THE EMPEROR AT WAR.
It is not without a feeling of deep emotion that one sets down these words in cold print. What they will mean to the human race and to civilization which has been built up during the past century, only the passing of the present tragedy will tell.

Those who have studied events in Europe since the end of that which was supposed to be the end of all wars are fully aware that diplomatic movements on the part of certain Powers have been characterized by an undertone of bitterness, treachery, and what the German people call "the will to revenge."

With all the weight of the present mighty Power behind him, he has acted. With one voice the Empire, spread over the seven seas, is with him in an enthusiastic and unanimous approval of his action.

# Germans Bomb Many Towns: Hundreds Killed

## HAIL OF BOMBS ON POLAND Open Towns Suffer Damage And Death

### HOLY CITY OF CZESTOCHOWA IN FLAMES

#### Poles Claim To Have Brought Down 37 Raiding Aeroplanes

#### WARSAW SIRENS SHRIEK WARNINGS

United Press Association—Copyright.  
(Received Sept 4, 1 a.m.)

LONDON, Sept. 3.

The Polish Embassy, in a statement, says: "It is officially reported that the German attack was treacherously launched a few hours after the Polish Ambassador in Berlin informed the Reich that Germany had sympathized with the cause of Poland."

"The simultaneous action included tank attacks on three fronts and aggression at all points, which was met by resolute defence, notably by the Garrison at Wester Pultsk."

The Warsaw correspondent of the United Press of America says that a Polish Government communique states that Germany after occupying the Polish borderlands Government, proposed that they would not bomb open towns, to which Poland agrees.

However, the Germans bombed at least 24 towns in Saturday, including the Holy City of Czestochowa, the seat of the Polish Curia, Litz and the holy resort, Bzow, killing and wounding at least 1500.

"Nine of four casualties is arriving—gone." The Government cites an incident in which a plane bombed and machine-gunned a group of peasants and a tractor in a field.

But reports reaching London early this morning confirm the continuance of air attacks all day and night on Warsaw and other Polish towns.

The Polish Embassy in Paris announced that the famous siren of Czestochowa, the counterpart of one at London, was set on fire after a German air raid. It contained no military objectives.

America says that eye-witnesses state that 21 were killed and 30 wounded when a German bomb struck the workers' quarter.

The bodies were recovered from the debris. The bombs already dropped on Warsaw total 120.

They were killed and 58 were wounded.

The British Government and the League of Nations and the American Government have expressed their sympathy for the Polish people and their determination to stand by them.

The British Government has announced that it will send a mission to Poland to investigate the situation and to report to the League of Nations.

## AIR RAID WARNING ISSUED IN BERLIN

### Preparations Made For The Evacuation Of Two Other Towns

United Press Association—Copyright.  
(Received September 3, 11.15 p.m.)

LONDON, Sept. 3.

The Berlin correspondent of the Associated Press of America says that a radio broadcast at 4.30 p.m. issued a warning that a raid on Berlin was expected tonight.

News filtering through from Zurich and Copenhagen indicates that the Germans are preparing for the evacuation of Karlsruhe and Saarbrücken.

Church bells pealed throughout Germany in the morning in response to the return of the Reich.

Radio announcements state that Herr Hitler has decreed the evacuation and bombing of the Iron Cross and has created a new "Knight Cross" of it, replacing the Order Pour le Mérite. The highest German honour for bravery was the Order Pour le Mérite.

The United Press Berlin correspondent says that a German communique says that Polish troops have been defeated in the German town of Scherzberg since yesterday. Great material damage has also done.

Britain's Exchange of Views With Germany
ATTEMPTS TO SECURE PEACE

British Official Views (Received September 2, 7.30 a.m.)

The fact that Herr Hitler's terms for a settlement of the dispute were submitted to Poland, and that the British Government stressed to Germany that the Poles were given time to consider whether those terms infringed their own rights, is made clear by the exchange of communications between the German and the British Governments. These are now published in Britain as a White Paper.

It is shown that on August 23 Poland authorized her Ambassador to the Ambassador by Herr Hitler until that evening. After the interview, Germany broadcast her proposals for the acceptance of the British terms for negotiation, but the Ambassador was not authorized by Herr Hitler until that evening. "Whatever may prove to be the result of the German-German exchange, it cannot allow Britain to withdraw from her position in the present dispute, and she will continue to stand by her allies and to support their just demands for a settlement of the dispute on the basis of the principles of justice and equity."

No Negotiations: The British Government has been asked to negotiate with Germany on the basis of the terms proposed by Herr Hitler. The British Government has declined to do so, stating that the terms proposed by Herr Hitler are not acceptable.

No Confusion As Britain Becomes A Nation At War
KHAKI-CLAD WOMEN AND MEN EVERYWHERE
Grey Shapes Of Balloon Barrage Dominate London

United Press Association—Copyright (Received Sept. 3, 11.45 a.m.)

Britain already bears every appearance of a nation at war, a state into which it seemed almost imperceptibly to have slipped.

Yellow's black-out scenes brought home the gravity of the situation. The main stations were shrouded under dim lights, and there were scenes of the most intense activity, with blacked-out streets everywhere, and families leaving London carrying much baggage.

There was not the least confusion despite the lightning trains, which maintained their schedules. Travellers found the streets as busy as ever, and the city was as active as ever.

Sandwiching, which during the week had proceeded unimpeded by the black-out, was interrupted by the black-out, and first-floor windows, today took firm impetus.

Another firm sign is that the black-out scenes brought home the gravity of the situation. The main stations were shrouded under dim lights, and there were scenes of the most intense activity, with blacked-out streets everywhere, and families leaving London carrying much baggage.

A DETAILED ARTICLE ON THE CARE OF FINGER NAILS

She was going to have a finger nail—she was excited—she burst into the office in a great while, her face a picture of the most intense joy. She sat down opposite me and said "There's half an ounce to make while the train starts to roll and so I'm going." I looked at her critically, approving her simple application, and then I glanced—very glancingly—at the hands lying on the top of my study polished table. They were short, and dainty, and after looking at her lovely features. "When I supposed dainty of this sight, she said to me that what was wrong, as she had just put fresh polish on.

(By MOTOORAL)

Windsor Chief, who showed such class at the Grand National meeting, scored a very popular victory in the Duke of Gloucester Cup for his owner, trainer and breeder, the Inglewood sportsman, Mr. Lou Butler, who son, Fax, was his first ride in a race.

Windsor Chief was well back early, but ran into a fine position behind the seven hunched horses, Very Gold, Golden Ridge, St. Myerell, Courier, De Montaur, and Windsor. He showed great dash and was in the lead at the end of the last straight, where he ran a further wide, then showed further lead and won in the lead by about a neck. He was still far in the lead when he crossed the line and won by about a neck.

Rams, who was backed for a certainty, was awkwardly placed throughout and he never really threatened danger. Black Thread...
