STRUCK FROM BEHIND WITH HAMMER

Otamouri Farmer Attacked POLICE AND SETTLERS JOIN IN SEARCH

Struck down from behind by an unseen assailant on his farm at about 6 o'clock yesterday morning, Mr William George Corbin, of Otamouri, 26 miles from Hastings, was admitted to Boynton Hospital, Hastings, suffering from head lacerations and a fractured skull.

The police in which the search was carried on was fairly open, but covered to a degree with scrub.

Mr Corbin had spent the previous day on a visit to the Otamouri settlement, and it was about 5.30 a.m. when he was attacked.

Mr Corbin had a feeling that he was not safe, and he was accompanied by his wife and a number of children.

Mr Corbin was a well-known settler in the district, and he had a large family.

WORLD PEACE END OF SPANISH WAR WILL MEAN NEW TENSION

"MOST PROMISING" Revival of Doubts And Fears In Europe INCENDIARISM BEGINS

WAR NOT SHIRKED British Interests Those of Humanity

United Press Association-Copyright (Independent Cable Service) (Received February 6, 11.30 p.m.)

London, Feb. 6. The London "Daily Telegraph" says that the Fascist Grand Council statement that the Italian troops will not leave Spain until General Franco has won is a reminder that the end of the civil war will not necessarily end the European struggle.

But the confury it will divide doubt and fear which have been perplexing European capitals since the war began.

The return of Mussolini to the office of premier says that the withdrawal of all Italian troops from Spain is a condition for the withdrawal of Italian troops from Spain.

The expert government of two new cabinets in Spain appear to have been formed.

The improvement in the market situation, however, may not be permanent, as the price of wool is still low.

REPUBLICAN PEACE OVERTURES REFUSED BY GENERAL FRANCO

DR. NEGRIN AND MINISTERS FLEE TO FRANCE

POSSIBILITY OF FURTHER RESISTANCE

United Press Association-Copyright (Received February 6, 11.30 p.m.)

The special correspondent of the "Daily Mail" at Paris reports that the Republican Government is making peace overtures.

Reported meetings between the British Charge d'Affaires, the Spanish Ambassador and General Del Vayo are denied, but it is believed that Dr. Negrin's proposals embrace the immediate cessation of hostilities, offering a treaty for the maintenance of the integrity of the Spanish State.

The Franco Government rejected the peace proposals, demanding complete capitulation of the Republic, and that the Republican Government should be dissolved.

The Franco Government is reported to be negotiating with the British Government to transfer its interests in the Spanish State to the Franco Government.

NO BENEFITS - NO TAX

The announcement that there will be a delay in the introduction of the new benefit under the Social Security Act will not be welcomed by those who are already recipients of the benefit.

Indeed, the Act of 1938 was unhelpful optimistic in setting out the date for commencement of the benefits at April 1, 1939. It is, however, difficult to see what will be some considerable time before the proposal of the Act can be fully into effect.

Wages-earnors and taxpayers generally have heavy enough burdens to carry without putting the Government to get more, and it may be suggested that such a time as this is not a good one for the Government to ask for more money.

It is perhaps a pity that the higher level of wages to-day looks more imposing than it is in reality. It may be thought that it is not necessary to increase the tax rate, but the amount left after providing the ordinary needs of the family is not so large as it used to be.

Description of A Visit to An English Paper Mill

This morning was beautifully clear, and we had a fine view of the mill. It could be seen for miles around, and a great many people came on the hill to look through the telescope.

There was a jolly old man, three or four years in England, who had been in the mill for some time. He was very friendly and we were very much interested in his story.

It is a very interesting paper, which is made of the best quality of paper. It is very strong and it is very smooth.

AMERICAN Scrap Iron To Blame For War Clouds

EXPORT BAN IS URGED

"Childish Neutrality Cloak" And Its Effects

United Press Association—Copyright. (Revised February 7, 1939.)

"Without America's scrap iron from this would be no Sino-Japanese war or belittled European situation. The childish neutrality cloak has been used to prevent the United States from taking our friends at the same time striking America's own national production," said Mr. Henry Stimson, 1919 War Industries Board Commissioner, who issued a warning that the United States could not enter a major war because of the lack of scrap iron, pointing out that 12,000,000 tons were exported over the last five years.

He added that carrying on a war as a neutral country is almost impossible, because other countries use the United States as a source of raw materials.
