FRENCH PRIME MINISTER SEEKS DICTATOR'S POWERS

Spread of Stay-in Strikes Increases Problems of Government

United Press Association—Copyright.
(Received April 6 p.m.)

The financial problems of the French Prime Minister (M. Leon Blum) include a capital levy, increased taxes and the serious revaluation of the Bank of France's gold reserves, continuation of all foreign exchange dealings in francs, suspension of cable subscriptions for two years, and a support on armament program.

Blum has two other structural powers until July 1. The Chamber of Deputies will be dissolved on June 15. The President of the Republic will be elected on June 15. The President of the Republic will be elected on June 15. The President of the Republic will be elected on June 15.

BRITISH RACING MOTORIST HOPES TO REACH 350 M.P.H.

Revolutionary Design of Great New Car Causes A Sensation

British Official Wireless.
(Received April 6, 9 p.m.)

A sensation was caused by the revolutionary design of the new high speed car which Mr. John Cobb, famous British racing motorist, will attempt to break Captain George Eyston's world land speed record of 311 miles an hour in May.

The car has two supercharged engines, developing together about 250 horsepower. The drive of the engine is to all four wheels. The streamlined body reduces the air resistance.

A speed of 350 miles an hour is hoped for.

"Shakedown" and "The Three Maxims"

One of the best handled murder tales to date in the screen for some time, "Shakedown" now showing at the Municipal Theatre, Hastings, provides a worthy replacement for the classic.

As this one it will readily agree with the "Three Maxims" as an excellent film. Directed by a man who has made a specialty of the genre that has inspired that recent hit of a just passing day, "The Three Maxims" is a film that is a real gem.

It is a story of a woman who is accused of a crime and is found guilty. The story is a classic and is a real gem.

TRAINING NO LONGER A FULL-TIME PROFESSION

Olympic Games Competitors of Future Will Be On An Equal Footing

Empire athletes are delighted with the decision of the International Olympic Committee in Cairo recently. All countries will be on an equal footing for a period of three months and are considered as equals.

In future the regular occupation of an athlete cannot be taken into account as a factor for special consideration in the selection of athletes.

This immediately puts a stop to one of the practices of the last Games of the Empire which resulted in Germany to be favoured. Some of the Empire runners were sent to Germany to be coached.

One believes that this rule will, in the long run, produce other long away of Olympic athletes by America who usually arrive with the great attraction, have facilities at their disposal which are unparalleled elsewhere in the world.

Members of America's former Olympic athletes are naturally glad.

Today the mass mind is aware that protection of the teeth and gums is tied to the maintenance of health. Scientists and dentists have discovered that the gums rapidly acquire themselves to any one toothpaste, responding less and less to the constant use of a different one. The importance of this discovery can be expressed in the form of a healthy mouth.

To keep the delicate tissues of the gums up to the necessary healthy state requires a change in the nature of the toothpaste used. The importance of this discovery can be expressed in the form of a healthy mouth.
