**British Medical Association NEW ZEALAND BRANCH**  
**STATEMENT TO THE PUBLIC**  
on the Medical Provisions of the Social Security Act

1. The medical profession in New Zealand favours health insurance for those needing it. It has repeatedly offered and is still ready to co-operate with the Government in working a scheme of more practical value than any operating elsewhere.

2. The Government's scheme is wrong in principle because it meets neither the general health requirements of the people nor their special needs in sickness.

3. By standardising the work and prospects of the doctors, the Government's proposals would reduce the level of the profession to that of its least efficient member.

4. Over 95 per cent of the doctors in New Zealand are opposed to the Government's scheme.

5. The British Medical Association in England is strongly against the New Zealand scheme, has voluntarily offered full moral and financial support, and has sent a preliminary contribution of £500 to help the Branch to oppose the scheme.

6. National Health Insurance in England is entirely different from the New Zealand Government's scheme both in its method of finance and in those for whom it provides medical attention.

7. No recognised medical authority anywhere in the world is in favour of the New Zealand scheme.

8. There can be no reason for the inclusion in the scheme of those not in need of it except a political objective.

9. The Government's proposals must have the ultimate effect of concentrating specialist and consultant treatment in the public hospitals. Private specialists would soon be eliminated. Only lower grade specialist services limited to salaried hospital officers would be available.

10. The Association's objections have not been due to financial considerations.

11. The Government's proposals would deny the people complete freedom and would lead to the regimentation of the profession with loss of professional freedom and initiative and to control by state departments — in other words the complete socialisation of medical practice.

12. Whatever happens, the profession assures the public that it will continue to operate the full existing medical service.

Will SHE  
*have to pay*  
**POLL TAX?**

Under Labour ... YES! *Boys and Girls will have to pay over £200,000 yearly.*

Every boy and girl over 16—even boys and girls at school—will have to pay tax under the Labour Government's Social Security Act ... to the tune of £200,000 a year. That is the law. No electioneering argument you hear to the contrary can be true—because Labour members voted solidly *against* amendments to exempt young people from 16 to 20 years of age. They needn't have asked them to pay—but they *did*. Pensioners will pay no less than £550,000, relief workers £180,000, domestic workers £75,000 and women will be taxed £225,000 on their "other incomes". And those hardest hit are the worker—because his children, as a rule, start working younger. There is no exemption for anyone with a low income and everyone must pay the poll tax to register whether they earn or not. That is the law.

Under National ... NO! *No Boy or Girl under 20 will pay Poll Tax or Wage Tax.*

The National Government will *not* tax the sixteen-year old, will *not* tax domestics, will *not* require women to register or pay unemployment taxation on wages or salaries, and will *exempt* their "other incomes" up to £250 per annum.

The Policy of the National Party provides:—

- (1) Increased family allowances (100% increase).
- (2) Pensions for widows and orphans.
- (3) Free maternity service.
- (4) A free and complete health scheme for those who are unable to make provision for such services out of their own resources.

In addition, the Policy of the National Party provides for a superannuation scheme which enables those who have already made adequate provision to be exempted from such scheme if they so desire.

His Great Race At Roschill

(By MOTORICA)

Yesterday the great performer of Mr Herbert Galardin in the colors of the "Tut" drove down to his owners and the story lay up to his purchase of that great-sleazebag Grand Commodore.

Mr Galardin has now reputedly attained the 1025 Grand Commodore sales total. He has been a regular rider, but-hunter in Humber, Humber, Toyoko, and Motley, all having been his lot for long.

This youngster raced at Commodore and without a doubt, from the first hour that ever carried the colors of the Master of Gray.

Commodore was a horse of exceptional brilliance combined with remarkable stamina, and in most years he would never have finished in classic or weight-of-age company.

COMMENDATION raced in the same year as the theoretical Lancers, Tots, Nigger Mottos, and others, and was the best of his year.

It was a vintage year for him as he finished the C.B.C. Western Derby, the Wainwright, and the C.C. Champion Stakes there.

He continued that wonderful winning form until the 1938 season, when he was the favorite for the C.B.C. Western Derby, the Wainwright, and the C.C. Champion Stakes there.

The following season, when he was the favorite for the C.B.C. Western Derby, the Wainwright, and the C.C. Champion Stakes there.

After the appearance of the first race made by Mr Galardin we have seen the horse in the colors of the "Tut" drive down to his owners and the story lay up to his purchase of that great-sleazebag Grand Commodore.
