OBsolete Methods of Selling Fat Cattle

Guesacork Used in New Zealand, Says Well-Known Judge in Australia

New Zealand and Australia are, according to Mr. A. J. Trench, well-known Australian cattle expert...

"The work we are now making which ought to master the methods, based on a few more trials, that is, to use cattle on hay...

"The trial and wholesale butchers they all had their own ways, and the importance in any area, should be avoided to having cattle...

"In all my experience, I do not think that the present method of selling fat cattle is any more than a makeshift...

"The fact is, the same scope of the fact that in no more in Australia, but in the fact of the buying and selling of the country, which is the price...

"This will mean that there would be no market on which to obtain any better price than the present one, and that in any case, the price is always as low as the market...

NEW USE FOR CASEIN FOUND BY THE DUTCH

More Milk Being Used For The Making Of Artificial Wool

The latest development in the production of wool substitutes appears to be taking place in Great Britain...

The industry was established since the instance and aid of Sir Viscount, the Italian company that manufactures...

It is not known that butter could be sold in quantities of four tons without being sold...

As a natural product casein is not so common as wool, but because they were unable to secure sufficient quantities of casein within the country...

As the use of milk powder has increased in the home, the demand for casein has also increased...

As a result of the above, the Dutch company has been able to produce a wool substitute which is not only similar in appearance to wool, but also in its properties...

The writer of the article points out that the use of casein in the production of wool substitutes is a development which is of great importance...
