Only LUX is safe enough for washing baby's nappies...

BECAUSE LUX dissolves so quickly

...RINSES OUT SO COMPLETELY

Don't let your previous baby suffer the discomfort and soreness of harsh nappies. Always wash nappies with LUX to keep them soft and baby's tender skin. It's quicker dissolving, rinses out and Lux contains no acid.

When You Rub-Nappies Soap Leaves Nappies Harsh

When you rub nappies with LUX, you get a certain amount of the soap sticks in the nappies and can't be raised out. This causes your baby's nappies to become soiled and the baby's skin to become irritated. LUX is the best soap for nappies and is gentle on the skin.

For all Baby's clothes

For baby's nappies, no one is so sure to use only LUX... to keep them soft and baby's tender skin. It's quicker dissolving, rinses out and Lux contains no acid.

Lux Rinses Right Out Easily

The lightning solubility of Lux causes baby's safe, thorough rinsing. Just two changes of water and every trace of Lux fabric is out, no soapy dry residue, white and sootier — and baby is happier because his nappies are clean.

It's FALSE ECONOMY TO USE ANYTHING BUT LUX
