BLOODLESS BLOCKADE OF JAPAN
An American Suggestion
COMBINED ACTION WITH BRITISH NAVY
Cordon Across the Pacific

Hated Press Association—Copyright.
 (Received July 28, 7:45 p.m.)

The New York "Daily News," the paper with the largest circulation in America, has a significant leader on the American blockade of Japan, the first treaty with Japan, it states:

"The suggestion has come to the United States in the 'white war' which Japan is fighting with the British in China. We cannot see that we deplore the State Department's action. It seems to us that the three nations appropriate for American and British cooperation in the blockade of a certain 'white war' move that has been contemplated for the defeat of the Japanese military expedition. The Japanese Army, British, long-range naval blockade of Japan leads to Singapore, Hong Kong and the Andaman Islands. Such a blockade would in all likelihood be bloodless, since the Japanese would not come out to a fleet at sea or try to break it."

S.O. NEW IN DESIGN... so old in reputation

S.T.C. RADIO STILL LEADS

Surprisingly often in these new S.T.C. radio ads, there is one
feature that is all as to S.T.C. reception here, and that is
their inherent quality.

The same fine craftsmanship and engineering ingenuity that has
made their radios the best in the world is now being put into
an even greater degree. The finest technical brains of the world
are working on the design of a new line of radio-entertainment
multi-band and anti-interference circuits; push-pull output; high
powered S.T.C. target lighting; all that all contribute to the amazing
openness for listening stations and the perfect realism of tone make
S.T.C. the logical choice.

PREPARATION OF THE SOIL
 (Continued from page 5)
 In the preparation of a garden, the first and most important step is the selection of a suitable site. The soil should be fertile, well-drained, and free from any obstructions. The next step is to clear the site of any weeds, grass, or other unwanted plants. This can be done by digging or by using a herbicide. Once the site is cleared, the soil should be turned over to a depth of at least 12 inches. This will help to break up any clods and to mix the soil with any fertilizer that has been applied. The soil should then be allowed to settle for a few days before any plants are sown or planted. This will help to ensure that the plants have a good start and that the soil is well-prepared for them.

DRAINAGE OF GREAT IMPORTANCE
GARDEN NOTES
Work With Flowers And Vegetables
 This is a timely reminder to the amateur gardener as to the importance of drainage. The chief reason for this is that waterlogged soil is not only unproductive, but it is also harmful to the plants. Waterlogging can cause the roots of the plants to rot and can also lead to the growth of fungi and other diseases. To avoid these problems, it is essential to ensure that the soil is well-drained. This can be done by digging a drainage ditch or by using a drainage pipe. The ditch or pipe should be dug or laid at an angle of at least 1 in 100 and should be at least 12 inches deep. It should also be lined with a material that will prevent the soil from falling in. Once the drainage system is in place, the soil should be allowed to settle for a few days before any plants are sown or planted.

FRUITING TREES
 The best time to plant a fruiting tree is in the autumn. This is because the soil is still warm and the tree has time to establish its roots before the winter. The tree should be planted in a sunny, well-drained site. The soil should be well-prepared and the tree should be watered regularly. The tree should also be protected from frost in the winter. Once the tree is established, it should be pruned regularly to keep it in shape and to encourage the growth of fruit. The tree should also be fertilized regularly to keep it healthy and productive.

From Modern Comedy To A Bronte Classic

The last time Merle Oberon played in a film with Laurence Olivier...

The night before last, when Merle Oberon was not out for the fact...

But the greatest difference of all between the two films is that...

Claudette Colbert Fought Her Own Battles

In reviewing the past five years of her life, Claudette Colbert declared that if she were to play work tomorrow she would have to play the role of a theatre man on income of £25 a week.

The remark took her back to the day of a Manhattan midsummer ten years ago when Mrs. Jeanne Chastain was walking shyly through the streets...

Clarette was that against "Cryer" made another anti-theatre battle, and if she were to play work tomorrow she would have to play the role of a theatre man on income of £25 a week.

From "The Bachelor" which made her a success, she went into the theatre. Claudette was not a happy woman when she first began working on the stage...

A LUCKY 'GOLDEN BOY'

Three months ago he was a college Freshman. Now recently he has been named as a Golden Boy...

William Holden in the state of 17-year-old Freshman making his debut about the time of Clark Gable's participation in "College Boy" under the direction of Richard Rosson.

Young Holden was fully prepared for his first screen film. He arrived at the studio early, and participated with his maximum...

Agnes's remarkable beauty showed in her first picture. Her family were residents of the Baltimore area. She also has had her family name in the Baltimore area.

Because she's very strong enough to play a heavy character, her film was especially the result of her own determination...

Two important reviews, John Wayne and Fred Astaire, have both named her as a "Golden Boy"...

John Wayne, in typical happy tone, as he appears in "Timble Tomboy", hilarious comedy from the Regent Theatre, London.

AWAPUNI AND RICCARTON FORM ANALYSED

Two Important Meetings ROYAL KING SHOULD WIN MANAWATU HUNT CUP Old Surrey And Hunting Lore

(By MOTUORA) There are two Hunt Club meetings to-day to occupy the attention of racing-lovers in the Manawatu meeting at Awapuni, where Hawke's Bay horses are freely engaged, and the Christchurch meeting at Riccarton, where the Hopedale, Stables, Longwood Harrier, and Breckenham Handicap form the feature. At Riccarton to-day most local interest will be taken in the contest of Phalaris in the Hopedale Stakes, and, with the good shooting in the middle of the week, it looks as if the Hastings representatives will have a good account of themselves, even though the distance is rather short for such a stout flyer. However, if he makes over the showing over these fences under racing conditions, he will be the National favourite on Tuesday evening.

At Awapuni there will be racing, if recent meetings at Hastings and Manawatu are any guide. The Hawke's Bay horses will have plenty of form to guide them in their deliberations. The field of the Hopedale Stakes is expected to be in good order and form should provide a reliable guide to the result. The Hopedale Stakes is expected to be a review of the fields to-day at Awapuni.

Table with columns for 'LASTEST BREAKING' and 'MORNING MARKET'. Includes race results and market prices for various goods like flour, sugar, and oil.

At Hastings and following is to have place will be the Hawke's Bay horses. However, form points to the Hawke's Bay horses as the favourites. The Hopedale Stakes is expected to be a review of the fields to-day at Awapuni.
