Four golden guineas...

... nothing more and nothing less ...

"Four guineas"—that would depend upon what you got for the money, my dear son—here's the time—four guineas for getting your chest punched and your pulse tested would be very bad."

"Quite"—there's no need to hurry, it's early yet. It's exceptionally good value... "I've seen 'em years—makes you feel you're doing a good job for yourself. Don't you think you're late—a job that—makes you feel you've done a good job for yourself? That's what I feel about these coats we've just bought. Well I'll be blessed—I—that's what you've been referring to all the time. Four guineas? I'll say it's not bad—a lucky few want these you know, they're a great few, Blackmore's."

"What about whistling that chap over there—there's much to spare. Four guineas?—I'll say!"

THE NEW ZEALAND DEFENCE PROBLEM UNDER REVIEW

Informative Address to Young Farmers' Club in Hastings

"Defence is not a matter of party politics. It is the responsibility of every man and woman in the country," said Lieutenant N. Crossman, in a most informative address to the members of the New Zealand Federation of Young Farmers' Clubs in the Chamber of Commerce building last evening.

The Government, Mr. Crossman said, had done much to modernize army equipment. The Government had been introduced. For the individual soldier there were new uniforms and higher rates of pay. It was the responsibility of every man and woman in the country to ensure that the Government was getting the best value for its money.

Engineers had a high reputation for their work. They were responsible for the maintenance of the roads and bridges. They were also responsible for the maintenance of the railways and the shipping industry.

The New System. Mr. Crossman said that the Government was introducing a new system of taxation. This was a necessary step to ensure that the Government had sufficient funds to carry out its duties.

Industry and Commerce. Mr. Crossman said that industry and commerce were the backbone of the country. It was the responsibility of every man and woman in the country to ensure that industry and commerce were as efficient as possible.

##### Good Progress In An Unusual Sport

Fencing has always, though one of the oldest sports, is a comparatively recent one. In New Zealand, it is only since 1904 that it has been introduced, and that year was the first year in which a New Zealand team took part in the annual international tour which was held in London.

Two unexpected ways in the Napier-Hastings Rugby competition have been those of M.A.C. over Hastings, and Hastings High School over M.A.C.

### Out-Diying Ribs

They were the Hastings who were the surprise of the season, and they were the Hastings who were the surprise of the season.

### Something Lacking

The M.A.C. pack was good, but it was not the Hastings who were the surprise of the season.

### Roll Goes Well

The Hastings were well supported, and they were the Hastings who were the surprise of the season.

### Sound Player

Although the score was not a great one, the Hastings were well supported, and they were the Hastings who were the surprise of the season.

### Believe it or not

Black & White is a very good brand of tobacco, and it is the Hastings who were the surprise of the season.

### THE satisfaction you'll enjoy from one tin of Black & White Ready Rubbed Fine Cut will convince you that you have found the perfect cigarette tobacco.
