LONDON, July 15.

In a statement issued in London to-day, the New Zealand Minister of Finance (The Hon. W. Nash) said that his negotiations for a loan for the Dominion had been indefinitely postponed.

It is understood that the New Zealand counter-proposals to the British offer.

The high yields of New Zealand stocks, despite the delay in concluding the credits, have attracted investors on the market. The 4 per cent. 1945 stock and the 3 per cent. 1952-53 stock are both steady.

The "Inquirer Chronicle" considers that a long-term view of New Zealand justifies optimistic optimism.

"I have heard nothing to suggest that the negotiations have broken down," said the Prime Minister (the Rt. Hon. M. J. Savage), commenting on Wellington on Sunday in the cable statement by the Hon. W. Nash, said a Press Association telegram from Wellington.

Mr Savage said that the last advice he had received from Mr Nash was on Saturday morning, where the indications were that, with the exception of one or two outstanding points, the negotiations had been completed.
