BRITISH EMERGENCY EFFORTS
NAVY'S MOBILISATION SUCCESSFUL: DEFECTS SEEN IN OTHER DIRECTIONS

The brightest spot in all Britain's emergency efforts of the afternoon of September 25 was the smooth mobilisation of the naval reserves. Within three hours 25,000 men were mobilised into the Fleet, and the man knew exactly what to do. This success was due to the failure in other directions (such as a component of the "Stiffy Morning" League).

It was on the second day of mobilisation that the public was made aware of the success of the naval reserves. The success was due to the fact that the men knew exactly what to do. This success was due to the failure in other directions (such as a component of the "Stiffy Morning" League).

It would appear that a great many of the men who were mobilised were not in the best of health. This was due to the fact that the men were not in the best of health. This was due to the fact that the men were not in the best of health.

NO SENSE OF SECURITY
The result of the day's doings was to leave a feeling of insecurity. This was due to the fact that the men were not in the best of health. This was due to the fact that the men were not in the best of health.

COURTENAY RADIO

7 REASONS WHY YOU SHOULD CONSIDER
COURTENAY RADIO WHEN PURCHASING
A NEW RADIO.

- ★ COURTENAY Radio is made in New Zealand by New Zealanders for New Zealanders.
- ★ When you buy a COURTENAY you are supporting N.Z. secondary industries and so keeping a large number of people employed, also the money stays in New Zealand.
- ★ By purchasing a COURTENAY you are getting maximum radio value, not large percentages for import duty, expensive freights, etc.
- ★ If you think the imported radio better, we invite you to try the COURTENAY side by side with the imported set and compare them for yourself.
- ★ COURTENAY Radio is guaranteed by the manufacturers for a long period.
- ★ COURTENAY Radio comes to you direct from the factory through your local dealer, thus saving a multiplicity of handling which most increase the price of any Radio.
- ★ COURTENAY is made in a full range of models in Electric, Battery and Dual (Battery-Electric).

Whether you are in the Country or Town
there is a Courtenay Radio to suit you.

EMERSON STREET NAPIER

2YH NAPIER: THE VOICE OF HAWKE'S BAY

DALGETY'S BUILDINGS, DICKSON STREET, NAPIER, where the studios are situated.

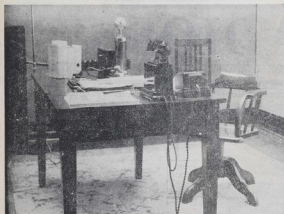

MR. F. D. J. CROWLE, M.A., manager of the new station.

THE NO. 1 STUDIO.—This will be used for broadcasting speeches and plays.

THE PUBLIC LOUNGE.—Modern tubular chromium furniture is used here, as in the other larger rooms of the studio.

THE ANNOUNCER'S BOOTH.

NEW RADIO STATION OPENING

The Hon. F. Jones Will Inaugurate First Official Broadcast At Napier Studios

The new Hawke's Bay radio transmitter, with the studios at Napier, is to be officially opened at eight o'clock tonight by the Acting-Minister in Charge of Broadcasting (the Hon. F. Jones).

After nearly a year's work the transmitter unit at Opawa was completed a few weeks ago and test broadcasts have been made daily. The installation of apparatus at the studios at Napier, situated in Dalgety's Building, Dickson Street, provided space with the assembling of the transmitter.

Designed to give a complete Hawke's Bay coverage, 2YH Napier is the Dominion's most modern broadcasting station. Special provisions have been made for the technician in charge to control the volume of transmission modified from all outside causes, so that it does not rise above a certain level.

The technician also "watches" the programme, changing it for better or for any sign of failure in particular lines broadcast from the "live" studio room or the outside programme of the station will be broadcast through the central "Who's Who?" which is being broadcast for the first time in New Zealand.

The opening of this comedy show will be the first broadcast and the new station will have the distinction of being the first to broadcast the B.B.C.'s recorded voice.

The Napier Male Quartet and special recordings are included in the initial programme, which is arranged in sound accordance in the main.

The broadcasting equipment includes a variable tone frequency, which enables the engineer to place the entire programme in the key it is giving the best possible effect.

THE CONTROL ROOM.—A technician is carrying out a test of the equipment.

THE FILING DEPARTMENT.—Here are kept all records for transmission purposes.

THE NO. 2 STUDIO.—This will be used for the broadcasting of solo items. The station programme engineer, Mr. S. D. Smith, L.R.S.M., is at the microphone.

SIDELIGHTS ON NAPIER FORM Later Meetings In Prospect PROVINCIAL REPRESENTATIVES AT FEILDING

Tiger Gain Nearing Top Form (By MORTON)

The entry list shows that the Feilding Jockey Club's spring meeting has again proved a draw-card for Hawke's Bay racing followers. The previous programme has been one of the best showing forms and the team to make the top mark has been the Tiger gain.

Tiger gain will also be represented in this event by the Tiger gain and the former appears to possess the brighter prospects. Hunting Club won a very even field on the opening day of the Hawke's Bay spring meeting racing third on the second day to Currie and Widdow. He was a lucky runner in his only other outing, the Waverley Cup, in which he triumphed strongly into fourth place behind Beasm King.

Peter Bledford, who showed signs at Riccarton of returning to form, is the district's only representative in the Flying Hurdle, but he is a good class runner when right and has only a slight form to make a good account of himself.

ROYAL MINTHREL has a much fresher performance suggests at this week's races, possesses great jumping powers and is a much better jumper than the Tiger gain. He is a much better jumper than the Tiger gain. He is a much better jumper than the Tiger gain.

There is a good class of horses in the district, but the Tiger gain will be the one to watch. He is a much better jumper than the Tiger gain.

There is a good class of horses in the district, but the Tiger gain will be the one to watch. He is a much better jumper than the Tiger gain.

There is a good class of horses in the district, but the Tiger gain will be the one to watch. He is a much better jumper than the Tiger gain.

There is a good class of horses in the district, but the Tiger gain will be the one to watch. He is a much better jumper than the Tiger gain.

CLY BOY has just failed to reach the top class among the three-year-olds, but his form is said to be no more than passing the mark.

GREYHOUND TRACK AT NAPIER ACCEPTANCES FOR SATURDAY GOOD FIELDS

Excellent acceptances have been received from greyhound owners for the opening meeting of the new track at Napier, which will be held on Saturday, November 20th. The track will be a fine one, and the fields are expected to be good.

There is a good class of horses in the district, but the Tiger gain will be the one to watch. He is a much better jumper than the Tiger gain.
