## DR GOEBBELS LAUNCHES VITUPERATIVE TIRADE AGAINST BRITISH WRITER

### FORMER NAVAL MAN WHO SENT CIRCULARS TO GERMANS

#### COMMANDER KING-HALL'S ACTIONS

(Received July 15, 1.13 a.m.)

BERLIN, July 14.

The Minister of Propaganda (Dr G. Goebbels) writing in the "Völkischer Beobachter," devotes 800 words to an unusually vituperative tirade in which he attacks Commander Stephen King-Hall, formerly of the Royal Navy, but now proprietor of a newsletter service who is sending a series of circulars to German businessmen and others explaining the real facts of the international situation.

The "Völkischer Beobachter" editor says that the letters are investigated by the British Foreign Office and are sent at strings up people against the Führer.

It was indignantly expected that King-Hall had been told to stop his "Völkischer Beobachter" but it was a surprise to discover that he had not.

The "Daily Telegraph" says that an Anglo-German military and naval agreement was signed in which England and France respect the Polish frontier and in return the Poles are to be allowed to remain for a year in a state of armistice. It will provide a credit of £50,000 for the purchase of raw materials.

The German Embassy has explained to the "Daily Telegraph" that the agreement is not a military agreement but a commercial one. It is a measure to assist the German economy in the event of a crisis. It is a measure to assist the German economy in the event of a crisis.

The Magic Multiple-Unit Electric Train

Although it is a year since the modern multiple-unit electric train began running between Wellington and Johnsonville, it is still a novelty, to be enjoyed by visitors.

The train glides so smoothly through pleasant landscapes that a passenger may well be led to leave the very comfortable seat at the end of the journey.

This train is a wonderful expression of human ingenuity. Unquestionably it shows that progressive policy the New Zealand Government Railways are not lagging behind the railway contrivances of Europe or America.

### EXPENSIVE PROGRESS

By Telegraph-Press Association  
**PARLIAMENT BLDGS., July 14.**  
 The Government's policy in relation to housing, the introduction of milkers and the provision of modern schools was praised by the National member, Mr. W. J. Polson, in his speaking in the Address-to-Reply debate this evening.

He said that the Government had made a great deal of progress, but that this progress was being made at a heavy cost to the country's credit. He also pointed out that the Government had spent over £100 million in the last three years on schools, and that this was also a heavy burden on the country's credit. ## "DO THE DAIRY FARMERS WANT THE GUARANTEED PRICE?" ASKS MR SAVAGE

IF THE OLD SYSTEM IS PREFERRED ALTERNATIVE STEPS MAY BE TAKEN

### By Telegraph-Press Association

**WELLINGTON, July 14.**  
 "It is plainly the duty of the Government in view of certain election facts and statements which are being made throughout the Dominion to take steps to find out whether the dairy farmers actually want the guaranteed price or not," said Mr. C. E. B. Savage (Hokitika) in an interview this evening on his statement in the House in reply to a question by Mr. C. E. B. Savage.

"We have made an honest effort to improve the position of the dairy farmers of New Zealand, and what we have done has not been satisfactory to the farmers themselves. It is now for us to consider what alternative steps should be taken."

Mr. Savage said that when the Labour Government came in, it had to deal with a situation in which the dairy farmers were not getting the guaranteed price. He said that the Government had tried to do what it could to help the farmers, but that it had not been successful. He said that he was a simple man and that he did not want to be bothered with too many people.

The Rules Of Conduct For A Butler

Just how does a butler get about his work? ... It is not a very exacting position...

For instance, he should be at least 5 feet 6 inches tall, and have a good command of the English language...

Furthermore, the best advice for the butler is to be a gentleman, and to be a gentleman is to be a gentleman...

The first referred to the butler's dress, which should be clean, simple, and dignified...

Miss Virginia's husband for example, she says, is a butler, and she says she has never seen a butler who was not a gentleman...

A Fashion In The Making

She is a girl who is a girl, and who is a girl, and who is a girl, and who is a girl...

She is a girl who is a girl, and who is a girl, and who is a girl, and who is a girl...

She is a girl who is a girl, and who is a girl, and who is a girl, and who is a girl...

She is a girl who is a girl, and who is a girl, and who is a girl, and who is a girl...
