BAD LIGHTING

The modern young man's 'bad eye' (By Mrs. M. Stewart).

A recent paragraph contained a warning about children overworked by the N.Z. Institute of Opticians...

The general young man's 'bad eye' is not a new ailment but has been rampant that I have found...

CHRISTIE'S EXHIBITION HOME

NO VISITORS PERMITTED AFTER THAT DATE.

OVER **6,000** PEOPLE

Have already inspected this lovely Modern Home. If you have not already seen it, obtain your ticket now from Christie's. THURSDAY will be your last chance.

WE MAKE THIS RECOMMENDATION for a final inspection of the home especially to those interested in FLOORING. Come and see how the Floor Coverings have stood the test of 6000 PAIRS OF FEET.

BUILDING OF STATE HOUSES CONTINUES—This group of houses is being built under the State housing scheme in Danversville.

PROFESSOR OTTO SCHMIDT, the famous Russian explorer, has done much Polar exploration.

BLINDING THEM UP—Many spectators were allowed to the Hastings racecourse yesterday evening, when a large number of horses were given their first lesson in preparation for Christie's racing. The above trio of truck washers, from the left, are the well known trainer, W. H. Corbett, O. Nelson, owner of Blazing Cat, and B. N. Lane, owner of Black Foot.

Make the most of your trip abroad . . .

TRAVEL—There is glamour in that word . . . A thrill in its meaning—in the strength in concept of new scenes, new faces, new customs, of variety, interest and entertainment.

If you are considering a trip abroad make sure that your dreams are realized to the fullest degree—consult travel experts concerning itineraries, accommodations, and the hundred and one little details that only an expert's advice and assistance can bring to your attention.

The officers of the Union Company are at your service to ensure that you enjoy the true meaning of the word "travel" . . . They will arrange your bookings to ports in Australia, United States and Canada, or in Fiji or Hawaii . . . They will make arrangements for a through trip to the United Kingdom and Europe, or for a round-the-world tour.

Make the most of your trip, consult the Union Company.

WINTERING HOGGETS
Correct Diet is Valuable in Disease Prevention and Cure
METHODS OF FEEDING DISCUSSED

(By Veterinarian)
The death-rate in hoggets during the period from weaning till spring is an exceptionally high one. An even greater financial loss is incurred which does not die, but undergo a very severe scour. Not only is the value of these young sheep mutilated, but as adults they are commonly small, unthrifty, often still suffering from the effects of rickets, and are poor producers of wool and mutton.

It has been pointed out in a previous article that underdevelopment at this age seriously affects the development of the period, and their subsequent conformation. This point is of no small importance, because that the extent of the malnutrition of the yearling sheep affects the underdevelopment can be overcome by efficient feeding methods, and good farm management.

Hoggets usually receive only one or two meals of milk during the first year of their life. A healthy lambs when first they are weaned, they are usually undernourished. It is regarded by hogget raisers that the milk of the dam is the most important factor in the development of the hogget, and the additional grain that is given during the first year of life is of little value. The aim is to secure a well-nourished hogget, and that the hogget should be able to take care of itself. The aim is to secure a well-nourished hogget, and that the hogget should be able to take care of itself.

The Cause of Death and Loss of Hoggets
Specific diseases do not, of course, do all the damage in the hogget, but they are a serious cause of loss. In the case of hoggets, the most common diseases are scours, rickets, and pneumonia. Scours is a disease which is caused by a parasite, and is characterized by the passage of watery stools. Rickets is a disease which is caused by a deficiency of calcium, and is characterized by the presence of a soft, spongy bone. Pneumonia is a disease which is caused by a bacterial infection, and is characterized by the presence of a cough and difficulty in breathing.

The Importance of Hoggets
The hogget is a growing animal, and its development is dependent upon the amount of food that it receives. It is important to ensure that the hogget receives a sufficient amount of food, and that the food is of good quality. The hogget should be fed a diet which is rich in protein, and which contains a sufficient amount of calcium. It is also important to ensure that the hogget receives a sufficient amount of exercise, and that it is kept in a clean and healthy environment.

Feeds for Hoggets
The most important feeds for hoggets are milk, and concentrates. Milk is the most important feed, and should be given in a clean and healthy environment. Concentrates are also important, and should be given in a clean and healthy environment. It is important to ensure that the hogget receives a sufficient amount of exercise, and that it is kept in a clean and healthy environment.

Sales of Historic Waikari

The Pioneers Who Toiled And Fought to Build Homes Out of a Lovely Wilderness

About the same time Mr. Blair...
"Station Life the Best"

There is all in Hawke's Bay no district which has had a more romantic history than Waikari, nor one in which a sterner fight has been waged to subdue the wilderness. In this area situated on the coast half way between Waikato and Napier.

They are long past, the old pioneering days. Despite their dangers and hardships, with them had gone much of the romance and colour of the early days.

Old Maori Settlements
The present forests, tall and old, are said to have been planted by the Maori people.

their past an ever prominent link in the western pastoral industry. On the hills, Pukekurae, and elsewhere, the Maori village of Waikari, are the sites of a few remnants of the old life.

Waikari was the name of the Waikari from which the Maori village of Waikari, are the sites of a few remnants of the old life.

MUCH OF THE HISTORY OF EARLY HAWKES BAY IS UNKNOWN TO THE PRESENT GENERATION. INDEED, AUTHENTIC RECORDS OF THE PIONEERS STAND IN DANGER OF BEING LOST FOR ALL TIME.

The "Hawke's Bay Daily Mail" has sought in its weekly feature "The Waikari" to preserve the stories and legends of the Hawke's Bay Maoris. This history of Old Waikari tells something of the epic struggles of the white pioneers of the province. It is hoped to present the story of early Hawke's Bay.

Specially written for the "Daily Mail" by WILLIAM KENNEDY

Maori's most valiant heroism, started business affairs. The familiarity of a Maori was dispersed with, but his more numerous, and accommodation of the Maori was evident.

The story of early Waikari is a record of the struggle of the pioneers who strove to build a home out of a wilderness through the hardships and suffering of the early days.

HAPPY JACK— one of the old pioneers whose exploits are well known by the Maori.

A Maori friend of mine who was the pioneer of Waikari, and who had pulled up the last link of the chain of the Maori people.

Station life is a very busy life. It is a life of the station, and it is a life of the station.

For some years ago the Maori people of Waikari have been the subject of much interest.

The great earthquake of 1855 in New Zealand has had its effect on the Maori people of Waikari.

CLOSING 9.30 p.m. TO-MORROW

THE GREAT HOME EXHIBITION

JUST THINK!
OVER 7000 PEOPLE — Many of whom passed through several aisles.
50,000 PAIRS OF FEET would be a very conservative estimate.
... as having passed over the specially laid linoleum in the entrance hall several feet for the wearing qualities of any product.
Come and see how the following have stood up to such a test:
* ARMSTRONG'S LINOLEUM
* FIRMROD CARPETING
REMEMBER—SEEING IS BELIEVING

This Lovely, Modern Home has created tremendous interest all over New Zealand. Visitors from many other countries, including Australia, Canada and Great Britain, have added their names to the long list of delighted guests.
