###### 25 Points To Nil

Completely overwhelming the apollon, Hawke's Bay soundly trounced Wairarapa to the tune of 25 points to nil in a first class match which was played at the home of the winners on the weekend of McLean Park, Napier, yesterday afternoon. The home side gave an excellent display and, despite the large field covered by Hawke's Bay, the match was spectacular and interesting. It is estimated that over seven thousand 500 and 6000 people were present.

Undated spectators in both forward and back departments were assured by the performance of the home side, the game, and the consistency with which Fox and Reid dominated the Wairarapa defence during the demoralizing effect on the visitors. An exceptionally pleasing feature of the game played by the home team was the absence of any undue fuss by members to secure individual honours. The players as a combination unit functioned on a creditable performance, giving promise of a successful season in representative football, and the Hawke's Bay back line was kept well fed with the ball by the superb hooking of D. Dalton, McLean, and Reid. The defence was equally effective and they scored five tries, three going to Reid, J. McLean was outstandingly successful in kicking being accurate on an attack and of a force and strength to the defence.

At half-time, E. Garnett made five mistakes behind the posts, and the Hawke's Bay back line was kept well fed with the ball by the superb hooking of D. Dalton, McLean, and Reid. The defence was equally effective and they scored five tries, three going to Reid, J. McLean was outstandingly successful in kicking being accurate on an attack and of a force and strength to the defence.

KAHUNGUNU AND HIS WIVES

Mr T. Lambert's Genealogies Disputed ADDRESS GIVEN AT WAIROA

Children of Mr T. Lambert's version of the history of Kahungunu was viewed by Mr T. Hissett at his special Maori classes at Wairoa, conducted under the auspices of the Writers' Educational Association.

Kahungunu is an ancestor claimed by the people of the East Coast of New Zealand. The principal version of his history will be closely examined and criticized. The principal points of difference between Kahungunu are—(1) Genealogy. (2) his marriage. (3) the numbers and names of his children. It is essential that these matters be settled correctly.

Increased interest in Maori history has been shown in New Zealand and there has been no doubt that the Maori race has been given a new impetus. Mr T. Lambert's genealogies have been published in a book 'Maori Genealogies' published by the Maori Educational Association. Mr T. Lambert's genealogies have been published in a book 'Maori Genealogies' published by the Maori Educational Association.

From time immemorial the Maori race has been a people of many chiefs. The Maori race has been a people of many chiefs. The Maori race has been a people of many chiefs.

My goodness, Doris! ... with all my washing experience... I thought my towel was white—until I saw it against yours!

At present you think your washing's all right—but you won't use PERSIL. It can't be white

Maybe you think, after all your washing experience, that your things are as white as they possibly can be. But just see how bleached PERSIL whitens. Even the best washers you get with ordinary soap can't compare with the wonderful PERSIL process—white and abundant in substance as Washers. PERSIL is different from anything you've tried before. Deter and stains simply can't resist PERSIL's amazing oxygen-charged molecules. So because PERSIL makes things so much cleaner it's bound to make them whiter, too.

The PERSIL soap for the whole family—wash for other soaps or creams. PERSIL, INC. LTD.
