Improvement Likely As European Tension Relaxes: Early Negotiations

British Official Views (Received March 1, 8.30 p.m.)

The belief that industrial activity in Britain was fully ready for an upswing was expressed by the President of the Board of Trade (the Rt. Hon. Oliver Stanley) in a speech at Birmingham.

It is said that the international tension relaxed one could be helped, hope to be a most substantial improvement.

As an increase in Britain's export trade was vital, said Mr. Stanley, Experts estimated that there was a net increase of 200,000,000 in the value of exports of nearly 200,000,000 in 1938, it is a total of nearly 200,000,000 in 1939.

It is said that the international tension relaxed one could be helped, hope to be a most substantial improvement.
