FEMINITY IS SUPREME IN HAIR STYLES

Edwardian Types Give Softness To The Features

This season when in a new type of old-time hair beauty styles are on the up and up, with curls tucked on top of the head, hair is showing a new and feminine suggestion.

The Edwardian styles are designed to give softness to the features, but whether you get an Edwardian or otherwise, you will have to alter your hair dress, just as much as the case when long hair went out of fashion.

The great advantage of this new type of hair dress is that they are not so elaborate as styles to be worn on the head. They are simple and easy to wear.

It's a man's size job! Not a man wouldn't do it, and the woman's job is to do it, with a little help from the hairdresser.

THE PASTEURISATION OF OUR MILK SUPPLY. Arguments For And Against The Process: A Doctor's Opinion.

Should milk be pasteurised? Around this question experts have long been divided. One doctor tells us, however, of his views on medical etiquette in connection with this question.

Louis Pasteur (1822-1895) discovered that by raising the temperature of pure milk to 143 degrees Fahrenheit for a period of 30 minutes, and cooling it immediately to 50 degrees Fahrenheit, he was able to prevent the milk from becoming sour.

There are two main questions in connection with the pasteurisation of milk. The first is: "What is the purpose of pasteurisation?" The second is: "What are the advantages and disadvantages of pasteurisation?"

The advantages of pasteurisation are: 1. It kills the germs which cause disease. 2. It makes the milk more palatable. 3. It makes the milk more digestible. 4. It makes the milk more stable.

The disadvantages of pasteurisation are: 1. It destroys the natural cream in the milk. 2. It destroys the natural vitamins in the milk. 3. It destroys the natural enzymes in the milk. 4. It destroys the natural flavor in the milk.

The question of whether or not to pasteurise milk is a question of medical etiquette. It is a question of whether or not to follow the lead of the majority or to follow the lead of the minority.

You may be satisfied now - but until you use PERSIL your washing can't be really white

Long though your washing experience may have been, it takes a Persil wash to show you what real whiteness means. Persil is quite different from anything else you may have used. The wonderful oxygen-charged soap does the closest work, getting out stains and grime completely. Just because Persil makes things so much cleaner, it makes them whiter, too. Use Persil alone for the whole family wash - no other soaps or extras needed.

SECRET BEAUTY AID FIGURES IN COURT CASE

Allegations of False Pretences Against A Bookmaker At Auckland

By Telegraph-Press Association. ALECKSON, Oct. 21. How an unemployed bookmaker allegedly posed as a beauty expert to attract women to his betting table has been the subject of a sensational court case today.

Two charges of obtaining sums of 2 from women by false representations that, on receipt of the money, they would be given a beauty treatment, were denied by Clifford Nelson, Dunedin, aged 37, who was charged with the offences on October 15.

Mr Nelson was charged with obtaining sums of 100 each from the defendant last March and with obtaining sums of 100 each from the defendant on October 15. The defendant was charged with obtaining sums of 100 each from the defendant on October 15.

The witness testified that she had received a letter from the defendant on October 15, in which he had written that he was a beauty expert and that he would give her a beauty treatment if she gave him 100.

When she received the letter, she was in a state of distress and she had just received a letter from her mother telling her that she was in a state of distress and that she was in a state of distress.

She then went to the defendant's home and she gave him 100. He then took her to a room and he gave her a beauty treatment. She then went to the defendant's home and she gave him 100.
