MOBILISED RUMANIAN TROOPS AWAIT NEXT MOVE FROM GERMANY

KING CAROL AIMS TO PREVENT SUDDEN RAID IN NORTH

POSSIBLE NEXT STEP BY HUNGARY

United Press Association—Copyright, Independent Cable Service.
(Received March 21, 12:49 a.m.)
Two hundred thousand Rumanian troops are mobilised in the north and east along the Hungarian frontier awaiting Germany's next move.
King Carol has declined to justify military measures to prevent a sudden shock and gain rail to the north.
The Budapest correspondent of "The Times" says that it is estimated that Hungary has mobilised 300,000 men, of which the purification of Ruthenia is regarded as essential. It is officially stated in Budapest that Hungarian troops have attained all their Rumanian objectives.
It is reported from the Hungarian frontier that 35 Hungarian SS divisions have been ordered to stay in days. Many others have been placed under arrest.
According to a Berlin message the Hungarian Premier (Kakul) telegraphed to the German Foreign Minister (Herr von Ribbentrop) thanking him for the understanding shown by Hungary's claim for co-operation and the repatriation of its soldiers.
He added that a further step had been taken in the interests of the peaceful settlement of the Central European problem.

London reports of increased military activity in Hungary, indicating the calling up of reservists, many of whom have been used in the Rumanian frontier, are reported with misgivings. It is considered that Germany might strike Hungary to attempt to regain the Hungarian minority area from Rumania.

Then Germany would attack Rumania on the ground of the necessity of halting Hungary.
A large London message states that the British Cabinet Press Bureau correspondent claims that the Rumanians are not mobilising any units within 200 miles of their frontier, and that the Rumanians are not mobilising any units within 200 miles of their frontier, and that the Rumanians are not mobilising any units within 200 miles of their frontier.

The Times reports that Count Tizoli and his Foreign Minister (Cakul) were today thanked by King Carol for their assistance in the occupation of Ruthenia.
The Times also reports that King Carol has ordered that the Rumanian army should be ready to move at any moment.

LONDON, March 20.
The German newspaper (Die Welt) "Daily Telegraph" says that the German President (Dr. Paul von Hindenburg) has responded to the people's demands for independence.
He added that military measures had not yet been taken, but that the Reich would maintain the independence to the full extent of its forces.

STUNG U.S.A. PROTEST TO GERMANY

May Act With England And France Against Hitler
SEVERING OF RELATIONS?

United Press Association—Copyright, Independent Cable Service.
(Received March 20, 8 p.m.)
WASHINGTON, March 19.
The Acting United States Secretary of State (Mr. Sumner Welles) in collaboration with President Roosevelt, has completed the drafting of a vigorous formal Note to Germany containing the expression of Czechoslovakia and indicating further parallel action with England and France "to stop Hitler's show".

It is believed that it may result in the severing of diplomatic relations with Germany. It is also believed that the United States will participate in a conference with England, France and Russia to determine ways and means of halting Hitler's march to the East.

A leader in "The Times" says that the Germans are misreading the signs of the times, which are evidence of the collapse of international confidence to other nations. Machiavellian calculations and hidden motives for aggression.
The attitude of Czechoslovakia in the case of the Sudetenland is a powerful statement, which, with the accompanying multilateralism, is more eloquent because the purpose was one of the four who undertook to preserve Czechoslovakia in its free state.
"Europe is driven back upon itself. Nothing else counts for anything."
It was not a happy moment for Herr Hitler to offer a guarantee of the signs of the times, which are evidence of the collapse of international confidence to other nations. Machiavellian calculations and hidden motives for aggression.
The attitude of Czechoslovakia in the case of the Sudetenland is a powerful statement, which, with the accompanying multilateralism, is more eloquent because the purpose was one of the four who undertook to preserve Czechoslovakia in its free state.
