This could easily be you ...

We made up our minds all at once. You see, we'd been out to a show the other evening and were caught in the rain coming home. Half-dressed we were—Mary's frock ruined, my suit a damp mess.

"Mary," I said, as we were having a cup of tea before turning in, "I'm tired of being without a car. I vote we get Morris Eight—we've been promising ourselves that way." "Mary's face lit up—"Do you mean it?" she cried. "I certainly do," I replied. "You've the keeper of the privy puns—what do you say?"

"Jim," she said quietly, "I've known we could afford it for a long time, but now you're getting more money and your prospects are so good we really are ourselves that Morris."

So down to the Morris Showrooms we went the next morning, and there all sorts of questions. About petrol consumption, tyre life—safe value—options. (I knew all the answers but wanted Mary to be satisfied too.) Didn't need a demonstration—we knew the colour and performance of that car.

The deposit was most reasonable—and I had the choice of 12, 18 or 24 months' terms for the balance. Our Morris was delivered that day—a little beauty with Morris's favourite colour.

So now we're sitting on top of the world! And aren't our friends envious! We've even planned our holiday trip! It beats me why we waited so long. You know, I really believe it actually costs us less to get about than it does for tram fares and odd taxis.

2866 NEW ZEALANDERS made their dreams come true this way in 1938
NEW ZEALANDERS purchased 2,866 Morris Eights in 1938 - 66% more than any model of any other make in the 7.10 h.p. field.
December sales were no less than 226! Truly an unenviable proof that Morris offers unsurpassable value... Why don't you, too, enjoy the comfort and independence of owning this first-choice toy car, the car that combines big-car comfort and performance with running expenses of less than a girating a mile per passenger!
