HASTINGS SHOWROOM 112 KING STREET

NO HOME IS COMPLETE WITHOUT THIS "LEONARD"

THE BIGGEST BARGAIN IN REFRIGERATORS TO-DAY!

- Cabinet exterior—Welded steel, moisture-proof construction in white Permalin on Handford Steel.
- Hardware—Heavy Chromium Plated, giving lifelong service.
- Door Frame—Centrally located Stainless steel, chamber door heavy gauge aluminium.
- Leonard Control Master Dial conveniently placed, provides 12 freezing speeds.
- Interior Light—Books interior when door swings open.
- They have thought of everything, even to foot control: the machine is quiet, efficient and economical.

THIS MODERN LAUNDRY METHOD BRINGS . . .
FREEDOM TO THOUSANDS OF WOMEN ALSO

THE HEAVIEST AND DIRTIEST WASHING OR THE DAINTIEST LINGERIE WASHED SPOTLESSLY WITH SPEED AND SAFETY

Washing machine bowls have been made of every conceivable material, but all Colford bowls embody 15-gauge Armco steel, with three coats of Porcelain fused right into the metal. This gives you a bowl combining the same qualities that are so obvious in all modern baths. It is easy to keep clean, retains a beautiful finish for years, and is the best known best retainer. Under normal usage it is impossible to dent this material.

CAMERA "SHOTS" IN HAWKE'S BAY

THE FADING OF THE BURE.—Mackenzie Basin in a picture of the incoming Hastings Clock Tower.

"TANGI TO TONGATA"—Maori warriors in successive gear shake the earth as they execute a stirring haka at the recent native entertainment at Waioce.

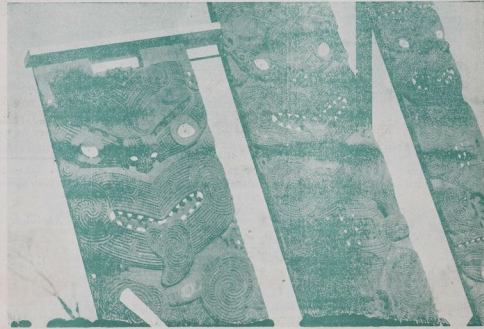

SEA AND FLOWERS.—Nature provides a pleasing setting for the Emerald in the Emerald Square, Napier.

MOON-BAY TRAFFIC.—Intersection Street, Hastings, presents a busy scene at the mid-week.

HAPPY BIRTHDAY BUILINGS.—The upper floor of the E. and G. Building towers over the streets.

AN ALMOST FURIOUS CARP.—Maori motifs and whorls form a pleasing pattern on these Maori carvings at Whararua, Hastings. An ancient legend is portrayed in these panels.

Why ALL THESE VAUXHALLS?

Why are so many motorists VAUXHALL minded? Here Vauxhalls something that other cars haven't got. Yes, if you compare Vauxhalls on a strict value-for-money basis with other cars of similar size and price. Yes, if you want such advantages as Free-Action Wheels (Independent Front Wheel Suspension), Fisher No Draught Ventilation, Controlled Synchro-Mesh, combined with the distinctive appearance and the fine performance, lively acceleration and astounding economy of 14 horse-power, cylinder valve-in-head engine. Before you decide on your car, compare Vauxhalls from every angle—acceleration, riding comfort, driving ease and the other features that make for increasing enjoyment. You will welcome this comparison and willingly provide a car for you to test.

"HERE ARE THE SETS THAT CREATE" "New Listening"

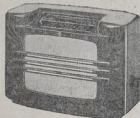

As left is illustrated Model 422A, a 5-tube All-Wave Superheterodyne. Remarkable reproduction and performance on all three wave bands make this an outstanding radio of the year.

22 GNS.

Illustrated at right is the Model 422A, a 5-tube 3-waveband Superheterodyne. Its general performance the 422A sets a new high standard for a low priced set. Such features as automatic volume control and sensitivity selective A.V.C. and sensitivity variable tone control are responsible for this receiver's fine performance.

18 GNS.

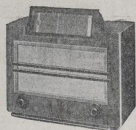

Model 321A (illustrated at left) is a 5-tube, 3-waveband receiver. This superb new radio receiver has been designed for the music lover for whom the music is essential. It has an amazing radio luxury the 321 with its unusual, original performance and remarkably hard, some melodies will give a thrill of joy.

36 GNS.

Model 321A (illustrated at right) is a 5-tube, 3-waveband Superheterodyne. Features include the new "Silentote" valve in the Foreign-Broadcast switch, giving adjustment for normal or long distance reception—Speaker with Sound Diffuser. Operation is simplified by the "Automatic Tuning" feature.

27 GNS.

THEATRETTÉ (Illustrated below) is a 5-tube All-Wave Receiver. All the nice features of a modern receiver of quality, such as automatic band, new full volume tone, automatic tuning, compression, high sensitivity and selectivity, trace and reproduction, sound reproduction, beautiful cabinet design are to be found in this set.

13 GNS.

Model 321A (illustrated above) is a 5-tube, 3-waveband Superheterodyne. The large size of cabinet cabinet encloses the entire receiver of the instrument and the same design makes the receiver a beautiful addition to the home.

36 GNS.

Model 321A (illustrated above) a 5-tube, all-waveband set. Like model with high fidelity reproduction. The incomparable price value is even more amazing than the magnificent performance.

32 GNS.

THE developments that create "New Listening" make all the difference between reproduction and the real thing. The subtleties of voice inflection and tonal balance, previously beyond the scope of any radio, now come through with completely natural fidelity.

Background noise can no longer wreck your enjoyment of a programme. The new "Philips Silentote" valve cuts it out by increasing sensitivity five times — this also means that weak and distant stations come over with new purity of tone. But it's not only on reproduction that the new Philips Radioplayers score. They are far easier to handle — and their modern cabinets are beautifully designed and finished — good just to look at. Call at your Philips Retailer to see and hear these sets for yourself.

"New Listening" FEATURES

- New Philips "Silentote" valve increases sensitivity five times yet also drowns out background noise almost completely.
- Performance selector for best possible reception under various conditions.
- Tuning with interstation silencing.
- Excellent reproduction of numerous stations under normal conditions.
- Extra long range reception.
- Rubber cushioned R.F. chassis eliminates microphonic noises even on weak and distant stations.
- Philips Sound Diffuser eliminates the high note "harsh" and ensures balanced reproduction all round the set.
- Adjustable tilting dial gives eye level visibility when standing or sitting down.
- Cabinet design based on modern acoustic research — no more objectionable resonances — no more "boom".
- Greatly increased speaker sensitivity.
- Extended frequency response for high fidelity reproduction.
- Glass slide-till sprung dials of the slide rule type.
- Micro-phonics of the shortwave bands as an aid to identification.
- Background non-flipping dual ratio tuning.
- Acoustically reproduced as a result of new inverse feedback audio circuits.
- Low impedance extension speaker sockets, permitting long extension leads without special matching devices.

The 321 is a 5-tube All-Wave Superheterodyne set. Superior tone quality was put first and foremost when Philips designed this new All-Wave radioplayers. To achieve this for both fidelity and selectivity, there were several conditions that had to be met. The result is a radio that gives world-wide coverage — a reproduction of the original performance.

33 GNS.

Model 321A is a Radio-Gramophone Combination model, built only after years of research in an endeavour to bring new beauty into the home, both in Absolute simplicity of appearance and in the ease of listening in one single line setting.

SOME OF THE PEACEFUL PASTORAL SCENES IN THE HAWKE'S BAY PROVINCE.

WINTER SCENE.—The snowdrifts created by one of the first snowfalls the district had experienced for many years.

THREE OF A TEAM.—Draft horses ploughing on a Hawke's Bay farm.

CATTLE GRAZING IN A SETTING OF TYPICAL HAWKE'S BAY COUNTRYSIDE.

THE STAGELY SNOW-CAPPED RUANIDHS APPEAR IN THE BACKGROUND.

"THE GOLDEN FLEECES"

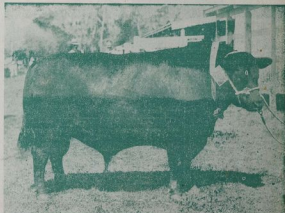

CLIMBING THE RIDGE.—Sportsmen on horseback participating in a week-end riding.

"OPEN THE GATES"—A lady participating in a parade in front of the Spring Show.

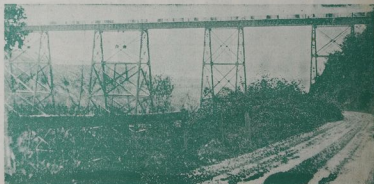

WELCOME SHADE.—Dived along with shelter from the scorching sun.

CHAMPION BELL.—"Throb of Wairoa," champion bull of the Spring Show.

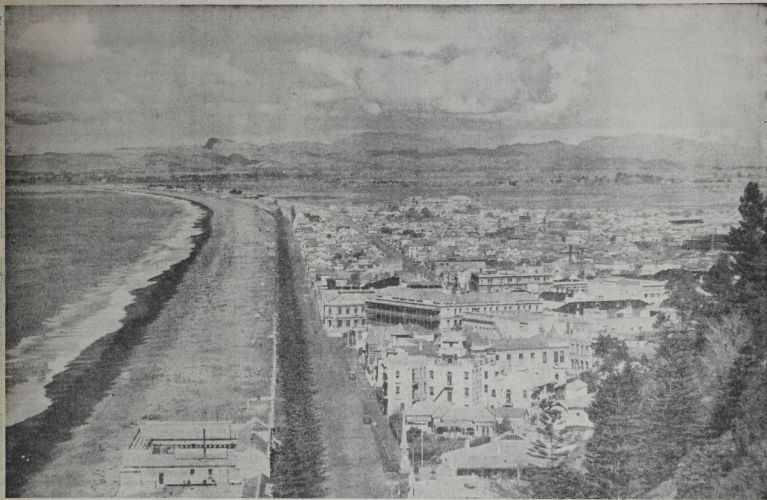

WRETFORD RACE.—One of New Zealand's leading stock markets.

LABOUR IN RAW SEALS.—The Mohaka crosses on the East Coast railway.
