PERFORMING AN INVALUABLE SERVICE  
Progress Since Its Inception

In a brief period of two months the Country Library Service, which has its headquarters in Wellington, has made big advances toward the realization of its policy to make the books of the country available free of cost to everyone in New Zealand no matter how remote and inaccessible his place of residence may be.

So far 12,000 books have been bought and 4,000 have been distributed by motor-car to various points in the Dominion. Expert service and advice to librarians has been combined with practical assistance in the form of books and literature which have been received from some of the districts that are served by the service.

An outline of what has been accomplished so far was given in an interview by Mr. T. W. Alley, chief librarian in charge of the service.

Headquarters of the service have been established at 25, Grey Street, and the books are sent to the various points in the Dominion by motor-car.

It is interesting to note that Canterbury, Otago, and Southland, which have the most books in the service, are also the districts where the most books have been received from the various points in the Dominion.

The service has also received a large number of books from the various points in the Dominion, and these books are being distributed to the various points in the Dominion.

Librarians under the control of the service are being trained to make the most efficient use of the books which are being sent to them.

**A NEW Y.V.C.A. CLUB TO BE LAUNCHED IN NAPER CULTURAL CENTRE**

**A Movement Worthly Of Support**

Napier is to have the largest Y.V.C.A. center for girls and young women, which will be located in the Napier Cultural Centre. The new club will be organized and thoughtfully run by women, who are being trained in various vocations as a discipline for their education.

The idea is to have a girl's club which will have approximately 100 members. It will be organized through the variety of interests given to women there and will be organized to develop their own initiative and to learn to be self-reliant and self-governing which will be an asset of thorough education.

A typical Y.V.C.A. club center has many departments, such as the library, the sewing department, the home economics department, the music department, the drama department, the art department, the physical education department, the social department, and the sports department. The Y.V.C.A. club center will be organized to give the girls and young women a chance to develop their own initiative and to learn to be self-reliant and self-governing which will be an asset of thorough education.
