THE NEW MAIN SCHOOL, PARIHAKA, constructed in accordance with the plans from the State Control School. This photograph, taken about 1935, shows the original Main School which then occupied a site at the corner of Wilson Road and Franklin Street. Opened in 1935, the school had, just before the start of the century, a roll of over 3000. The building was burnt down in 1935.

That bedspread looks awfully dingy—but I daresay you'll wash those colours like new!

It's just as she said... PERSIL IS MARVELLOUS FOR COLOURS!

There's good reason why coloured things come out of a Persil wash clear and brilliant. Persil's suds are oxygen-charged to get things perfectly clean with no hard rubbing to damage colours or fibres. Indeed, Persil cleanses so thoroughly that tepid or even cold water may be used if colour articles are likely to run. And Persil washes so quickly that things are out of the water in next to no time. It's by washing things so much cleaner that Persil keeps them brighter.

Don't forget... Persil's gentle cleansing makes things last longer. PERSIL, INC. LIMITED. 6238-1102

SPECTACULAR BLAZE AT NAPIER HIGH SCHOOL

Manual Training Department Guttered: Firemen's Hard Task

The manual training department of the Napier High School almost completely destroyed by fire last night, with only two books of those available, the firemen's efforts were unavailing.

A resident in the locality saw the fire at 11.15 p.m. and awakened the headmaster (Mr. W. F. Foster), who remained in the school grounds, but later helped to get the fire station, and within a few minutes the first engine was on the scene.

The building, which was a wood and iron one, was built in 1922 at a cost of approximately £2000. It measured 100 ft. by 100 ft., and housed electrical and engineering equipment, including a large lathe, and other machinery, valued at about £1000. This, in addition to equipment for woodwork and planning instruction, was also destroyed.

At the height the fire was most intense. When the fire was under control the building was alight at all points, and the firemen were unable to get the building to stop burning. The fire was extinguished by the firemen, but the building was a total loss.

With a single haul of wood coupled to the engine, the firemen were able to get the building to stop burning. The fire was extinguished by the firemen, but the building was a total loss.

It is estimated that the fire broke out at 11.15 p.m. and that the building was a total loss. The fire was extinguished by the firemen, but the building was a total loss.

PATRIOTIC COUNCIL HAS ITS INAUGURAL MEETING

Representatives At Hastings: Opinions Differ In A Long Discussion

A strong under-current of conflicting opinions regarding the scope and application of the recently drafted regulations was apparent at the first and a half-hour inaugural meeting...

Attendance made up mostly of representatives from Hawke's Bay local bodies. Present were elected members including the Mayor (Mr. C. A. Roddick), the Mayor of Hastings (Mr. C. M. Mackay), the Mayor of Napier (Mr. H. G. H. Brown), and the Hastings Town Clerk (Mr. O. R. Harding).

A major point of controversy was whether the War Relief Appeal should be called upon to assist in the allocation of funds. The Mayor of Wairoa (Mr. H. L. Harber) stated that it was the duty of the association to benefit these funds.

Alongside this the meeting was held in the presence of Mr. H. G. H. Brown, Mayor of Napier, Mr. C. A. Roddick, Mayor of Hastings, and Mr. C. M. Mackay, Mayor of Hawke's Bay.

The Government's wish to obtain the ownership of the main trunk line of the railway was discussed by Mr. Harber. He stated that the Government had offered to purchase the line for £100 per mile...

LAST FLIGHT OF EAST COAST AIR SERVICES AT AUCKLAND

History of Pioneering Efforts In Commercial Aviation

The arrival of Glendon will mark the suspension of the Palmerston North-Napier-Christ Church air service. The service was operated by the New Zealand Government.

The history of commercial air travel in New Zealand is a story of pioneering efforts. The first service was operated by the New Zealand Government in 1920.

Both of these companies were severely handicapped. This was due to the high cost of fuel and the lack of government subsidies. The service was eventually discontinued.
