GUARD YOUR HAIR AND SKIN AGAINST THE SUN

The Modern Outdoor Girl Should Consider This

During the summer months the modern girl spends practically all her spare time out of doors, with the consequence that, although her health is improved, her skin and hair suffer.

Not only will her skin and hair require special treatment, but her make-up should also be adapted to the summer conditions.

The outdoor girl will notice that her skin becomes dry and itchy, and that her hair becomes brittle and falls out.

Each night the outdoor girl should use a special cream to keep her skin soft and supple, and to prevent it from becoming dry and itchy.

A COLD WATER RINSE In the morning, a cold water rinse should be used to refresh the skin and to prevent it from becoming dry and itchy.

# Why Made "Snow White" Urge in Early Youth

(BY WALT DISNEY)

There were several, one sentimental and the rest practical, why I decided on the thick-lash SNOW WHITE AND THE SEVEN DWARFS, as the basis of our studio's first feature-length animated picture.

In the first place I can remember seeing "Snow White" as a play when I was a small boy. I saved some of the money I made from my newspaper route to go and see it, and I was so impressed I could have seen it over and over.

But to get down to practical reasons, here they are: SNOW WHITE AND THE SEVEN DWARFS is evergreen and beloved in practically every country in the world. The seven dwarfs, as they were "made" by the medium of art, and muted pictures. In them we could install humor, but not only do we have physical appearances, but in their mannerisms, individual personalities, voices and actions.

# The Success of "Pygmalion"

The biggest success of Bernard Shaw's masterpiece is due to the age of its 42 years through the work of Francis Taylor. Pygmalion was first produced in London by PICTACOLM, owned by Francis Taylor. It was later produced in London with Willfred Lawson's production. A new edition of the play is being produced in London. Shaw's "Pygmalion" is credited with having been the first play to be produced in London and throughout the world. It is now being produced in London. ## THE LOST ATLANTIS

The mystery that has fascinated the world for 2000 years, and which remains dating observations have tried to solve, will form the basis for the LOST ATLANTIS now being produced for London Picture Palace, Curzon and Grand Theatres. The discovery of the lost continent under the waters of the Caribbean Sea for 12000 years, according to the renewed accounts, will embrace the strange and mysterious story of the lost continent, which is penetrating the world's had time. The discovery of the lost continent is a dramatic chapter from the past. The story is a dramatic chapter from the past. The story is a dramatic chapter from the past.

EXCLUSIVE "DAILY MAIL" INTERVIEW "If we could only transplant one square mile of our fertile South Island farms to the West Coast, we would do so," said Mr. H. L. Smith, one of the fourteen South Island tourists who are in New Zealand on an interview with the "Daily Mail" in Napier yesterday.

Meers S. G. and Graham and H. L. Smith, as spokesmen for the party, were in the city of Hastings.

"There is a great deal of interest in New Zealand," Mr. Smith said, "and we saw a good number of the best farms in the South Island."

They are the heart of the picture, the reason why we love to see them. They are the reason why we love to see "Snow White" again and again.
