GIRLS AND BOYS COME OUT TO PLAY.—Pupils of the Makino School (Staines) from their new Street at a graceful measure of the fancy dress ball on Thursday night. The ball was a spectacular success.

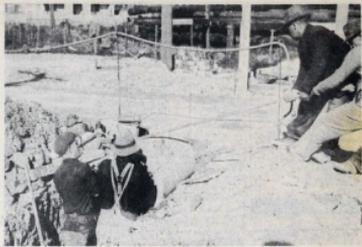

A REPRODUCTION OF A REPRODUCTION OF THE "DAILY MAIL."—The Makino School fancy dress ball produced a colourful variety of references, as a school organizer and reporter were the predominant motifs. The children thoroughly enjoyed the opportunity to "dress up."

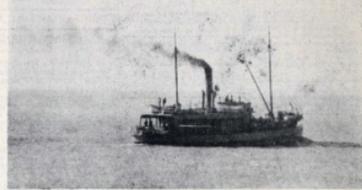

"WUM! WUM!"—A picture taken at the Makino School ball on Thursday night which needs no words.

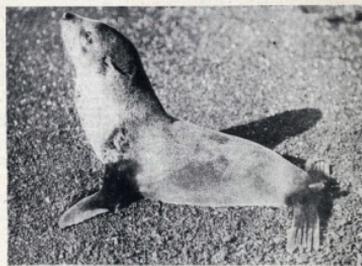

DISCHARGED AS "CURED."—"Fluffy" leaving the home of his good benefactors, Mr and Mrs W. G. Carter, on the Marine Parade, Napier, to return to the sea after making refuge to recover from a second on his shoulder (see picture on right).

STERNWATER DEWASHE AT THE PORT.—To relieve the sternwater overflow problem in Battery Road, Napier, a new drainage system is being laid down to carry surplus water to the beach near Hastings Road on Clifton Road. The drainage pipe here now being laid on in Western Road.

AN OLD FRIEND DEPARTS.—A last glimpse of the ss. Teponao as she sailed for Auckland from Port Albert on Thursday afternoon. The Teponao was formerly employed for many years between Waikanae and Napier, and is now to enter service to cross Waitaki Island and Dunedin.

BACK TO THE SEA.—"Fluffy" the beloved and much loved dog who has been the best friend of a hospital resident's work up, returned to the sea yesterday after a period of rehabilitation. "Fluffy" is not contentedly—rather he is content to enjoy going for his part.

Be Smart!! Be Thrifty!!
Be Modern!!...
CHOOSE S.T.C.
THIS YEAR

Modern in construction... modern in performance... modern in the smooth beauty of their cabinets... these new S.T.C.'s have an instantaneous appeal for forward-looking people.

And because S.T.C. built them, these new sets have a performance to marvel at. On broadcast or short wave, they give you Britain's best quality, perfect adjusted reproduction and a range that covers a host of new interesting stations.

In features, S.T.C. has everything worthwhile. Push-button control giving enormous volume with exceptional fidelity; automatic, multi-position controls for local purity; huge perforated S.T.C. speaker; the latest and most accurate tuning dial ever designed; and most important of all BIPHAS the new Vander Valves which give S.T.C. performance by at least 50%.

In the vanguard are two new sensational models which are unquestionably the finest low priced all-wave sets ever built, either on the series inductance circuit, cascade, matched, for electrical or battery operation and remember all were built by S.T.C., the Company that built the B.C.

Apparently a new chapter in Power politics is about to be written by Japan. Her preparations to extend the Axis military agreement to form a tripartite pact between Germany, Italy and Japan...

Curiously enough, a more misadvised combination could hardly be imagined than a Rome-Berlin-Tokyo Axis. A versatile diplomat of German origin...

It is a fact that the Axis powers have been formed. Indeed, the weakness and vacillation of the League may have been directly responsible for the series of treaties which have been signed...

One nation would stride in one direction, while the other would be obliged to retreat and retreat of this kind is a sure sign of weakness and inferiority...
