Stay Beautiful And Healthy During Your Holidays
 A FEW SIMPLE PREPARATIONS WILL PREVENT MUCH DISCOMFORT
 Holidays are always the most precious time of the year. To many of us they are something for which we have anxiously waited for twelve months. Therefore see that you enjoy them beautiful and healthy, and do not spend part of your holiday in being sick.
 When on holiday we must remember that our body is a machine, and that change of routine will very quickly upset it. Change of food, change of clothes, and even change of beds is often quite enough to make us irritable and spoil the whole of our glorious vacation.
 Camping is a great change. In this case we are liable to over-exhaustion both in day and night, the weather is often very hot, the ground is often very hard, the water is often very dirty, and the food is often very unwholesome. To guard against all this we should carry a bottle of preventive medicine on our campsite, and use it as often as we need it. This medicine is so simple and so effective that it will prevent all the common ailments of the campsite, such as indigestion, headache, and diarrhoea. It will also prevent all the common ailments of the campsite, such as indigestion, headache, and diarrhoea. It will also prevent all the common ailments of the campsite, such as indigestion, headache, and diarrhoea.
