KING OF BELGIANS WILL NOT CO-OPERATE WITH THE GERMANS

Leopold Holds The Key To His Country's Full **Co-operation**

NAZI PRESSURE RESISTED

(United Press Association-Copyright.) (Received August 20, 8.30 p.m.) LONDON, Aug. 20.

"The Times" correspondent lately in Belgium says that German propaganda has been notably successful in Belgium, where the invaders are gratefully accepting a considerable amount of co-operation, which is willingly given.

'The substitution of German military officials for provincial governors is almost the only major change from the old dispensation," says the correspondent. "Nothing is not done to blacken the British, and, in a less degree, the French, in Belgian eyes. This is not difficult, because the King still holds the affection of his people, many of whom are profoundly shocked by the attitude of the Allies to the Royal capitulation.

"The triumphs of German propaganda are less marked as the occupation lengthens; it has become rather overdone. The Germans, also, have not yet been successful in capturing the King's allegiance to the new order. Leopold is the key to the Belgian situation. The future would be simple if he could be persuaded to accept the responsibility to form a Government under German dictation, but the King has consistently refused to co-operate in any way with the Germans

despite all kinds of political and personal pressure.

"The German plans for Belgium are doomed to failure if Leopold maintains his present attitude. No amount of propaganda and no amount of apparent German willingness to listen to the Belgian troubles will turn aside the stark facts of economic disaster. Belgium is likely to become a grave liability if the war cannot be finished very shortly. Tempers on both sides are likely to become worn under the rub of economic necessity. If that happens, Belgium's old spirit of defiance will certainly reassert itself."

ITALIANS' HEAVY LOSSES

(United Press Association-Copyright.) (Received August 20, 12.45 p.m.)

LONDON, Aug. 19. The British forces have successfully evacuated British Somaliland in the face of greatly superior Italian forces, the

War Office announced to-day. It is pointed out that the withdrawal of France from the war gravely upset the Allied plans to meet the Italian attack in North-East Africa, and that the British forces took the only available course of inflicting the severest possible losses on the enemy before withdrawing.

The greater part of the British equipment was saved, and the remainder was destroyed.

A communique issued at Cairo states: "After fighting a brilliant American Ship rearguard action against picked Italian formations, supported by tanks, Halted artillery and aircraft in overwhelming strength, all the British force in Somaliland was successfully evacuated from Berbera last night." MEXICAN ACTION

ated from Berbera last night."

A War Office communique states:
"The original Allied dispositions in Somaliland were based upon a scheme of close Franco-British cooperation. Under this scheme, the French forces at Djibuti were to hold the right flank—the pivot of the whole position.

"With the sudden secession of the French Government from participation in further hostilities, a new and grave situation was created. More than half the available Allied force had been neutralised, and it became immediately necessary to decide upon the most effective measures for dealing with the emergency. for dealing with the emergency.

Time Factor. "Various alternatives were open to us. We could reinforce British Somaliland in sufficient strength to ensure its safety, but to do so would have involved the employment of important reserves, thereby weakening our reserves in other theatres of war more important to our immediate war effort than Somaliland. The time factor was also a serious consideration. This plan, therefore, was reluctantly abandoned.

"Another alternative was immediate unresisting evacuation. This meant giving up British territory without fighting, and thereby losing an opportunity of inflicting losses on the enemy in men and material which it would be difficult for him to replace.

"This third course was chosen and the evacuation of Somaliland has now been successfully completed. Our force has been withdrawn. Dramatic Story Of Raid That Won V.C. For Pilot

'PLANE BADLY BATTERED

(British Official Wireless.) (Received August 19, 7.10 p.m.)

RUGBY, Aug. 19. Telling the story of the operation against the enemy for which he was awarded the V.C., a young R.A.F. bomber pilot described how he and his crew set off as the last of a party of five bombers to destroy the old aqueduct which carries the Dortmund-Ems Canal over the River Ems. The new aqueduct, he explained, had already been blown up by R.A.F. raiders and the Germans had diverted to the old aqueduct the traffic of the canal, which is of great importance to the indus-

trial area of the Ruhr. Most of the crews knew the way, for they had been there before, and they met no opposition all the way over.

Two Irishmen—a passenger and a seaman—were killed when a German 'plane bombed and machinegunned the Great Western Railway steamer St. Patrick off the Irish coast on Friday. There were 70 passengers aboard, mostly women and children from South Wales. When nearing the Irish coast the 'plane swooped down from a great height and dropped two bombs, which fell 50 yards from the ship, rocking it. The 'plane then banked and turned and when almost alongside the ship the German reargunner swept the port deck with machine-gun fire.

The 'plane then disappeared.

CONFIDENCE

(WITHOUT APOLOGY)

J. WATTIE CANNERIES LTD. offer no apology for their complete confidence in the fruit and vegetable canning industry of Hawke's Bay. Their ability to adequately develop the canning industry in this district has been proved by the remarkable growth of their

CONVINCING PRODUCTION FIGURES:

Less than 20,000 tins in 1935, their first year—1,700,000 tins in the past year, and now planning for an output of 2,500,000 tins during the coming season. This is real progress which will be maintained as more orchards of canning fruit trees and plantations of asparagus come into bearing. They are buying all available supplies and require more. There are more than 180 growers of fruit and vegetables supplying the factory and they unanimously expressed their confidence and satisfaction in the treatment received from and service given by the management. Moreover, these suppliers at their last meeting asked the Hon. Minister of Industries and Commerce to prevent the establishment of a proposed second factory in Hastings. This viewpoint was supported by the Hawke's Bay Fruitgrowers' Association and the New Zealand Fruitgrowers' Federation Ltd.

Because of the remarkable success achieved by J. Wattie Canneries Ltd., other canners were recently tempted to apply for a license to open a factory in Hastings. It is pleasing to announce, however, that the confidence of the 180 suppliers, the opinions of fruitgrowers' organisations, backed by commendatory testimonials from large and reputable traders, proved that the present factory is adequately developing and catering for the industry in Hawke's Bav and therefore the establishment of a second factory would be uneconomic. The Bureau of Industry, after considering all the evidence submitted, declined to issue a license for a second factory. The applicants then put their case before the Court of Appeal (before Sir Francis Frazer), but their appeal was disallowed and the decision of the Bureau confirmed.

Before Wattie Canneries opened, hundreds of canning pear trees were being cut down because prices were unpayable, and no peach trees were being planted for canning purposes. Since the opening of their canning factory, thousands of pear and peach trees have been planted by its suppliers. Many hundreds of acres of asparagus, tomatoes, peas, and beans have been planted under contract to the factory. It is worthy of note that New Zealand was importing thousands of pounds' worth of these canned products.

The firm of canners which now wishes to open a factory in Hastings was invited by the Hawke's Bay Fruitgrowers' Association and also by the Hawke's Bay Fruitgrowers Ltd. to open a factory here shortly before the Wattie Canneries came into existence. They refused, however, stating that the district was not suitable. Apparently the successful establishment of a factory with local Capital, Labour and Enterprise has caused them to change their opinion—surely a compliment to the local factory

This proves that but for the enterprise of J. WATTIE CANNERIES LTD. in Hawke's Bay there would be:—

Canning.

No Canning Factory.

No Thousands of Canning Pear and Peach

No Hundreds of Tons of Canning Tomatoes

No Large Plantations of Asparagus.

No Tons of Green Beans grown for Canning.

No Hundreds of Acres of Peas grown for

No Hundreds of Workers engaged in the

No Thousands of Pounds circulated in the district by the Canning Industry.

Therefore J. Wattie Canneries Ltd. make no apology for their activities in Hastings, but they plan for the future with greater confidence than ever. Their confidence is supported by the suppliers, the traders of the Dominion, and now by the Government. J. Wattie Canneries Ltd. will prove that this confidence and trust have not been misplaced.

UNITED STATES SUPPLY

On any list of strategic war materials one of the most important items is rubber—rubber for adhesive tape and hot water bottles, battery cases, raincoats and machine belting, engine mountings and insulators; rubber, above all, for automobile tires and inner tubes.

The United States is by far the largest consumer of rubber in the world, but 97 per cent. of world production is concentrated in the East Indies—Dutch, British, and independent. The tree which supplies the bulk of the world supply, hevea brasiliensis, is a native of tropical America.

The minister of an Otago church, who was conducting a service for children, recently had a convincing demonstration of the definiteness of juvenile opinion and the materialistic outlook of the rising generation. His subject was the conversion of St. Paul, and, in an endeavour to impress his audience with the miracle which had occurred on the road in the miracle which had occurred on the road in the miracle which had occurred on the road in the miracle which had occurred on the road in the miracle which had occurred on the road in the miracle which had occurred on the road in the miracle which had occurred on the road in the miracle which had occurred on the road in the miracle which had occurred on the road in the miracle which had occurred to the acle which had occurred on the road to Damascus, he asked them to imagine, as a similar circumstance, Hitler undergoing a change of heart and recognising Mr Churchill as a great leader whose philosophy and beliefs were wise and good. Even allowing for miracles, this was too much for the children. "I wouldn't believe him." blurted one girl, whose believe him," blurted one girl, whose statement was vigorously endorsed by a small boy, who ejaculated, "He's a blooming liar."

PROGRAMMES HOW BRITAIN'S PEOPLE ARE "STICKING IT OUT"

Quiet Acceptance Of Continued Air Raids Is Reassuring Indication

After a recent week of almost continuous nightly air raids, the British people are carrying on in the conviction that the outcome of the "Battle for Britain" depends in large measure on how the civilian population can "stick it out," in

the official phrase. A quiet determination pervades the country as it faces the supreme test of its long history. So marked is the public calm in face of danger that the authorities have issued congratulations. One reason for the high morale is that people are co-operating more fully with the Air Raid Precautions

Here are a few impressions, drawn from this writer's personal experience. When the sirens of London wailed on a recent morning he was dozing in a motor omnibus on the way home. We were in the outskirts of the city. This was the first alarm we had heard since the opening weeks of war.

The rest of the passengers had dis-

appeared by the time the situation was fully grasped and there was then an informal conference be-

The sequel to the curbside deliberations was the decision of the crew to take the bus and its solitary remaining passager, along with all try news.

Vast Possibilities Of New Scheme

Dr Willard H. Dow, President of the Dow Chemical Company, sole producers of magnesium metal in America, has announced that the company is disregarding all precedent, custom and industrial convention, is turning to Neptune's storehouse and is actually about to produce metal out of sea water (says a message to the "Christian Science

Monitor"). Until this Aladdin-like manufacturing development was made known to the world, the company had confined its magnesium metal production to Midland, Michigan, where the main factories of the company are situated and where the raw material from which the metal is extracted is taken from

the ground.

More than a thousand acres of land on the Gulf at Freeport, Texas, have been purchased. Construction of new factories, offices and laboratories at Freeport represent a development that will call for an immediate expenditure of approximately 5,000,000 dollars.

It was only a few years ago that the Dow Chemical Company announ-ced that it was going to take brom-ine out of the Atlantic Ocean to supply a necessary ingredient for anti-knock gasoline. And, accordingly, a huge plant was erected at Wilming-ton, N.C., where 200,000 gallons of sea water can be treated every min-

It is very tempting to gaze about, and see what you can see on such occasions, but it is accounted the unstorehouse contains some 175,000.00 tons of chemical combinations of such materials as gold, silver, cop per, iron, magnesium, potassium aluminium, calcium, radium, stron tium, chlorine, bromine, iodine and sulphur. Each cubic mile of these materials has a potential value of some 5,000,000,000 dollars.

Extensive Research Extensive research and quiet investigation were carried on for many months to determine the best possible location to tap these inex-haustible resources. After studying many possibilities, Freeport, Texas, was selected because of its natural

advantages. The property is located on an estuary of the Brazos River which flows into the Gulf of Mexico at Freeport. There the Government maintains a 32-foot channel with a large turning basin for sea-going ships, thus making the location ideal for shipping. Availability of an unlimited supply of essential raw materials determined the selection of

Zoning Scheme Criticised

MILK DISTRIBUTION

Suggestion Of Borough Control

LABOUR PARTY VIEW

The fortnightly meeting of the Napier branch of the New Zealand Labour Party was held in the Com-

munity Hall on Monday night, when Mr J. Law presided over a large attendance. In the absence of Mr W. H. Barry the secretarial duties were performed by Mr H. Steele. The suggested milk zoning, which it was stated would definitely begin on September 1, created severe criti-

cism when it was found that in spite of the considerable saving in the consumption of petrol and the consequent saving in cost to the milk vendors in certain areas and by certain of the consequent saving in cost to the milk vendors in certain areas and by certain of the consequence of the conseque tain firms, the cost would probably be increased to the public.

It was felt that although the branch desired to assist the Government in every way in its desire to decrease the consumption of petrol, yet, it was essential that the strictest supervision be made of the operations under the zoning system to ensure that the public would not suffer through the system, especially as regards the likelihood of a desecond feature on the programmes stated that the public would not suffer through the system, especially as regards the likelihood of a decrease in the quality of the milk supplied. It was suggested that the Borough Council should take over the control, and this received a very favourable reception. Ultimately a committee consisting of Messrs L. Law, W. H. Barry, H. Steele, T. Armstrong, Mrs Meek and Mrs Jacks son was set up to make certain in quiries, with power to act.

Local Body Elections

Considerable discussion took place on the receipt of a letter from the Minister of Internal Affairs asking for the branch's opinion on the advisability of postponing local body elections which are due to take place for an appointment.

"Kentucky Moonshine" Ritz Brothers

"Kentucky Moonshine," a riotous comedy featuring those movie mani-acs, the Ritz Brothers, is now show-ing at the Mayfair Theatre, Napier. ing at the Mayfair Theatre, Napier.
The plot concerns the efforts of a radio station to acquire new talent—but not of the phoney kind. The Ritz Brothers, hearing of this, depart for the hills, don beards, aclike hill billies, and wait for the talent scout. Extricating themselves from the obvious results of this fraud is what provides most of the uproarious fun of the plot. In addition to the three Ritz Brothers, Tony Martin and Marjorie Weaver, the cast includes Slim Summerville.

"HEART OF THE NORTH"

With "A Slight Case Of Murder"

"Heart of the North," the Warner Bros. production in Technicolour, which is now showing at the Regent Theatre, Napier, is a thrill-packed and completely authentic tale of the Royal Canadian Mounted Police. The picture has all the elements restricted the state of the Royal Canadian Mounted Police.

Royal Canadian Modified Folice: The picture has all the elements required by a first-rate out-door film—adventure, action, suspense, the beauty and interest of unfamiliar landscapes, and a large cast of popular players. Heading the list are such well-liked performers as Dick Foran, Gloria Dickson, Gale Page, and Janet Chapman.

The first thrilling episode in the story is the holding up by a band of outlaws of a little river steamer that is carrying priceless furs and miners' gold from the trading post to civilisation. From then on the story details the clever identification by Foran, an officer of the "Mounties," of the "master mind" behind the hold-up.

"A Slight Case of Murder" a farce film that frankly and unreservedly makes fun of the whole business of gangsterism and racketeering, is the second feature. Edward G. Robinson is storyed.

nd feature. Edward G. Robinson

But he's a different Edward G. Robinson. He's no menacing, guntoting, sinister underworld character this time. He's a fellow who was a beer baron in dry days and now, since prohibition reneal has been since prohibition repeal, has been trying to get along as a legitimate brewer. But he's a dry at heart; he's never tasted his own brew.

THE HOUSE ACROSS THE BAY"

Joan Bennett In A Tense Human Role

With George Raft and Joan Ben-

The central figure in the picture is Brenda Bentley, played by Miss Bennett, a young girl, confronted with the problem of adjusting her life to a strange fate when her husband is sent to prison for income tax evasion. This role, which is out standingly dramatic, gives the alluring Miss Bennett wide scope as she is seen as a singer and dancer in addition to her dramatic opportunities. In one sequence of the film she sings and dances "Chula Chihuahua," her own interpretation of the South American rhumba, and later introduces "I'll be a Fool

Again."
The story of "The House Across he Bay" revolves around the vomen who are left behind to battle heir own odds and to retain their faith and balance, while their husbands are serving terms behind prison bars. Miss Bennett therefore presents a composite picture of a whole group of women who wait for that dim to-morrow when at last their husbands will be free and thus

set them free, too. Miss Bennett sets something of a record for sartorial splendour by wearing 25 different outfits in the picture. This elaborate wardrobe includes five evening gowns, two evening wraps, twelve street en-sembles and a silver fox coat valued

Miss Berg gave a splendid address which was heard with much interest. She said that prior to 1804 when the Bible Society was established the Bible had been translated into 71 languages. To-day the number had reached 1032.

"Of that number the British and Foreign Bible Society is responsible for 741," said the speaker. "The society has also printed the Braille Bible for the blind in 40 languages and last year the Bible Society rejoiced in a record distribution of 11,750,000 Bibles or portions. Of these the churches and missionary societies are responsible for over 4,000,000, and our colporteurs for the remaining 7,500,000."

Miss Berg said that figures of circulation just received from countries in central Europe showed a remarkable increase over the previous

tries in central Europe showed a remarkable increase over the previous year. In Germany no fewer than 275,000 volumes were circulated in 1939, which was double that of 1938. In Hungary the increase was also more than double, while in Czechoslovakia a similar story was told. The circulation in Poland increased from 54,000 to 135,000, and in Latvia and Lithuania a striking advance was recorded.

Foot Comfort Is Most Essential

A LITTLE CARE WILL REWARD YOU

Two well-groomed pretty feet are what every woman should reveal when she takes off her shoes and

First remember that your feet fitted into one another as in sockets, and, unfortunately, many of us are suffering from the days when our feet were crammed into shoes which were either too small or not suitable

Of all the ills that the foot is heir to, the most painful, frequent and often very disfiguring are corns.

And not only do corns disfigure the feet, but very frequently they age the face by helping to create lines and wrinkles which should not be there.

be there.

There are many kinds of corns, and a chiropodist can remove the worst corn without the slightest pain. If they have not yet reached the neglected stage, however, they can be treated at home.

Corn Treatment

A hard corn consists of hard skin with a small, hard centre core. If the corn is just appearing, it can often be rubbed away by using an emery board at night and touching with a little iodine each morning. Once the corn has progressed and become painful, it must then either be cut out, which is not advocated for home treatment, or a corn plaster should be used. BLACK & DARK TAN

for home treatment, or a corn plaster should be used.

Soft corns are those which appear between the toes, and are frequently caused either through continual perspiration or through improper drying after a bath. If the corn has reached the stage where it is covered with a white or yellow hard skin, it is better to visit a chiropodist, but it is better to visit a chiropodist, but if it is still in the soft-corn stage it can be treated at home. The main essential is to keep the skin between the toes dry, and this can be done by placing a tiny pad of cottonwool there, and allowing it to remain until all the soreness has dis-

appeared.

Corns which come under the sole of the foot are usually called callouses. Sometimes they can be removed by first soaking the feet in hot water and then rubbing with pumice stone.

Beauty Suggestions

Toe-nails should always be cut straight across. Cutting into the corners will lead to ingrown nails. After cutting the nails, smooth them After cutting the nails, smooth them down with the fine side of an emery board. This will prevent rough edges of the nails catching in silk stockings. And remember that stockings, as well as shoes, can cause corns. Wear stockings which are a good fit, and make sure that they do not fold up inside the shoe.

After the feet have been washed, the cuticles around the toe-nails should be pushed back with the towel and any small callouses which have been softened by the water should be rubbed away with an emery board. After the feet have been divided apply a little cuticle remover. dried, apply a little cuticle removes to the hard skin and then rub i away with a hard towel.

If a little piece of orris-root in a gauze bag is placed in the water in which small linens, such as hand-kerchiefs, are washed, a delicate scent will cling to them.

There was more than the average amount of excitement at Maraenui among members of the ladies' week-day club yesterday when Mrs Sullivan, of Victoria, won the stable-ford competition and Miss Cullen led the field for the L.G.U. medal with a net score of 79. PRODUCTION COUNCIL'S SUGGESTION

Deputation To Harbour Board

"Daily Mail" Special Service. WAIROA.

A deputation from the Production Council waited upon the Wairoa Harbour Board (Mr J. Corkill) at the monthly meeting on Tuesday suggesting that the land reserved for the proposed aerodrome be put under cultivation.

Mr F. H. Mardon who spoke on behalf of the council said that the land

half of the council, said that the land referred to was of considerable size

referred to was of considerable size and could be broken up and cropped, thus helping the drive for increased production.

The yield from this land, said the speaker, would be considerable and as the need at the moment called for the growing of more grain the Production Council was anxious to learn if something could be done and if some scheme could be worked out to utilise the land providing that out to utilise the land providing that it was to remain idle for some time. Mr Corkill informed the deputation that they were awaiting word from the Public Works De-

partment as to when work was to be started on the aerodrome site but the matter would be considered.

A discussion took place, resulting in the following resolution being passed.

That this board advise the Production Council that it does not actually own the land yet and owing to the fact that it was the object of the board to hold the land so as to enable the Public Works Department to start work at the moment it is ready to do so it was not possible for the board to devote the land for cropping or to give a definite tenure cropping or to give a definite tenure of it.

NAZIS' "MYSTERY MAN" IN U.S.

FAILED IN VON PAPEN ROLE

Gathering Net For Plums Of Peace

Germany's Mystery Man No. 1 in America, Dr Gerhard Westrick, is no longer a mystery.

He is Hitler's equivalent of Kaiser Wilhelm's von Papen, and he was sent to America to spread Nazi nets for gathering the plums of peace. But he had to engineer the peace first.

He made his way to America via Russia and Japan, and landed in San Francisco last February. He was registered in the State Department's diplomatic list as

Department's diplomatic list as "commercial counsellor to the German Embassy."

On June 17 Westrick registered at the Waldorf Astoria Hotel, New York, but, though he maintained an apartment there, he was actually living on the country estate of Harold Callan, a well-known lawyer.

The "New York Herald-Tribune" apparently spent considerable time. apparently spent considerable time and effort in delving into Westrick's

Undoubtedly, Westrick, who follows the von Papen technique of the Great War, came to prepare the way for the discussion of peace in the United States.

To realise what he was a must accept the theory that Hitler expected quickly to over-run the Low Countries and France—which he did—and that then Britain, left alone, must certainly make peace and lose no time about it.

Taunts to U.S. This was the meaning of those cryptic Press statements which emanated in Berlin early in June, boastingly teasing the United States, and particularly President Roosevelt, with the taunt, "You in America are too late to save Britain

erica are too late to save Britain At the same time and under the same belief in this policy and course of events, German business men in

South America began to make firm offers to deliver German machinery and other manufactured goods to South America and Mexico in Sep-tember and October. So certain were they that these eliveries could be fulfilled that

deliveries could be fulfilled that they imposed penalties against themselves for non-delivery.

Incidentally, they realise to-day that their peace plan has misfired, because during the past week they have known to have hedged concerning these contracts to the extent that they have purchased goods in that they have purchased goods in the United States to fill commit-ments that they cannot avoid.

Plenty of other events synchronised with the arrival of Westrick. For instance, there was a persistent story up and down Wall Street that the blitzkrieg might not happen after all, and it was almost certain that there would be peace before

Tried 'Plane Sabotage

This yarn coincided with the period of the election preliminaries, and perhaps was designed to head off Mr Roosevelt from his chief emergency argument in favour of It is also assumed that one of the

principal occupations of Westrick was to throw sand in the gears of Lord Beaverbrook's representatives, who were buying 'planes in the United States, and otherwise to hinder deliveries as much as possible. How unsuccessful were Germany's attempts at official sabotage in this direction can be appreciated from an announcement that the United States Government, through the Secretary of the Treasury (Mr Mor-genthau) approved of unprecedented efforts by American factories to send 'planes, and other supplies, to

The Takapau Dental Clinic Compittee's annual meeting was held in the school on Saturday evening, Mr. R. Davies presiding.

Two weeks after his arrival in New York, Westrick was joined by his wife, Imtrud, and his two sons, Klaus (9) and Peter (6).

His visitors were of an unusually diverse character running from fac-

firm executives.

To some of these he painted glow

SOMALILAND EVACUATED

There is every chance in the world for scaremongers to ply their illicit trade and to seek to make capital out of the fact that the British forces have been withdrawn from the north-east corner of Abyssinia, known as British Somaliland. But what we need here, as elsewhere, is a sense of proportion. It has been said more than once in recent days that Great Britain and the Empire of which she is the centre are not so much concerned with territories as with the main objective of winning the war in the long run.

It happens that this is a small bit of British territory which has been occupied by the Italians and that the situation in Africa on the whole has been altered in consequence. The cards fell the right way up for Mussolini when France pulled out of the fighting, otherwise French Somaliland, adjoining the British territory, might have had a decisive say in the matter. However, the gap was left and no good is to be gained by crying over spilt milk.

Although on a smaller scale, the masterly withdrawal from British Somaliland is reminiscent of Dunkirk, and there is no reason whatever to be pessimistic about the final result in the Mediterranean and the Red Sea. The units of the British Navy cannot be everywhere at once, and in the Mediterranean they are doing, and doing gallantly, the work for which they were designed.

Many a time it is sound policy to bait with a sprat to catch a mackerel—to yield a little in order to gain more. The black-shirted Mussolini supporters will doubtless make the welkin ring with the news of their glorious victory and, following in the footsteps of Adolf Hitler, may ring their bells and hang out their flags. But the fact remains that the evacuation is merely one move in the great game. The hazards of war come and go, and it cannot be expected that no losses will be incurred.

It has been clearly pointed out in the relevant news item published this morning that three alternatives faced the British Command in Somaliland. They could have importuned the Home Government for strong reinforcements so as to enable them to hold out against the worst that the enemy could do (this would, of course, have meant that other fronts would be correspondingly deprived of British troops); they could have walked out without a fight (which is not the British way and which would have cost grievous losses of material); or they could have utilised the minimum number. of men to man the positions until the last moment and to inflict the maximum of damage on the foe. The last course was adopted, and from all points of view it was the best, for it was the nearest to the Dunkirk model, which will stand for all time as the most successful rearguard action in history.

The situation is therefore, roughly, this: The British military leaders have refused, even at the expense of what may be called a defeat, to take their eyes for one moment from the main issue. It may have been part of the unholy Germano-Italian pact to distract the British attention to a possible "defeat" at the south-eastern end of the Red Sea. That plan has utterly failed. British Somaliland (in the meantime) has been "given in." That small part of the world will be dealt with later on when the main task is accomplished. There is therefore no need to get into any nervous state about the fact that British forces, at the admitted expense of some territory in Africa, have been set free for activities elsewhere. Those who are in charge of our destinies are taking the long view. The smaller losses will ultimately be more than balanced by the ultimate larger gains.

"British Children"

A petition in divorce, postponed from the commencement of the Napier Supreme Court sessions was heard by Mr Justice Ostler yesterday. The case was one in which Jean Marshall (Mr A. H. D. Mayne) proceeded against John Marshall. Petitioner was granted a decree nisi, to be moved absolute within three months, with interim custody of four children.

Between 30 and 40 firearms have been received at the Napier Police station, and some 30 at Hastings, in response to the request for owners of .303 rifles and .45 or larger revolvers to submit them for examination. There are still a large number which have not been forwarded, and the District Inspector of Police requests that these be handed in to the nearest police station as early as possible.

Earthquake Measure

The adoption in Masterton of model by-laws, framed by the New Zealand Standards Institute with a view to dealing with earthquake resistant construction is in view. The Mayor (Mr T. Jordan) stated that the borough had ordered a number of copies of the new building bylaws, which were being printed by the Government, to which the new cessary preamble, and conclusion would be added to make them applicable to Masterton borough. The Municipal Association, he said, had recommended that all its constituent members should adopt these bylaws. When the copies of the bylaws came to hand the new code would be adopted by the borough and would replace the existing bylaws. Owing to the number of "unfortu-nate incidents" which have occurred on troop trains, the Army Department has given instructions that in future no liquor may be taken on the trains, and soldiers may not visit hotels near stations at which the train is stopped. The measure is stated to be directed not only to the safety of the men themselves and others, but also to the protection of railways property, which has suffered rather severely on occasions. Travelling Tribunal Set Up To Investigate

INTERESTING EXAMPLE

By Telegraph—Press Association

WELLINGTON, Aug. 20. In a statement regarding the work of the Aliens Tribunal, the Attorney-General (the Hon. H. G. R. Mason) said it was naturally attending first to cases which could most easily be disposed of in Wellington, but certain cases outside had to be handled because of their urgency and the provisional recommendations made were being put into effect. But in such cases the opportunity would be given later to the alien to appear in person.

"Daily Mail" Service

To Readers

A novel idea which has been enthusiastically received in other districts of the Dominion is to be adopted by the "Daily Mail," providing an opportunity for readers to send personal messages to their friends or relatives in the First, Second or Third Echelons, or the Air Force. In a special column messages will be published in the "Daily Mail" on Saturday, and these papers may be sent to the men overseas. In the meantime this service will be given monthly.

It is known that a large number of "Daily Mails" are regularly posted to men in the echelons, and it is felt that this "per-

In ordinary court proceedings, said Mr Mason, it often happened that in the brief report that would be given in a newspaper, a true evaluation of all the circumstances could not be given, and the justice of the judgment might be less convincing to the reader than to those who heard the case in court.

The tribunal had before it not only the story of rumours or suspicion and any explanation given by the alien, but also much other information constituting in all a sound basis from which a judgment might be drawn.

When the case appeared in court, the police officer who prosecuted said that the letter was one which, in the public interest, could not be read in court. The letter was one to his father relating to nothing but his own business. Although there was a defiance of the regulations well meriting a sharp penalty, a complete examination of his case showed that whatever else might be said or thought of him, there was no indication of sympathy with or any desire to assist the enemy. Arrangements have been made for him to return immediately to Australia. But the case illustrated showed the need for caution in jumping to conclusions.

DEATH OF FIANCEE THE CAUSE

Auckland Inquest Held

By Telegraph—Press Association. AUCKLAND, Aug. 20.

A letter intimating his intention of committing suicide because of the recent death of his fiancee was produced at the inquest before Mr F. K. Hunt, coroner, concerning the death of a young man whose body, with a bullet wound in the head, was found near the top of Mount Hobson on Monday night.

The deceased was identified as Alban Arthur Custance, labourer,

single, aged 28. Victor Midgley said that he had shared a flat with the deceased in Grafton. The deceased was alone when witness left the flat on Monday evening and although he was in good health he had been very depressed since the death of his flancee, Fay Alexander, on July 26.

"He was no more depressed than usual since her death when I left the flat," the witness continued. "He never stated his intention of committing suicide, and I had no reason to believe that that was his intention.

Letter Found "As far as I know, he did not possess a firearm. When I returned home I found a letter from the deceased signifying his intention of committing suicide and advising that his body would be found on the too of Mount Hobson."

Witness added: "The deceased was a Canadian and a graduate of St. John's College, Winnipeg. I believe that his only living relative is a sister living in Canada."

The inquest was adjourned.

tanker Ole Jacob, which collided with the British motor ship, Armadale off Cape Campbell on the night of July 31, arrived under her own power from Wellington to-day. Work was begun on the damaged thip as soon as she berthed by about

50 employees of an Auckland en gineering firm which has secured the contract for the repairs. The work of cutting away the lamaged parts was begun and the

German raiders brought down over and around Britain during the past week have been destroyed in the ratio of nearly three bombers to one fighter. During the past seven days, which have seen the most intense air battles ever fought, R.A.F. fighters have shot down 516 Nazt raiders, including 380 bombers or fighter-bombers. On Thursday, when the Germans used at least 600 bombers, apart from fighters, they lost 127, or one-fifth of their raiding bomber strength. Yesterday they lost 92 out of the 400 bombers sent considered. Rumania has issued counter-proposals for an exchange of population and the cession to Hungary of sufficient territory to cover the ex-

WASHINGTON, Aug. 19.
President Roosevelt has nominated the Under-Secretary (Mr Claude Wickard) to succeed Mr Henry A. Wallace as Secretary of Agriculture.

Fleet was "withdrawing from this base."
This has drawn the comment from London observers that the British Mediterranean Fleet, unlike the Italian Navy, frequently leaves its base in order to cruise in the Mediterranean and take the offensive against the Italian wireless is endeavouring to distract attention from these operations and their true significance by depicting them as the flight of the British Navy from danger.

THEIR MAJESTIES-GOD BLESS THEM!-The King and Queen in their native element as representatives of the British love of the sea and the command thereof.

The conference adjourned after a session lasting 45 minutes. A raider early this morning drop-ped high-explosive and incendiary bombs in a south-west coastal town and jettisoned others as it was chas-ed to sea by British fighters.

One house was demolished, and the occupier and his wife were buried under the debris. It was an hour before they were released. Both were taken to hospital. Other houses were damaged and some set on fire, but the outbreaks were quickly extinguished. Several houses were damaged in a garage.

NAPIER'S RETURNED MEN KEEN TO RENDER SERVICE

Unofficial Training Parades Being Carried Out Weekly

The keenness of Napier's returned soldiers to offer their services in any capacity which can assist in the prosecution of the war has been notable ever since the outbreak of hostilities nearly 12 months ago. It is therefore not surprising to find that even those rejected for service in the National Reserve (Class II.) on account of medical reasons are continuing their training, and seem quite undaunted.

Most of the men concerned have been rejected on grounds of quite trivial physical imperfections, and they are keen to show that they have as much ability for practical work as their more fortunate companions who have been

N.Z.E.F. DOCTOR'S COMPLAINT

LITTLE ASSISTANCE FOR HOSPITAL

A complaint that no assistance of any kind has been received from the New Zealand Red Cross or the patriotic funds was made by a doctor attached to a New Zealand field hospital in Egypt, in a letter to a friend in Invercargill. The complaint was referred by "The Southland Times" to Mr G. A. Hayden, secretary of the National Patriotic Fund Board, who has replied detailing the sums of money and the quantity of goods which have been sent to the New Zealand forces in Egypt.

Writing on July 17 from a New Zealand field hospital, the doctor stated:—

BOOKLET FOR THE CENTENNIAL

JOURNALIST CLAIMS FOR WORK DONE

Court Case Heard At Hastings

An echo of the Hastings Centen-nial Committee's plan to publish a Centennial booklet on Hastings was Centennial booklet on Hastings was heard in the Hastings Magistrate's Court yesterday morning before Mr J. Miller, S. M., when Andrew D. Morrison, journalist, claimed from W. H. Wood, J. L. Wilson, A. F. Redgrave and G. A. Maddison £34 5/6 for work done in connection with the preparation of the booklet. The defendants were members of the Hastings Centennial Booklet Committee which was set up by the Hastings Centennial Committee.

Mr W. E. Bate appeared for the defendants, while Mr E. J. W. Hallett represented the plaintiff.

It was stated at the outset of the hearing that £10 10/- had been paid into Court by the defendants.

"Dummy" Prepared

"Dummy" Prepared

Plaintiff had been appointed to compile a booklet for the committee, said Mr Hallett. From a Motueka booklet given him by the secretary Mr G. E. G. Rogers, plaintiff prepared a "dummy" of the proposed Hastings booklet. When this had been presented at a meeting of the committee in December, Mr Rogers had suggested that plaintiff's remuneration should not be more than £100, and plaintiff told the meeting that his charges would be a guinea a column for the material he prepared for the booklet. Plaintiff was asked to leave the meeting before the matter of remuneration was discussed. "Dummy" Prepared

the Hastings Golf Club, to be played to-morrow, Friday, and Saturday. As a result of recent rains and subsequent sunshine the course is in excellent condition, and with a large percentage of low-handicap competitors play for the Hastings championship should be of a very high standard.

Players will be present from Palmerston North, Napier, Feilding, Masterton, Wairoa, Dannevirke, Waipukurau, Gisborne, Auckland, Wellington, and Otago. The starting timetable for the qualifying rounds to be played to-morrow is as follows:— Tenders were called for the publication of the booklet, and in the meantime plaintiff proceeded to collect photographs and data, continued Mr Hallett. He wrote 21½ columns of material and collected between 150 and 200 photographs. These were submitted to the Mayor and approved after certain verbal amendments to the "copy" had been made. Wattie, Ltd., printers, were the successful tenderers, and actually four pages had been set up when the work was halted. A foreword signed by the Mayor and written by Mr Morrison was included in this work.

Rogers paid a visit in the evening apparently some controversy arose between him and plaintiff, and despite the fact that the Mayor had been approving the "copy," Mr Rogers told plaintiff that his "stuff" was not what was wanted.

After becoming insulting to plaintiff Mr Rogers left, but he telephoned plaintiff on the following evening and apologised for what he had said. After further discussion, Mr Rogers said to the plaintiff: "I'll stop you, even if it is the last thing I do."

Plaintiff was asked in a letter to Plaintiff was asked in a letter to meet the booklet committee on January 21, and to be prepared to report on his work and to submit specimens of the "copy" prepared by him, said Mr Hallett. The first suggestion that he was departing from the usual type of booklet was contained in this letter. At the same time he was told not to prepare any further material until the committee review. naterial until the committee review-

It was not until the middle of February that any objection was raised in connection with the work plaintiff was doing.

Material Not Suitable Addressing the Magistrate, Mr Bate said that the booklet committee who were all reasonable men, had felt that the work which plaintiff had done was not suitable for a Centennial memorial which it was intended the book should represent. When plaintiff claimed £34 for work one, the committee realised that he had been misguided and they sent im £10, but this was rejected. It was obvious from the outset what the committee wanted, said Mr

Bate. It was clearly never the in-tention of the committee to have long columns on the fire station or the post office. From the outset plaintiff had held ideas different from those of the committee.

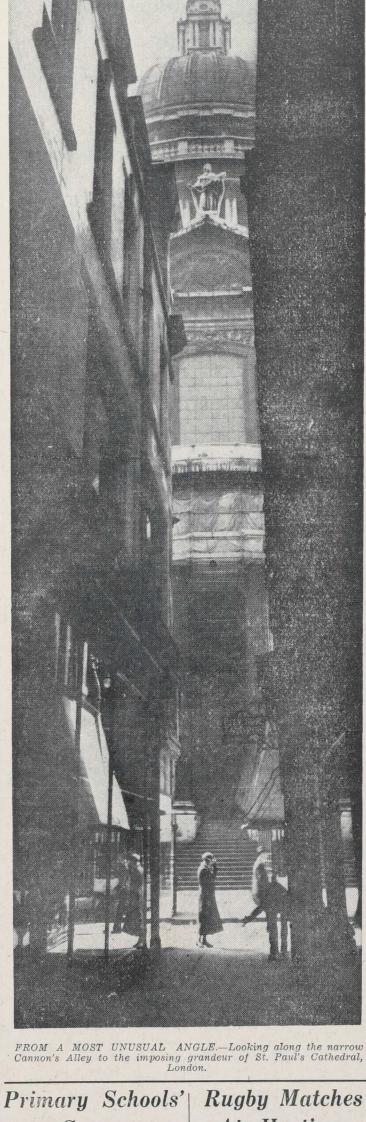

Mayor's Evidence
George Alfred Maddison, Mayor of

the proofs of plaintiff's work was done only provisionally to submit the material to the committee, said Mr Maddison. Witness became Mr Maddison. Witness became per-turbed and knowing that plaintiff was going too far, he instructed Mr Rogers to write to him advising him to desist.

SUPPLIES OF SPIRITS STEADILY DWINDLING

Effects Of Import Restrictions And Nazi Occupation Of European Countries

A member of the last Everest expedition, Mr L. V. Bryant, is to speak at Hastings to-morrow night, and in this connection a prominent member of the Heretaunga Tramping Club has contributed the following atticle to the "Daily Mail":

The fact that in choosing the personnel for the last reconnaissance expedition, the Mount Everest Committee invited a young New Zealand climber, Mr L. V. Mr Bryant's climbing record in New Zealand and in Switzerland was so brilliant that he come could not be overlooked by the committee. In addition he was intermittee. In addition he was interviewed by the committee and reported on as being suitable in every

way to join the chosen few.

Mr Bryant climbed successfully
to some 24,000ft. but owing to difficulties of acclimatisation could not be included in the personnel for the final attempt on the peak. On his return from Mt. Everest he was under a bond not to divulge any details in writing or lecturing about his trip. Nor was he allowed to show any expedition photographs.

ASHHURST-POHANGINA CLUB

Review Of Operations At **Annual Meeting**

The annual meeting of the Ashhurst-Pohangina Racing Club was held at Ashhurst on Saturday night. The president (Mr R. MacDonald) presided over an attendance of 22 members

nembers.

The adoption of the report and the balance sheet was moved by the president, who said that after allow president, who said that after allowing for depreciation the club had been about even on the year's working. This was a satisfactory result, as the club had not stinted the amount of stakes, and the manner in which a meeting was held was really a better aim than having a large credit balance as an object. Successful Meeting

Members could congratulate them selves on the success of the club's last meeting. This was largely due to the stewards and he could assure to the stewards and he could assure those present that those whom they had elected had carried out their duties with credit to themselves and to the district. The advisability of reducing stakes might have to be considered during the coming year, as it seemed that the stakes were at the stakes were club.

However, he would not like to see too great a reduction made, especially as the club was financial and was in a position to give good stakes. Moreover, the success of the racing depended on the owners and trainers, and these were the people most affected in adverse times. The president expressed pleasure at the presence at the meeting of Mr A. W. Trass, a former secretary of the club.

Recreation Mr W. Howell, vice-president, seconded the adoption of the report and palance-sheet. He said that the main thing was to attract the best type of owners and trainers to the club's meeting, and from his experience this had been done. He did not see that the question of curtailing racing would affect the position at the moment, and pointed out the need for providing the public with recreation.

ation.

The major part of the money also went back in taxation, and he thought that for the present the club should endeavour to carry on as it had done. If the time arrived when any other policy became neces-sary he was sure that the club

His opinion was that as long as racing did not interfere with the war effort the club should carry on, and referred to the large numbers whose employment would be affected by the cessation of racing. He thought it would be the wish of members that the jubiles should be clebrated in the jubilee should be celebrated in some fitting way.

The stewards had discussed whether it was better to race on a Saturday or on Anniversary Day, said Mr MacDonald. The only thing against the Anniversary Day date, apart from it clashing with the Trentham fixture, was the weather, which made the course at Ashhurst very dry. Usually a fall of rain before the meeting improved matters in this respect. Personally, he would be very loath to see a change made be very loath to see a change made from January 22. Consistent Form At Addington

The racing at Addington last week showed the consistency of a number of horses, and form worked out well. Dusky Sound was twice first and once second. Great Divide earned a first and two seconds. Marlene two first and a third. Sister Mary first and second, Chatmos first and third, Mute two seconds, Captain Bolt first and third, and Pot Luck first and third.

Timworthy, with more speed than most trotters, is proving a handful for his trainer and driver, and his form has been disappointing. Aristotle, Tan John, Gracie Fields, and Mohican are other trotters that did ot reveal their best form at Adding. By LEMBERG 10 from LADY

C. S. Donald, who headed the list C. S. Donald, who headed the list of winning trainers last season, has made a good start for the present year, and with a double victory by Marlene and one each by Accountant and Captain Bolt, he has four wins to his credit. J. Pringle with Lady Milne (2) and Windsor Lass is second on the list, while R. W. Townley, M. B. Edwards and R. Townley have two each and F. J. Smith has a win and a dead-heat.

Winning horsen at Addington were R. Donald and J. B. Pringle three each, R. W. Townley, J. Bryce jun., R. Townley and M. Holmes two each, and F. J. Smith a win and a dead-heat. The following each won a race: J. F. Foley, O. E. Hooper, M. C. McTigue, J. A. Gerrard, G. S. Smith, M. Stewart, L. Frost and P. Gallagher, while W. J. Doyle dead-heated in one race. Doyle dead-heated in one race.

Millisle put up a great record last season by winning eight races, but his latest form suggests that he has become tired of racing or is not at home on a clay track. In his three starts he broke up badly, and his only placing at the meeting was a third in the Addin-ton Handicap on the third day, when he was beaten the third day, when he was beaten by the dead-heaters, Lament and Nell Volo.

Nell Volo is now 13 years old and her recent efforts show that she has retained her form well. 'he is a wellbred mare, but while she has been mated in successive seasons she has not proved in foal.

The fastest two miles of the recent meeting was recorded by Josedale Grattan, who in running second to Lady Milne in the Heathcote Handicap recorded 4min 18 1-5 sec. This is a fine type of pacer and has only to be given his opportunities to reach New Zealand Cup class. Lady Milne did 4min 19sec and Dusky Sound 4min 10 3-5 sec. The only race at the meeting in which the winner failed to improve on its assessment was the International Handicap on the opening day, when Windsor Lass, from a 2min 45 sec mark did 2 min 45 1-5sec. nark did 2 min 45 1.5sec.

Baroness la Fleche by Ladas 1—La Fleche by St. Simon 11.
LANG BIAN is a particularly handsome horse and closely resembles his famous sire. He was a good winner in the best class races in France.
MASSINE, Lang Blan's sire, was a high-class winner in France, and also beat the Derby winner Papyrus in the Ascot Gold Cup. He has twice headed the winning sires' list in France and he introduces a fresh strain of St. Simon blood through that great galloper La Camargo.
FOREST TRACK'S pedigree is well known. Not only is she by that great brood mare sire Tracery, but her third dam is that wonderful mare La Fleche, the third dam of Beau Pere and Gay Shield, two of the most successful sires in New Zealand in modern times.
