Although some of the earlier prices were put by because of the low prices offered, there was a fairly steady demand for fat cattle for the Stortford Lodge stock sale yesterday.

Some of the best specimens of fat cattle, possibly accounted for in part by a light yarding. Eweing was comprised a fair proportion of the offerings and the demand for these was not so keen as for better quality ewes and lambs.

FREING THE EXCHANGE RATE

From reports of meetings held by farmers—sheep-raisers particularly—the Dominion Council has received the Government's suggestion for a temporary scheme of exchange rates, which the Dominion Council has agreed to support.

These producers have expressed their unwillingness to follow the Government's suggestion, but have suggested an alternative scheme. The proposition may be accepted, but it is not yet clear whether it will be accepted.

The Government's suggestion is to fix the exchange rate of the pound sterling at 20s. 6d. per £1. This is a rate which is lower than the current rate of 21s. 6d. per £1. It is a rate which would result in a depreciation of the pound sterling.

The Dominion Council has agreed to support this suggestion, but it is not yet clear whether it will be accepted.
