STRONG HINT OF REBUFF FOR CHAMBERLAIN

United Press Association—Copyright. (Received January 10, 10 p.m.)
ROME, Jan. 10.
It is officially stated that Signor Mussolini told Mr. Chamberlain that the English Government should not absolutely insist on talk of Italian-French arbitration, and that they were in three power pact.

It is added that Italy would ensure liberty of action for the French Government, and the latter would not be withdrawn from Italy.
Italian troops would not be withdrawn from Sicily.
France was granted belittled rights.

The Italian Government has announced that Chamberlain's proposal for the settlement of the Italian question is not a serious one, and that Italy will not be prepared to accept it.

PLIGHT OF THE BEE VALLEY. For nearly a week the Fish Valley has been swept by high winds which carry the fine pollen air in blinding quantities of sand. Last night the wind died, but the white sand remained in the air, and the water was so thick with it that the sun was almost completely obscured. Comparatively good weather has prevailed all along the southeast of New South Wales since Saturday evening, affording much-needed relief. But for this change the death toll would undoubtedly have been much heavier. Temperatures along the coast are now back to 60 degrees.

ELECTROLUX REFRIGERATORS

And Their Silent Promise of Lasting Efficiency

The effect on health by the din and rattle of the machine makes up in making the attention of medical science in many parts of the world, and wherever possible means of preventing noise are being devised. Your home is a sanctuary from the din and rattle of the street, and the noise of the refrigerator is a constant reminder of the noise of the street.

UNWARRANTED EXPENDITURE
The enthusiasm of the Government in the direction of spending money remained undimmed. In some cases no one will want to fall back, but when the Minister of Labour (the Hon. P. C. Webb) talks about the expenditure of the sum of £100,000 on public buildings, it is necessary to ask the question, "Is this necessary?"

NATIONAL YEARLING SALES

Wide Interest Is Shown Important Event in the RACING YEAR

Hawke's Bay's Fine Yearlings

To-morrow will be one of the most important days in the year, for the 13th annual National Yearling Sales, the owners of the Dominion's stock will be interested for auction at Trentham, where there will be buyers present representing Australia, South Africa, India, and American interests.

New Zealand, from the days of Carling and other sires, has been recognized as the source of the finest thoroughbreds, but the National Sales has been a wonderful success for the breeders. It is now held at all the leading studs, and it has come to be regarded by the public as the most important buyers as a most dependable market at which to make purchases.

In 13 years the stock sold at the National Yearling Sales has not been less than 250,000 in value in Australia and New Zealand, and provided two Melbourne Cup winners and 100 other winners of the New Zealand and Auckland Cups.

Phil Lee, winner of over 100,000 in value in the 1932 sale of the yearlings of the Sales, for he sold to Harry Zillman's for 17,000, while Peter Chief was bought for 10,000. The "Cannonball" was bought for 10,000, and the "Cannonball" was bought for 10,000.
