CROSSBRED WOOL SHOWS A RISE AT WELLINGTON

Heavier Southern Hawke's Bay Clip Meets With Buyers' Approval

By Telegraph—Wellington, Dec. 7.

The first sale of the 1938-39 season of the wool today, when catalogues totaling approximately 24,000 bales were offered for sale and received by the Wellington Woolgrowers' Association in its official report.

The success of the offering of the wool from the Manawatu, Waikato, and Southern Hawke's Bay districts is a record for the season. The bidding was well spaced and animated, with a good time being had by all.

The Wellington and Southern districts were the main feature of the sale, the latter being the most important. The wool was well spaced and animated, with a good time being had by all.

"DAILY MAIL" RADIO QUESTIONNAIRE Hawke's Bay Listeners Indicate Their Preferences In Broadcast Programmes: Tremendous Interest In Campaign

That radio listeners have very positive ideas about the type of entertainment they prefer is abundantly demonstrated by the answers received to the "Daily Mail" radio questionnaire.

No fewer than 4500 listeners are represented, covering the whole of Hawke's Bay from Waitara to Woodville. Actually the total for exceeded 5000, as some hundreds of listeners did not forward their replies until the official closing time (Thursday night) and it was therefore impossible to include these in the final total.

A feature of the replies is the overwhelming majority generally in favour of light, popular programmes. In many cases listeners did not indicate any preference or otherwise for certain sections.

In order of popularity, the following types of programme are preferred—

- (1) Mixed programmes ("Male, Mirth, and Melody" type) 4235 1151
(2) Variety and vaudeville 3860 785
(3) Dance music 3615 1055
(4) Band music 3275 885
(5) Light opera 2792 1009
(6) General talks and lectures 2733 1881
(7) Radio plays 2087 1732

The most unpopular of the listed sections were—

- (1) Present broadcast of ZVA 255 4115
(2) Classical music 833 4053

An overwhelming majority of listeners stated that they could receive ZVA adequately at present—an impressive tribute to the efficiency of the modern radio. The figures were—

- Adequate reception 4588
Unadequate reception 491

Listeners are very emphatic in their desire for the reintroduction of the children's sessions formerly broadcast from Waitara, Napier, and Hastings. A feature of this subject is the unanimity of listeners on the return of the children's session. The replies to this part of the questionnaire were almost unvaried, although a wide divergence of opinion was shown on other points. That the taking of the children of Hawke's Bay is no widely recognized policy is a significant fact which should be a further incentive to the authorities to consider this subject.

The section dealing with "other preferences" was notable chiefly for the number of votes for "request" programmes, although a great number of listeners indicated that a return of "Cute People" Wairarapa sessions would content them.

Many requests were made for Maori and Hawaiian music, gardening talks, old-time dance music, organ music, stock sales, pipe bands, and cowboy songs.

The "Daily Mail" desires to thank the listeners who co-operated in making the questionnaire such a brilliant success. If it achieves the objective of the listeners, the "Daily Mail" feels that the small part it has played has been well worth while.

The "Daily Mail" asks its readers that it will always be at the service of the people of Hawke's Bay in every matter affecting their interests and welfare.

The detailed results are as follows—

Table with 2 columns: Program Type and For. Against. Includes categories like Present broadcast of ZVA, Children's sessions, Mixed programmes, Dance music, Variety and vaudeville, etc.
