ITALY SELLS WARSHIPS TO NATIONALISTS

Protest Demonstrations In London: Action Urged

REPUBLICAN NOTE SENT

United Press Association—Copyright, (Received January 20, 1.30 a.m.) LONDON, Jan. 20.

The National Executive of the Italian Party passed a resolution protesting against the violation by Italy and Germany of the non-intervention policy and the removal of the embargo on the sale of arms to the Republicans.

Mounted police used batons to disperse the crowd attempting to break a cordon and enter Downing Street. After a demonstration two were permitted to proceed at Number 10, which said some be made available to Spain.

The Spanish Republican Government forwarded a note to the Foreign Office expressing amazement and a protest against the violation of the non-intervention Committee regarding Italy's sale of four destroyers and two submarines to the Nationalists. It was requested that the Note be handed on to the controller.

The Note declared that it was difficult to believe that Britain could be involved in the sale in view of the existence of her naval intelligence.

Mr. Attlee, says that he has given careful consideration to the report, which appeared by word of mouth that the four ships were under the control of the Government's agents.

The British Legation, London, has been informed that the Government has decided to send a note to the Government of Spain, protesting against the sale of arms to the Nationalists.
