed by the Government, owing to seasonal work. In Wanganui, where 100 men were allowed, the City Council found that there were only Council found that there were only 50 men on the unemployed register their district, who could

The men in Hastings will mostly engaged in general formation and town improvement works. In addition some will be employed in the parks and reserves carrying out beautification work.

CHARITY BALL OF 1938 AT NAPIER LAST EVENING.—Tremendous interest was aroused, not only in Hawke's Bay, but throughout the Dominion by the Charity Ball held in Napier last evening. Sponsored by the St. Vincent de Paul Society, and graced by the presence of the Archbishop O'Shea) the ball was a brilliant success. Many debutantes, some of whom came from distant parts of the North Island, and even from the South Island, were presented to his Grace. Above is seen the official party on the dais, with the debutantes. The official group comprised the following (reading from left to right): Mr J. P. Kenny, Mr J. Minto (President of the St. Vincent de Paul Society in Napier), the Rev. Father Hurley, Mrs P. Sweetapple, Mrs J. W. Callaghan, his Grace Archbishop T. O'Shea, Mrs E. H. Luke, Dr. C. W. Casey, Mrs J. "The Times" says that Herr Hitler's aide-de-camp (Captain Wiedemann) has brought Lord Halifax a personal message of goodwill from Herr Hitler, in which he asks the British Government to believe that as the leader of 70,000,000 Germans he sincerely wishes the relations between the two countries to be improved.

Herr Hitler, the report states, is not satisfied with the present relations and believes that a real and lasting improvement can be achieved.

He again declares that there are no fundamental differences that need separate the British and German peoples, and that everything is capable of arrangement.

Regarding Czechoslovakia, Herr Hitler has sent an assurance that the German Government is anxious for a peaceful solution of the Sudeten German problem, and is convinced that with goodwill on both sides a working arrangement can be reached.

Lord Halifax told Captain Wiedemann that he was thankful to hear Herr Hitler's message and, in gladly accepting it, he suggested that the German will for co-operation might be shown, for example, in the problem of refugees, thereby making the Evian Conference arrangement infinitely more practical.

He emphasised that a peaceful solution of the Czechoslovak prob-lem, free from outside interference, would clearly enable the resumption of Anglo-German negotiations. Captain Wiedemann flew back to Germany yesterday to report im-mediately to Herr Hitler.

Important features of the Arbitration Amendment Bill were summarised by the Attorney-General (the Hon. G. R. Mason) in the House this evening, in moving the second

reading of the measure. The Bill was referred to the Statutes Revision Committee after a short second reading discussion.

# Measure of Regulation

INTERNAL MARKETING

ternal marketing of primary prod-uce was actively and successfully developed during the past year.

Under the amended legislation passed last session the Internal Marketing Division of the Primary Products Marketing Department was constituted and a number of functions pertaining to the local functions pertaining to the local market were brought within its jur-

of the Division.
With butter, for instance, regulations were introduced in November, 1937, providing for a more orderly system of distribution as well as fixing wholesale prices throughout the Dominion. This ensured that dairy factories would receive the same return for that portion of their output sold on the local market as the general scaling down in dispensing prices.

In outlining the provisions of the Bill the Attorney General said that it did not deal with industrial arbitration but with arbitration between private individuals as a substitute for or as a supplement to ordinary, legal proceedings in a court of law. For the disposal of disputes there was already a statute dealing with the subject, but it was far from complete and satisfactory, and soli-citors in general rather avoided use of it because it had been found to

be full of pitfalls.

The matter had received attention in England, and in the drafting of the Bill before the House, the Government was indebted to the work done there.

The Bill provided that if a party was appointed as arbitrator who seemed to have secret instructions to obstruct or delay proceedings, then the court had power to remove that person and appoint another in his place, and it was not left entirely to the party to appoint another person, who might obey similar instructions to obstruct or delay.

The Bill also dealt with the present lack of facilities for correcting any mistakes of law that might occur during arbitration proceedings, the Minister continued.

INSPIRING STORY OF GREAT FIRE

Thrilling Scenes in Great Production

The locale of "In Old Chicago" which will commence a season at the State Theatre, Hastings, to-morthe State Theatre, Hastings, to-morrow, is Chicago in the middle of the last century. Alice Brady plays the part of Mrs O'Leary. Ma O'Leary brings her three sons into this brawling city of 1854—and by dint of a fancy lady's mud-spattered gown, launches herself upon a career as laundress.

TO-MORROW—DRAMA IN TECHNICOLOUR

Dorothy Lamour in New Jungle Story

A thrilling technicolour film of the jungle will commence at the Regent Theatre, Hastings, to-morrow. The picture is "Her Jungle Love", starring Dorothy Lamour

and Ray Milland.
Miss Lamour, who scored heavily as a native girl in the picture that vaulted her to screen stardom, Jungle Princess", is reunited with Ray Milland in this jungle film that combines all the elements of romance, thrills and mystery in the magic of technicolour.

Dorothy Lamour as a "white god-dess" is found by Milland when his plane crashes after an encounter with a typhoon, on an otherwise de serted island. Both he and his mechanic, Lynne Overman, are be-friended by Miss Lamour, who at first tried to kill them, the fear of the white men being instilled into her by the power-mad J. Carrol ruler over hundreds of

natives.

Milland falls in love with the beautiful "goddess" but their romance renders the position of the two stranded flyers doubly precarious When the mad ruler brings his savages to the island for their annual sacrifice Milland and Overman secretly watch the ceremony and determine to make one last effort to reach civilisation with Miss Lamour. A thrilling earthquake (which is all the more impressive for being filmed in technicolour) provides an exciting climax to a fine picture.

Current Attraction. Showing finally to-night is the epic historical film, "The Life of Emile Zola" starring Paul Muni in the thrilling life story of the emin ent French novelist.

Clever Story

Claudette Colbert and Gary Cooper form a brilliant new comedy

at the Plaza Theatre, Napier.

The story, adapted from the famous play of Alfred Savior, tells about a much-married American nulti-millionaire who is subdued and put into a strait-jacket by his ighth wife, whom he marries for new thrill. Miss Colbert is the same flip, ingenious girl who made screen history in last year's "I Met Him in Paris." Cooper, as the philandering American, plays oposite her in a part which fits him

After becoming the bride of the much-married financier, Miss Colbert, a penniless French aristocrat, starts out on a campaign to bring him to his knees and numble his pride for the first time.

In this Paramount comedy Cooper vorces seven wives, upon each of whom he settles an income £10,000 a year. When his eighth wife begins to get in his hair he prepares to divorce her and give her yearly stipend of £20,000.

In case you don't want to stop and figure it out, it means an outla by the husband of nearly £100,000 a year. No wonder the gay philan derer has a hard time balancing his budget and decides to remain mar-ried to Miss Colbert in spite of the hectic life she leads him!

There is here a lightness of touch puts the picture out in front of other screen comedies of the season. Ernst Lubitsch, master of this light ouch in screen comedy, directed Bluebeard's Eighth Wife," while he supporting cast includes David Viven, Edward Everett Horton, and izabeth Patterson.

#### DR. G. M. SCOTT DESCRIBES **GROWING OF DAFFODILS**

#### Hastings Women's Club Members everywhere. Gain Much Useful Knowledge

Much knowledge was gained by useful hints on to his listeners made the members of the garden circle of the Hastings Townswomen's Guild at their meeting yesterday afternoon when Dr. G. M. Scott, of Havelock North, described the growing of daffodils. Dr. Scott's personal experience in this particular branch of gardening and his ability to pass may to gardening and his ability to pass may to the afternoon to his listeners made him an especially interesting speaker whose address was much appreciate by all who heard it.

The flowers in the club lounge were most attractive, tall bowls of pink camellias and vases of yellow jonquils.

In the early part of the afternoon In the early part of the afternoon a sale of seedlings and plants was held and this realised the splendid

sum of 22/9 to purchase a special flower bowl for the lounge. The leader of the circle, Mrs K. E. Crompton, introduced the speaker to those present.

#### Anatomy of The Bulb

"To understand clearly the cultivation of daffodils it is necessary to know a little about their anatomy," said Dr. Scott, who had brought with him two large diagrams which had been painted by Mr W. J. Rush, of Havelock North. The first diagram showed a cross section of the daffodil bulb after it had been dried off at Christmas time. off at Christmas time.

The speaker drew attention to the small base which was the compressed stalk of the plant. From all around this base were small excrescences which would eventually become the roots. He said that for this reason it was essential that small side bulbs should never be torn off as the base and also the base of the main bulb would be torn and there would be no flower the next year.

"When dry the bulb has two or three layers of papery substance," continued Dr. Scott, "these being the remains of the leaves, and further in are layers like an onion. It is most necessary that the old leaves should be thoroughly dry before being removed from the bulb as it is through these leaves that the bulb draws down the nourishment which the the roots for the following forms the roots for the following year. The old leaves should not be tied or plaited but if the old bulbs occupy too much space they should be lifted very carefully and replanted in the back garden."

be done at least two months before planting time to enable it to settle down again. "The ground should be dug to a depth of two spades, otherwise the roots will find their way into undisturbed ground," he said. "Do not use stable or farmyard manure unless it is at least six months old but rather choose bone dust. This should be spread on the coil after digging to a spade's depth."

(6) Straws are coarse and shiny coloured panamas and Ball leghorns are most popular.

(7) Fabrics have returned to favour. For this you must blame the warfare in the East, which, among other things, has hung up the export of straws.

Hair Styles

Hair styles have to be at to the new millinery, and in the export of straws.

There has been much fluttering of the leaves of family albums by the milliners and dress designers of this year of grace, 1938, writes Dorothe Murray, a London correspondent. It has been too good a joke to keep to themselves, so with a generous gesture they have let us share the fun, and now they are going to take part in a wholesale masquerade that will begin with the first signs of the English spring.

And now for the real Victorian

The person most responsible for Trailers Down his great Victorian revival is probably the Duke of Windsor, who, by The Back lifting the ban on threatrical repre sentations of his grandmother, allowed us to see living pictures of her life and the life of her people, and to be affected by them.

This preamble is really an introduction to the spring hats shown in London by Jeff, one of the wittest and most ingenious of millions.

Hats to wear with trim suits are mostly of lightweight felt and are small and jaunty. If there is a brim it will be turned up at the back and down over the eves in front. It is nothing for a jade green felt to be trimmed with puce ribbon. In fact it is a colour scheme that is rather popular.

PAINTER—REDMAN

Attractive Frocking Seen

A picturesque wedding ceremony was carried out in St. Paul's Church Napier, when the marriage took place of Margaret Rose Painter, only daughter of Mrs and the late Mr S. E. Painter, and Mr Rex Redman, second son of Mr and Mrs L. Redman, Westshore.

The bridesmaids were the Misses Roma Spiller and Eva Howard, the best man, Mr L. Ebbett, Wairoa, and the groomsman, Mr Howard Painter (brother of the bride). The service was conducted by the Rev. Stuart Francis.

The bride was given away by her brother, Mr W. Painter.

The bride's frock was of pink satin beaute cut on classical lines with a panel from the waist to the end of the three cornered train. It had a rever neck and the sleeves were pointed over the hands. Tiny buttons down the back and on the sleeves, and rows of ruching round the train were decorations. She wore pink shoes and a veil, and she carried a shower bouquet of pink

#### Napier Wedding GRAND CHARITY BALL HELD IN NAPIER

## Over 40 Debutantes Make Their **Curtseys to His Grace** Archbishop O'Shea

Honoured by the presence of His Grace, Archbishop Thomas O'Shea, the Grand Charity Ball, organised by the St. Vincent de Paul Society, and held in the Foresters' Hall, Napier, last evening, was a unique and outstandingly successful occasion. The main feature of the evening was the presentation of over 40 debutantes to His Grace, this being an uncommonly attractive ceremony. A raised dais had been placed in front of the stage and a carpet was laid down the centre of the hall from the entrance door. from the entrance door.

from the entrance door.

Mr J. P. Kenny presided over the gathering and escorted His Grace to the dais where also were seated the hostess of the evening, Mrs E. H. Luke, and the chaperones, Mesdames J. W. Callaghan, J. J. Foley and P. Sweetapple.

Mrs Luke wore a model gown of burgundy needlerun lace with inset panels of georgette in the same shade and a corsage spray of pink camellias.

Mrs J. W. Callaghan wore a gown of wine lacquered taffeta with a gold posy at the neck and black velvet coat embroidered with gold on the sleeves.

Mrs J. J. Foley wore ciel blue moire taffeta with a coatee of silver satin charmelaine, and a halo of pink flowers.

Mrs P. Sweetapple's gown was of rich petunia satin charmelaine with sash looped in front and worn with a coatee of black velvet. Each carried a bouquet of flowers.

Also seated on the dais were Mr J. P. Kenny, Mr J. Minto (president of the St. Vincent de Paul Society), the Rev. Father Hurley, Dr. C. W. Casey and the Rev. Father McGlone.

Each debutante walked down the centre of the hall with her escort and made her curtsey to His Grace. Afterwards the girls walked onto the stage till all were present and stood there while the speeches were made.

His Grace said what a pleasure it was to take part in such a brilliant social gathering. He congratulated all those

such a brilliant social gathering. He congratulated all those who had made their curtsey, saying that they had made a beautiful picture. He said also that they had chosen to make their entrance into society at a wonderful charity gathering and he expressed the wish that in their lives the most pleasant occasions would be those in which they were helping a good cause.

Dr. C. W. Casey thanked the Archbishop for the favour he had bestowed upon the society by attending their Grand Charity

The debutantes then walked round the room and afterwards danced a special waltz.

The hall was gaily decorated with streamers in all shades and spiral shades of streamers encased the lights. Round the walls were tall palms and smaller palms and ferns decorated the stage.

Revenue v. Taxation Revenue

Revenue

Sir,—Your Tuesday's issue reports Mr G. A. Maddison as stating "Since then taxation had increased by £11,000,000." On the same page will be found a statement headed "Taxation Revenue." It deals with the year ended March 31 last and is therefore as up-to-date as is possible.

Careful perusal of this statement will clearly show that any increased revenue from income taxation is a direct reflection of the higher levels

direct reflection of the higher levels of income and is not through an ncrease in the rates of the tax.

The increase in revenue from employment taxation is due to the higher levels of salaries and wages.

The reason for this difference The reason for this difference is the fact the last Government never taxed to pay its debts. They raised the public debt by £81,300,000 from 1920 to 1935. In 1929 the public debt was raised by £13,200,000. (These figures are taken from the Year Book). So you will see that £31,032,000 was spent in 1929, or £13,200,000 more than the taxation.

WARNING GIVEN TO ACCUSED

VALUELESS CHEQUES CHARGE

NAPIER OFFENCE

Has A Serious Record

Charged with issuing eight valueless cheques to a total amount of £45, a labourer, John Robert McKay (Mr C. W. Nash) aged 25, appeared before Mr J. Miller, S.M., in the Napier Magistrate's Court yesterday, and was sentenced to three months' imprisonment on each charge, the first two to be cumulative.

that he issued valueless cheques, he obtained goods from shopkeepers in Napier, Hastings, and other towns

"This man has a serious record, and has nine previous conviction involving charges of theft, false pretences, fraud and receiving stolen property," said Detective Knight.

The accused had obtained the sum of £37 7/21 in cash and goods to the value of £7 12/92.

Tried to Go Straight For the defendant, Mr Nash said that his client had a bad list, but he had tried to go straight since his

mitted, and in an effort to strengthen his financial position he had issued the valueless cheques.

Mr Nash asked that McKay be sentenced to a term of imprisonment in the Napier gaol in order that his wife and his mother be enabled to visit him.

Various types of punishment had been meted out to him but none seemed to steady him down, while his marriage had also failed to do

to do so.

After warning McKay of the danger of being declared an habitual criminal Mr Miller sentenced him as

#### THE 1938 BUDGET

Several statements in the Budget are worthy of attention. "The Government," we are informed, "does not subscribe to the view that public works should be regarded as a palliative to be undertaken only when private enterprise fails to provide the necessary facilities or to offer the required employment." It is also added that the Government does not believe greatly in the principle of "damping down" public works during boom periods.

In the face of this, the projected expenditure of over £20,000,000 on public works during the coming year, financed largely by borrowing, will come as a great shock to the general public.

The Labour Party has always declaimed loudly against the system of borrowing, and when in Opposition promised some sort of "utilisation of the country's credit" which was to obviate the necessity for raising loans. Indeed, a good deal of its support came from those who approved this viewpoint. The fact that a record borrowing programme is to be embarked upon for the purposes of public works will cause

If consolation can be taken, it comes from the fact that the Minister of Finance has declared in a straightforward manner that orthodox methods of finance are to be followed. Since this does not entail a juggling of the accounts, the public will be able to follow the operations of the loan and expenditure accounts to see exactly what is happening.

The extremely high level of projected expenditure, totalling over £41,000,000 with Employment Promotion Tax, is most disturbing. This clearly presupposes the maintenance of high prices for primary produce. If the present downward trends became accentuated, or even if they persist for any long period, the anticipated revenue can never be realised.

Commitments to a huge expenditure can then only result either in increases in the rates of taxation, or additions to the Public Debt. This may be emphasised as the most important point in the Dominion's economic position to-day.

It is not out of place to point out that the whole of the Government's plans for the future are based on the continuation of boom prices and conditions, and should a recession develop disaster must inevitably follow. This is not a mere pessimistic croaking; it is a plain statement of the facts as they exist and as they are made apparent by the Financial Statement presented by Mr Nash.

General disappointment will be felt that the Government has not seen its way to reduce taxation, and in particular the Employment Promotion Tax. If relief along these lines could be given to wage-earners and taxpayers generally, there would be a greater possibility of this country having a greater resiliency against the impact of future depressions. At the present time there is no possibility of the accumulation of reserves, and a period of stress would find us totally without protection.

The following table reveals what has occurred during the last eleven years, from a period of prosperity, through a major depression, and to a further period of prosperity. It will be noted that the 1928 and 1929 figures are not greatly different from those of the last two years.

Year ended Rate of taxation Exports per capita Imports per Capita Production

rch 31	(per capita)			(N.Z. currency)			(N.Z. currency)			(per capita)

1938	23	1	3	40	12	10	36	3	9	-	-		

Where the great difference occurs is in taxation, and it is questionable as to how far the present level can be maintained. It may be seen that we cannot possibly maintain the present rate of taxation if there should be even a slight fall in prices.

The 1938 Budget is inevitably a gambler's Budget, and the people of this country will be the losers should the dice fall wrongly.

A NEW BRITISH SCHEME

MANY APPLICANTS

Further Increase

British Official Wireless. (Received July 20, 7.30 p.m.)

Nearly 295,000 applications have been received from persons wishing to become contributors under the pensions scheme for black-coated Voluntary Contributions Act last

Over 210,000 applicants have already been accepted, and a big increase in the volume of applications is expected towards the end of this year, as the period during which specially advantageous terms are offered to older applicants expires at the beginning of 1939. It is estimated that there are some two million men and women outside the scope of the existing widows', or-phans' and old age pensioners' scheme who are qualified to insure for a pension under the new Act.

#### "BLACK-COATED" HOMES FOR DRIFTING RETURNED SOLDIERS

#### Plight of Men is Discussed by War Relief Association Meeting at Napier

The plight of returned soldiers who, lacking a suitable home, drift round the country, was commented upon by delegates to the annual meeting of the Hawke's Bay War Relief Association at Napier yesterday.

The president (Mr J. N. Barrie, Waipukurau) was in the chair.

Several members voiced opinions on the matter of providing homes for the men and it was alleged that several of them merely drifted round until they went into hospital to die.

It was pointed out that large num.

said Mr F. H. Goldfinch (Hastings).

It was pointed out that large numbers of ex-servicemen were breaking down in health and it was thought that if they could be placed in homes and given proper care and attention they would soon regain their health.

Said Mr F. H. Goldfinch (Hastings).

"In some districts men are given baches with small gardens and they are able to exist on their pensions, augmented in some instances by small grants. The older returned man cannot drift forever. A home for returned men was established in Auckland but only 27 are inmates.

Introducing the matter while moving the adoption of the report The question is a big one and all and balance sheet, the president said the association would not be association would not be out of order in discussing the matter, as in his opinion, the time was not far distant when homes of this type would be opened. As yet, nothing of a concrete nature could be given on the subject but it had been suggested that the R.S.A. Can-

Introducing the third Budget of the Labour Government since it assumed office, the Minister of Finance (the Hon. Walter Nash) reviewed the economic position of the Dominion and summarised the policy of the Government. The Financial Statement was presented at 7.30 p.m. in the House of Representatives, and, being somewhat shorter than usual, it did not occupy a lengthy period.

"It is again my privilege," said Mr Nash, "to present a review of the Government's stewardship for the year, and my task is made the easier in that, in common with its two immediate predecessors, the past year has been one of progress and prosperity."

The Financial Statement then proceeded as follows:-

The economic position of the Dominion is sound and satisfactory. The trade returns for the year ended 31st March last (the June quarter's statistics are not yet available) indicate that exports reached a total of over £65,000,000a record for the Dominion—and representing an increase of £4,770,000 over that of the previous record in 1936-37. of export contributed to this favourable result.

Butter exports totalled £18, 027,000, representing an increase of £2,060,000 in value and 64,000 cwt. in quantity compared with the results of the previous year.

In regard to wool, although there was a very substantial fall in world prices during the latter part of the year and the actual quantity exported from New Zealand showed a reduction of 22,500 bales, exports were valued at £16,012,000, representing an increase of £225,000 over the returns for the previous year.

Chilled and frozen meat exports, it is satisfactory to note, amounted to £14,492,000, an increase of £1, \$66,000 in value and 472,000 cwt. in the darry industry. This deficit is the responsibility of the Government. In regard to the export season ending on July 31, 1938, the actual total debt shown in the 1937 Financial total reduction of 22,500 bales, exports were valued at £16,012,000, representing an increase of £225,000 over the returns for the previous year.

In overseas markets at the present time political difficulties and trends in economic nationalism are having a somewhat disturbing effect on prices generally, but the long-range outlook is not an unfavior to note that New Zealand produce is compared with those of other countries.

# REVEALS HIGH EXPENDITURE The chief feature of the 1938 Budget presented by the Minister of

BRIEF SUMMARY OF THE 1938 BUDGET

Finance (the Hon. Walter Nash) is the high rate of expenditure under various heads and the corresponding high taxation and other revenue which is required to meet it.

Expenditure last year totalled £35,249,000, while the estimated expenditure for the coming year is placed at £35,787,000, an increase of £538,000. Revenue last year amounted to £36,059,000, and this year it is anticipated to realise £35,845,000. This does not include the Employment Promotion Tax, which last year amounted to £5,105,000.

Thus the total revenue (including the Employment Promotion Tax) was £40,354,000 last year, and this year it will probably be about the same. The total expenditure, including expenditure from the Employment Promotion Fund, is not revealed in the Budget.

No provisions are made in the Budget for taxation reductions. The future of the Employment Promotion Tax is not discussed, and it is presumed that this tax will be later applied for the purposes of the Government's Social Security Scheme. The estimated expenditure for social services shows an increase of £902,000, giving a total of £12,774,000 for this

Income Tax is estimated to return £9,500,000, which is £422,000 higher than the returns for last year. A reduction of approximately £758,000 is anticipated in Customs duties.

Expenditure on Public Works under various headings is expected to reach £20,719,000 for the coming year. Railway Construction and Improvements, and Highways and Roads account for £11,723,000 of this, while Land Settlement (£3,081,000), Public Buildings (£2,360,000), and Hydro-electric Development (£1,555,000) account for almost the whole of the remaining expenditure. A feature of this item is the fact that it is anticipated that of the total of £20,719,000, no less than £14,263,000 will be raised by loans. The balance of £6,456,700 will come from various sources including taxation and transfers from the Employment Promotion Fund.

Generally speaking, the Budget will disappoint many who believed that there might be Income Tax and Employment Promotion Tax reductions. The maintenance of the high rate of expenditure, however, has precluded any such possibility.

The Minister of Finance has aimed at a balanced Budget, the estimated

surplus for the coming year being £58,000.

# LAST YEAR'S **ACCOUNTS**

SURPLUS AMOUNTS TO £810,000

RECORD TOTALS

Taxation Exceeds £31,000,000

The public accounts reflected the prosperity which obtained in the Dominion throughout the year and, as has already been disclosed in the published statement, a surplus of £810,000 resulted from the year's operations.

The following is a summary of the position:-

Taxation ..... 31,664,000

	Committee of the latest and the late
Total revenue	36,059,000
EXPENDITURE	2.
Permanent appropriations	- £
Debt services Exchange Highways Other services	9,441,000 1,828,000 2,835,000 1,517,000

Social services	11,872,000 7,756,000
	19,628,000
Total expenditure	35,249,000
Surplus	810,000

It will be noted in comparing these results with those of the previous financial year that both revenue and expenditure have reached record proportions. This is in accordance both with modern trends in public finance and with the Cov in public finance and with the Government's policy of increasing the range and scope of social services. Such a policy requires little justification in the light of present-day enlightened standards.

I will not burden you with a detailed statistical review of the improvement in economic conditions during the present Government's during the present Government's term of office. I would, however, draw your attention to merely a few of the more outstanding latest results compared with those quoted results compared with those quoted in the 1935 Budget. Thus the value of total production shows an increase from £98,800,000 to £136, 100,000, farm production from £63, 300,000 to £88,600,000, salaries and wages payments from £65,700,000 to £98,600,000.

Land transfers have increased from £12,200,000 to £23,300,000, and net ton-miles run on the railways net ton-miles run on the railways from 420,000,000 to 561,000,000.

May I, in conclusion, emphasise that the progressive development of the Dominion is dependent upon the extension of secondary industries—that, in anticipation of the completion of the major public works now in progress and those still to be commenced, we must have in being manufacturing establishments to enlightened standards.

The Government has already gone some distance along the road of social amelioration, but there is much still to be done, and the remaining problems will be faced with the same resolute determination as has characterised the Government's action up to the present.

No nation can afford to rest content so long as numbers of its citizens who are able and willing to work are denied the opportunity of land and our factories.

And now, Mr Chairman and hon-

Over Twenty Million Pounds

#### £14,000,000 To Be Borrowed

Certain writers, says the Financial Statement, have laid down the principle that public works should be used as a kind of balancing factor to be extended in periods of depression and damped down during booms. The unconditional applica-tion of this formula is neither as simple nor as valid as may be imagined.

Apart from the fact that a new public works programme is slow to swing into action, with the result that a depression may get beyond immediate control, it is only in times of prosperity that, for instance, the demand for telephones and telegraph facilities is heavy, that more and better motoring facilities are urged, that increased housing is especially necessary, that the electricity load grows rapidly, that farmers are prepared to pay for irrigation and similar facilities, and that land development and settlement becomes especially worth

In any case the present Government does not subscribe to the view that public works should be regarded as a palliative to be undertaken only when private enterprise fails to provide the necessary facilities or to offer the required employment. The present Government's policy is to promote or expand public works on their individual merits as projects of public development.

During the depression years pub lic works generally were woefully neglected, as a comparison of yearly expenditures will clearly indicate; roads and highways development was retarded, school buildings were allowed to fall below proper stan-dards, construction of public builddards, construction of public buildings was brought almost to standstill, with the result that to-day many Government offices throughout the Dominion are both overcrowded and out of date, and in the centres private accommodation on a large scale has had to be rented in order to provide for essential requirements. In public buildings alone there is justifiable scope for Government activity for many years to come, while in the meantime progress is limited only by the shortage of skilled labour.

## GUARANTEED PRICES FOR COMING SEASON

#### Committee Appointed to Inquire Into Costs and Other Factors

The question of fixing the guaranteed prices for the coming season is now receiving consideration, says the Financial Statement. There has been some controversy in regard to the method of determining the guaranteed prices. Suggestions have been made that the prices should be fixed by an independent tribunal under the presidency of

a Judge of the Supreme Court.

Representations to this effect were made by the Dairy
Board Conference and by a Conference of the New Zealand Farmers' Union. The Government, after consideration, intimated that if this were the wish of the dairy industry the Government would give favourable consideration to the

appointment of the tribunal asked for. However, the proposal was negatived at the recent National Dairy Association Conference, and a unanimous resolution was carried to the effect that the fixing of the prices should remain the responsibility of the Government, but that an advisory tribunal should be set up to submit recommendations to the Government.

The Government understands from the resolution of the National Dairy Association Conference that the dairy industry is content to leave the final decision respecting prices to

By Telegraph-Press Association. WELLINGTON, July 20.

The cross-examination of the mother of Douglas Alexander Armstrong, who is standing his trial on a charge of murder, was continued to-day. Mrs Armstrong mentioned the sums of money she had given, or offered, her husband, Edwin Norman Armstrong, and when she was asked had he used physical violence towards her, witness broke down and replied that he had not done so, but the mental torment had been awful.

Continuing, witness said that she remembered an occurrence about six years ago when she was ill in bed. She had to get up because her husband was choking Douglas in the sitting-room. She saw Douglas on the floor. Her husband was on top of him, and had him by the throat. She intervened to stop it.

#### New South Wales Western Districts Beaten in a Hard Forward Game

United Press Association-Copyright. (Received July 20, 11 p.m.) WELLINGTON (N.S.W.), July 20.

Under impossibly muddy conditions the All Blacks defeated New South Wales Western Districts by 31 points to nil, after leading by 19 to nil at half-time. The game coincided with the breaking of the dry weather. Rain fell continuously and it was almost impossible to distinguish players. The inexperienced Western forwards were plucky, but unable to cope with the hard rucking of the New Zealanders, who once into their stride scored regularly.

#### CONCLUSION OF CROWN CASE AGAINST PARKS

#### Prosecutor Delivers Address to Jury in Hearing of Murder Charge

By Telegraph-Press Association.

DUNEDIN, July 20. The trial of Eric Sandagger Parks on a charge of murdering Frances Amelia Lee at Henley, was continued to-day. Extracts from the accused's diaries were read in Court. At the conclusion of the Crown case, counsel for Parks intimated that no evidence would be called for the defence. The Crown Prosecutor delivered his address to the jury,

The next score came when Paewai broke away and passed infield to Lino, who scored under the posts. Once again the attempt to convert failed.

From a breakdown in a passing rush Moore broke away with the ball at toe and picked up to score. Farrell converted and half time was called with the score Dannevirke 17, Feilding 0.

PROGRES

After half time both sides threw the ball about well and only good tackling prevented penetration.

Feilding made good use of the breeze and kept Dannevirke on the defensive. However, Paewai increased the Dannevirke total when he broke away from the 25 and pushed his way past all opponents to score.

#### Johnny Summer's **Boxing Career**

DEBUT AS TRAINER Has Promising Lad In George Allan

Johnny Summers, champion fighter and holder of the Lonsdale Belt, who is at present in Hastings, has had a very eventful career in the boxing ring.

He left England for Australia at the age of 15, not as a passenger, but as a stowaway, but he became violently seasick in the Bay of Biscay, and his complimentary ticket expired forthwith, so that he had to work for the remainder of the trip.

to work for the remainder of the trip.

Refusing an offer of a return trip home to England, he decided that he wanted to see something of Australia, as he had come so far, and from there his real entry into the boxing world started, as he had 10 professional encounters, winning eight and drawing one, before returning home.

turning home.

His second visit to Australia was vastly different from his first, as this time he arrived with a manager and trainer and with much more knowledge behind him.
Holder of three British Empire titles—feather, light and welterweight—Summers has fought in

nearly every country in the world, including New Zealand, where he beat Hosk Keys on points just prior beat Hosk Reys on points just prior to the war.

After 20 years as a fighter, Johnny had seven years as a referee, but his present trip to New Zealand marks the commencement of his career in the capacity of trainer and manager.

The lad he has under his wing at the moment is that promising youth.

BASKETBALL GAME

Hard and Interesting
Struggle

DANNEVIRKE.

The basketball game at Feilding opened with a quick attack by Feilding, who, in the first few mintes, scored two goals. The High

rial than the modern school.

On being asked his future prospects, Johnny Summers said that he intended to remain in New Zealand intended to remain in New Zealand for the best part of a year to enable George Allan to gain experience, after which he will take Allan home and match him in England. His main hope is that Allan will be fighting heavyweight in a few years and that he will be a contender for

that most prized title, "heavyweight champion of the world." Hastings fans may have an oppor-tunity to see Allan matched with Hannan in the near future, and although nothing has been definitely finalised, there is every reason to believe that this bout will eventuate.

# Better Entries of Sheep

HOGGET RATES RISE BY 2/- A HEAD

Fat Sheep Slightly Below Par

Except for one outstanding entry, fat cattle prices were easier at Stortford Lodge yesterday and the market in general very quiet, the reason being the large entry of cattle before a small bench of buyers.

The yarding consisted of 280 head, comprising stationbred and Jersey sorts.

A pen of Aberdeen Angus cross bullocks topped the market at £14; these were a particularly fine line, being prime finished.

Very little ox beef was penned.

bidding was also experienced. The whole yarding comprised about 2700 store sheep and 1900 fat sheep. Some of the sales were as follows: Heifer Rates.

In from Whana Whana a line of nicely finished Hereford heifers fetched £7 1/- up to £8 9/-; an entry of extra prime Aberdeen Angus heifers sold to £8 17/6.

Ox Beef.

A fine pen of Aberdeen Angus cross bullocks, on account of Mr W o'Neill, Crownthorpe, sold in two lots, fetched the excellent price of £13 and £14. A further line, which would kill out at 750lbs., sold at £10 10/-. An entry of one medium framed Aberdeen Angus Shorthorn cross fetched £11 10/-.

Cow Beef Prices.

In from Takapau, a pen of well-framed solidly finished young Hereford cows sold to £9 3/-; from the same vendor, a line of similar, smaller framed cows brought £8 4/-. In from Whana Whana, a pen of well-bred Hereford cows sold at \$12/5'; good ewes, 21/- to 23/-; tops, to 26/7; light, down to 10/-. Store Sheep.

Breeding ewes: On account of Mr W. McQuilkin, Maraetotra, a usful line of five-year-old breeding ewes run with Southdown rams, sold at 27/6. A similar entry, and showing up well in lamb brought 22/2. A further line in same order fetched 19/1.

Hoggets: An extra good line on account of Mr L. M. Pattullo topped the market at 20/6; a pen of medium grown Romney cross wether hoggets fetched 19/-; a further line on account of Atua Station, medium grown and well woolled medium grown and well woolled sold at 18/-. Fat Sheep.

A line of maiden ewes fetched 20/6; a further pen of medium woolled, but fat to forward ewes sold at 17/-. Further prices ranged from 14/- up to 17/6 A small pen of wethers in prime

# THE MENACE OF FOOT AND MOUTH DISEASE Danish Scientist Claims To

# Have Achieved A Conquest

Reports were published recently from Copenhagen that a serum had been discovered which would render cattle immune from foot-and-mouth disease.

Existing sera, it was stated, have saved cattle for only 10 days, but this new treatment has been proved potent for nearly a year, and up to 97 per cent. of the cattle have been immune from infection.

In scientific circles in Copenhagen it is claimed that Dr. Sven Smith, a Danish Government scientist, has really conquered foot-and-mouth disease, which has caused the world millions of pounds of loss. The Danish Government Serum Institute can arrange a large output of the serum if it is called upon.

Experiments have been carried on in Germany and many thousands of cattle have been saved. There are three known types of foot-and-mouth virus, and it is not yet known if the serum is effective against all three. On inquiry from the Department of Agriculture, it was

stated that reports indicating good results had been published

in Denmark, but no statement had yet been made in British

journals referring to the subject. "No doubt the foot-and-mouth disease research committee, which has been operating in England for some years, is closely watching such experimental work carried out on the Continent, and one must await a report from this body on the possibility of the adoption of serum treatment in Eng-

land," continued the departmental reply.

#### TWO-YEAR-OLD CROWN GOES Rangitikei Hunt TO DEFAULTER

## Season's Best Winner

#### HIS FINISHING EFFORTS WERE **IMPRESSIVE**

#### Comment On Recent Form

(BY MOTUROA)

Defaulter, by reason of his seven wins and a third in his 10 starts this season, and his complete mastery of the twoyear-old situation throughout the summer and autumn meetings, stands out far and above his rivals, and there can be no doubt that his performances stamp him as the best of his age

Bred as he is, and on his finishing efforts over seven furlongs, he is the logical Derby favourite for 1938.

It has been a good year for two-year-olds, and the leaders measure up very favourably with the best of recent years. The Beau Peres were a sensation in the spring and early summer, and the stock of the colonial-bred sires represented by Te Hero and Surmount, sons of Heroic and Surveyor, proved themselves well above the average.

It is a matter for regret, however, that Defaulter never met Te Hero, and that he did not oppose Peerless when at his best, but performances and winning stakes leave no doubt about his quality and, with £2510 to his credit for the term, he is well ahead of Te Hero (£1275), Peerless (£1185), Amigo (£1175), and Surmount (£1170) (£1175), and Surmount (£1170).

However, Defaulter impressed the writer, both at Trentham and at Awapuni, as being a particularly good class of two-year-old, and there can be no doubt that he is worthy of being awarded the two-year-old crown this season.

DEFAULTER impressed Riccarton critics at the beginning of the season before he actually started to beat the dead-heaters, Paper Sliner and Neatherlea, in the C.J.C. was that he would take a little while to find his feet. However, he created quite a good impression when he made his debut at Motukarara, when he finished just in behind the placed horses in the maiden, won by the four-year-old Iliad mare, Lady Athens.

This was a good warming up gallop for the C.J.C. Welcome.

Defaulter did not win any of his concluding races by great margins, but he left the impression that he always had a lot in reserve and over longer distances, he was irresistible in the run home.

Athens.

This was a good warming up gallop for the C.J.C. Welcome Stakes the following week, but he did not settle down too well in that race and the best he could do was to finish fourth to the Beau Pere filly Peerless, the Wellesley Stakes winner Gay Son, and Taurangi, who had created such a good impression the late Mr G. D. Greenwood, where the such a good impression to the late Mr G. D. Greenwood with the late Mr G. D. Gr had created such a good impression in winning the Taita Handicap at Trentham the month before.

Downed Surmount.

Defaulter's next race was the Orwell Handicap on the second day of the New Zealand Cup meeting and he gave a taste of his quality by coming along at the end of the half mile to beat the top-weight, the brilliant Awapuni colt Surmount. Produced again on the concluding day he did not disgrace himself in finishing third to Peerless and Surmount in the Pioneer Handicap.

#### DECLINE OF JUMPERS IS DUE TO NEGLECT

#### Racing Clubs Have Overlooked Their Duty by Catering Mainly for Sprinters

(By MOTUROA).

Champions are not bred every year, and one must take the lean years with the good to be in a position to form an opinion whether the jumping horse of the present decade compares favourably with the jumpers of earlier times. It may be said in the first place that the general run of jumpers seen out this winter—as far as advanced—fall short of the earlier standards of hurdlers and steeplechasers, but one is encouraged in the belief that there has been an improvement on the two previous years.

Last winter the really good jumpers could have been counted on one hand. In fact, one has to go back to the years of Beau Cavalier to meet with many horses approaching the class of Clarence, Moifaa, Chemist, Dummy, Mutiny, Liberator Record Reign, El Gallo, Lochelle and Coalition, whose names have become household words. The reason, or the reasons, for the decline should have the earnest consideration of all who have the improvement of the thoroughbred at heart.

Naturally, opinions will be divided on this wide subject. but it appears as if the chief cause of the decadence is the poor encouragement offered by racing clubs to breeders to breed horses suitable for jumping—horses of stamina.

In recent years the fashion has been to breed from a class of imported stallions whose progeny come to hand quickly; go fast over short courses, and then fade out of the racing arena. The winners of these "squibs," for which the clubs have catered to an unreasonable limit are sufficient to recoun their one flat race at a meeting to be ten have catered to an unreasonable limit, are sufficient to recoup their owners after two or three short rac-

looked by form followers. There is no doubt he is a good class horse at his best.

On The Improve.

Nocturnus has not been successful since he won the Grand National and Beaufort Steeplechases nearly 12 months ago, but reports from Riccarton indicate that he is steadily on the upgrade. He is to race at the steadily on the upgrade. He is to race at the description of scrambles over short distances, craves for something more satisfying, something more

Racegoers everywhere express the opinion that sprinting events occurrently of the clubs in providing rich prizes to expectations there is sure to be a move to advance his scrip for the National in a fortnight's time.

Felt His Hard Race.

Racegoers everywhere express the opinion that sprinting events occurrently of the clubs in providing rich prizes for two-year-olds and sprinters is for two-year-olds and sprinters is for two-year-olds and sprinters is forcing the stayer farther and farther into the background.

In the past couple of years there will the class of jumpers improve.

At the same time it should be urged upon all racing clubs to remember the thoroughbred breeder, and the racing public. More well-endowed jumping events are needed. Only then will breeders turn their attention seriously to the production of stouter horses; only then will the class of jumpers improve. All will tend to brighter racing and
