A COMFORT SOAP FOR BABY

Our mother has heard a whole lot in doctor's advice and she says, "I'll try it." So she buys a tin of **REXONA** and washes her baby with it. Her baby is so comfortable and happy because Rexona's gentle soap doesn't irritate the skin. It has a wonderful perfume that makes the baby's skin soft and smooth. It is the best protection against bacteria, chafing, and all the other ills that come from the baby's skin.

WHEN YOU HANDBABY OVER TO NURSE

Pitfalls That the Wise Young Mother Will Avoid From the Outset

Many young mothers are anxious for the welfare of their babies and conscious of their own ignorance or lack of knowledge that they hand their children over tenderly to nurse. As a result of this there is a danger of their not getting many visitors at the hospital, never really knowing their child in their visits important for the baby's life.

CHINA: LAND OF CONTRASTS

FAITH IN TRADITION

They Have a God of Laughter

"China is a country in which there are men, women, and children, and water, lakes, rivers, and mountains, and towns and villages, fields and trees."

China is a country in which there are men, women, and children, and water, lakes, rivers, and mountains, and towns and villages, fields and trees.

Why are not the children of England and the children of China the same?

The truth is a plain everyday fact. A knowledge of the Chinese mind is difficult for us to realize how good a part language plays in China education. In China there are 24 different dialects, and each dialect has its own set of writing characters, not made, but in different provinces different sets, as great as those of the dialects we as differ in this country. In Spain, Portugal, and Italy, Spanish, Portuguese, and Italian are spoken, but in different provinces different sets, as great as those of the dialects we as differ in this country.

China is a country in which there are men, women, and children, and water, lakes, rivers, and mountains, and towns and villages, fields and trees.
